Product Q&A

Q: Why should a superintendent visit your booth?

A: To keep up to date on the latest developments in the constantly expanding Quali-Pro portfolio of plant protection products for the turf and ornamental business, like the recently introduced T-NEX 1 AQ plant growth regulator.

Q: Why do superintendents need your product?

A: Quali-Pro offers superintendents quality results and intelligent solutions to agronomic problems. We give supers another choice for high-quality with the added benefit of top value.

Q: What makes your product unique?

A: Quali-Pro products feature formulation quality second-to-none for performance results equal to the competitive brands they replace.

Q: What are superintendents saying about your product?

A: They tell us that Quali-Pro products work as advertised—they appreciate the fact that our products provide the results they demand while providing the extra value of proven post-patent chemistry.
