

// GRINDERS

1. Anglemaster 4000

The Anglemaster 4000 from **BERNHARD AND CO.** grinds bedknives up to 40 inches long to tolerances within one thousandth of an inch. Grinder comes standard with the firm's new Super-Blue grindstone which are to grind the hardest bedknives longer, harder and cooler. The 4000's operator panel has color-coded function buttons. Along with the digital angle setting and read-out of current and desired angles with auto-cue, all make for simple, error-free operation.

2. 555 SRI

The 555 SRI grinder from **NEARY TECHNOLOGIES** allows for both automatic spin and relief grinding with one easy setup. The hands-free operation during the relief grind allows the operator to perform other tasks while the machine does the work. One-hp motors operate at 3450/2875 RPM. Multi-position brackets for supporting the reel by the frame, and "V" brackets for supporting the front roller during setup make reel placement easy and repetitious. Unit's control console is right out front where the operator has easy access to variable speed spin and traverse controls.

TRANSFILM®

IT'S KIND OF LIKE THAT.

Winter sucks. Literally. It sucks the water out of your turf, shrubs and ornamentals. It's called desiccation, and it can be brutal. But you can help stop it with TransFilm® Anti-Transpirant & Sticker from Gordon's®.

TransFilm reduces desiccation by coating grass, shrubs and ornamentals with a thin film that creates a water-impermeable layer. That protection helps plants start the spring healthier, with enhanced plant vigor and an earlier green-up.

Don't let winter suck the water – and life – out of your turf, ornamentals, and shrubs. **Protect them with TransFilm.**
