1. Grounds Wheelie

From **WHEEL SPRAY CORP.**, the WS-485 Grounds Wheelie features the motorless system that Wheel Spray Corp. is known for. Similar to the WS-480 Grounds Wheelie, the difference lies in the larger tires that are designed to make pushing easy in tall southern grasses or hilly, uneven surfaces. The WS-485 is used to apply liquid fertilizers, herbicides, fungicides and growth regulators. The twin wheel pumps spray a fan of solution 6-feet wide, at the rate of 1000 sq. ft. per gallon.

2. Backpack blower

ECHO INC. announces the release of what the company calls the most powerful low-noise backpack blower on the market, the Echo PB-760LN. The PB-760LN boasts a larger muffler, sound deadening insulation and a mid-pipe baffle to help lower the machine's sound output to 65 dB(A). The annoying whine common to outdated leaf blowers, generated by the main impeller fan, is essentially gone on these models. The PB-760LN features 535 cubic feet per minute (CFM) of air volume at 214 miles per hour.

3. Deep-cycle batteries

U.S. BATTERY MANUFACTURING'S 6-volt, 8 volt and 12-volt deep-cycle golf car batteries incorporate the company's exclusive XC2TM formulation and Diamond Plate Technology. This combination of extremely efficient synthetic tetrabasic lead sulfate crystal structures (TTBLS), allow U.S. Battery's products to reach peak capacity in fewer cycles, to provide higher total energy delivery, and extended battery life. The batteries reach peak capacity in as little as 25 cycles, the company says. U.S. Battery's deep-cycle batteries are available in a variety of sizes and amp-hour capacity ratings.
