## SUPERS, DOGS MAKE NY TIMES

➔ Superintendents — and their best friends — made headlines in a recent story in the *New York Times*.

In the Sept. 1st article “Chasing Off Wildlife, with Course Etiquette,” by Lisa Mickey, several superintendents from around the country were asked about their dogs and how they work on the course. Superintendents included two members of *Golfdom*’s editorial advisory board — Damon Di Giorgio, Fieldstone GC, Greenville, Del. and Bill Irving, Lawrence, CC, Lawrence, Kan. — as well as Alton Sheffield, North Ride CC, Raleigh, N.C.; Brian Peters, the Preserve at Jordan Lake GC, Chapel Hill, N.C.; Scott Gallup, Capital Hills at Albany (N.Y.) GC; and Mike Cooper, assistant superintendent at TPC Sawgrass, Ponte Vedra, Fla.

“Sometimes, he (as in Ozzie, pictured with Irving on page 14) has this look like, ‘God, I just have the best job in the world,’” Irving told the *NY Times*. For the full story visit: [tinyurl.com/m6noq3g](http://tinyurl.com/m6noq3g).

Pinki, Damon Di Giorgio's dog, is not to be trifled with. Trust us.
