Golfdom archive to be
available online; opportuni-
ties abound for supers,
assistants.

33 Clark Talks Turf
Clark Throssell, Ph.D.,
discusses anthracnose
with Rutgers professors
Bruce Clarke, Ph.D., and
Jim Murphy, Ph.D.

Turfgrass Trends

This month, *Golfdom's* practical
research digest looks at wetting
agents and monitoring techniques
for the annual bluegrass weevil.
See pages 35-39.

Online Exclusive

Stop by the *Golfdom* Daily at
www.golfdom.blogspot.com
to read our interview with Dr.
Frank Wong, who recently accepted a
job with Bayer in Washington, D.C. Why
did he move across the country? Would
you believe it's a love story? It is, and
you can read it on the blog. Also, in July
the *Golfdom* staff will be reporting live
from Husqvarna and Bobcat demos,
as well as from the PGA Tour's John
Deere Classic.

Don't 23 Be a Target

Superintendents must
help outsiders grasp the
environmental benefits
of the golf course.

BY CHRIS SORRELL

18

A Super's Touch

As plant health gains
traction in the industry,
superintendents gain
knowledge on the subject.

By Anthony L. Williams, CGCS, CGM

About the cover

Art director Carrie Parkhill hits
the mark with her choice of
this bullseye image, courtesy
of iStock International Inc.

The above photo celebrates
the environmental efforts at
Stone Creek GC, where David
Phipps is superintendent.

Dr. Beard's Crystal Ball

Dr. James B. Beard, director and
chief scientist at the International
Sports Turf Institute, looks at
professional turf's future and its
humble beginnings. **By Ron Hall**
