

2600

GOLF CLUBS using TORO MACHINERY

From Manila to Carlsbad, and from Winnipeg to Buenos Aires, over 2600 Country Clubs, City Parks, and Private Estates are using Toro machinery for building and maintaining fine turf.

Over a quarter million dollars spent by Toro in originating and developing a thoroughly dependable line of golf course machinery that has been tried and tested under every conceivable operating condition.

Precision workmanship coupled with the highest quality of materials has made Toro the outstanding leader in the golf equipment field.
