FOR SALE

Environmentally Friendly And Biodegradable Turf Supplement

What if you could eliminate your fall aerification?

What if you didn't have to aerify fairways but once every 3 years?

What if all you had to do was deep slice or solid tine to relieve compaction and then spray to achieve thatch reduction and control?

What if less fertilizer was required because nutrients are given back to the plant and soil from the decomposition of the organic matter (thatch)?

What if through the reduction of thatch, less wetting agents were required?

What if a healthy turf required less amounts of fungicides when you sprayed?

WHAT IF YOU used a product to achieve all of the above items and once you reached your desired level of thatch, you required less product to maintain that level?

Greens Brush Mat

**The perfect light duty drag mat for
gently brushing in top dressing
and for before mowing.**

A thick 5'x5' natural fiber mat surface that
evenly works top dressing into greens
or stands grass up prior to mowing for a
better cut. Won't damage sensitive greens
grass and is flexible for consistent perfor-
mance on uneven surfaces. A single hook
point on either end attaches to the back of
most any vehicle in seconds. Delivered
completely assembled and ready for use.
