

The 82.5 percent spray-dried chlorothalonil fungicide readily disperses and resuspends in the spray tank. Echo Ultimate should be applied prior to snow cover to prevent gray snow mold, with repeat treatments at monthly intervals if snow is intermittent or lacking. For pink snow mold, Echo Ultimate is best applied with products containing iprodione.

## Rhapsody

**Agraquest** offers Rhapsody, a microbial fungicide that's effective for turf diseases, including snow mold. Rhapsody is active on snow mold (gray and pink), and has also shown to enhance the performance of chemical fungicides used for snow mold. The active

ingredient in Rhapsody can also activate plant defenses and stimulate plant health.

## GreenJacket Cover

**GreenJacket's** over-winter turf protection system can keep snow mold chemical applications from being washed away by rains or melting snow. The chemicals are retained on the turf for better performance come spring.

## Fore Rainshield

Fore Rainshield from **Dow AgroSciences** is a broad-spectrum fungicide. Rainshield technology means the product resists wash-off and aids redistribution in wet weather. Fore Rainshield attacks fungi in a non-selective manner.

**GOLFDOM** (ISSN 1526-4270) is published monthly (12 issues per year) by Questex Media Group, Inc., 306 W Michigan Street, Suite 200, Duluth, MN 55802. Corporate office: 275 Grove St., Suite 2-130, Newton, MA 02466. Accounting, Advertising, Production and Circulation offices: 306 W. Michigan St., Suite 200 Duluth, MN 55802-1610. **Subscription rates:** One year \$43 (U.S. and possessions), \$65 (Canada and Mexico) and \$98 (all other countries). Air expedited service is available in countries outside the U.S. and Canada for an additional \$75 per year. ## Unmatched Performance

Put the Gandy Dethatcher Overseeder to work on your course, and you'll be amazed at its performance. Here is unmatched

quality, precision and economy in one machine.

The Category 1, 3-pt self-leveling hitch model is PTO-driven for tractors above 18 hp. The unit is 48 inches wide with 24 blades of 8-inch diameters to create slits on 2-inch centers. The overseeder has a stainless steel hopper bottom and slides and holds 100-125 lbs of seed. Material flows through a separate opening disc or shoe assembly for excellent seed-to-soil contact.

The Gandy Slice 'n Seed™ walk-behind Overseeder allows the operator to evenly and accurately place seed in smaller areas.

Talk to your Gandy dealer about how these Gandy Dethatcher Overseeders can work for you. Or call us.

This year, look to Gandy turf equipment to bring more performance to the job. Gandy has been a name you can trust for over 73 years.
