

Easier, Cheaper to Operate

The operator has been kept constantly in mind in connection with every detail of construction of the PENNSYLVANIA "New" Fairway Quint or Trio.

As illustrated, a **UNIQUE LIFTING DEVICE** enables the operator to raise or lower the two outboard units of the "New" Fairway Quint to permit it to pass through narrow spaces. The "New" Fairway has fewer parts than any other Fairway mower; its **PULL-FRAME** insures better control and vision; the **CLOSELY-COUPLED FRAME AND UNITS** permit quick handling and short turning; the **HINGED FRAME** insures full flexibility, and the **WHEEL-TYPE UNIT**, being simpler, is easier to adjust and makes shorter turns without digging the turf.

Write for our new **SPECIAL CATALOG**, which pictures and fully describes the "New" Fairway, the Super Roller and New Aristocrat greens mowers and the other PENNSYLVANIA Quality Mowers for Golf Courses.

"Giving Perfect Satisfaction," Says Noted Golf Architect

In a recent letter, Captain D. L. Rees, grounds superintendent of the famous Progress Country Club, at Purchase, N. Y., and a noted Golf Architect, has the following to say about the Pennsylvania "New" Fairway:—

"I would like to go on record that the Pennsylvania 'New' Fairway Quint is giving perfect satisfaction and is, in my opinion, equal to—or better than—the best machines on the market today."

(TORO)

Equipment of Known Value

TORO Compost Machine

The only machine on the market that grinds and screens in one operation. Over five hundred of them are giving daily service with an average annual upkeep expense of less than \$4.00 per machine per year. Capacity—all that five men can shovel into it.

TORO Top Dresser

Improved this year by the addition of revolving agitator and flexible brush together with a larger hopper that can be tilted to any angle, insuring uniform flow. A thoroughly proven piece of labor-saving equipment which is invaluable on any well organized golf club.

TORO Universal Tractor

The Toro Universal Tractor is the best all 'round general utility tractor that can be put on a golf course. Built complete at the factory with wide wheels, spikes, crown fenders, brake, automatic governor and high tension magneto, it is by far the

most satisfactory and efficient golf course tractor on the market today.

By all means, before purchasing any make of tractor, get the full facts about the Toro Universal.

Write today for our new 1929 catalog showing complete TORO line, including tractors, fairway mowers, dump wagons, greens-mowers, and all labor saving equipment.

NOW— the only hose for golf clubs!

Goodyear has made the *only* hose for golf clubs.

The finest, strongest, handsomest hose you ever laid eyes on.

Extra-capacity— $\frac{3}{4}$ and 1-inch sizes.

Extra-strong—a cover of specially tough and abrasion-resisting compound, a tube of consistent strength, a body of 2-braid Goodyear “double-double” high-quality cotton cords embedded in a high-grade, elastic, long-time frictioned rubber.

Extra handsome—a triumph in beautiful olive green.

Cost was not figured in the production of

this extraordinary hose. “Build us the *only* hose for a golf club,” was the order—and Goodyear hose builders responded with this GOODYEAR “EMERALD CORD.”

You will know it by its velvety green cover, its protective lengthwise ribs, and its special label, Goodyear “Emerald Cord” Hose.

If you know finest and most durable quality equipment is genuine economy in the end, you want the Goodyear “Emerald Cord.” Ask for it by name.

Another first-class hose, combining Goodyear standard quality with very moderate cost, is Goodyear Wingfoot Water Hose.

For specifications or other information about Goodyear Hose for Golf Clubs write Goodyear, Akron, O., or Los Angeles, California

PREFERENCE

WHEN over 900 of the leading golf clubs of this country and Canada mark their ballots "Scott's Seed"—there must be a reason.

That reason is found in the fact that year after year Scott's Seed maintains an unvarying quality and consistently produces clean, thick, weed free turf. It can be depended upon and several hundred Greens Chairmen know it. Such dependability naturally creates an increasing number of followers each season.

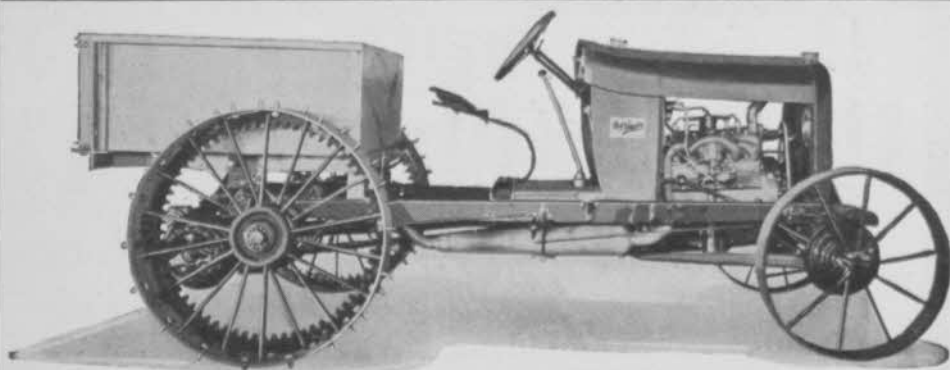

Let us quote now on your spring requirements.

It Perfects The Cutting Edges of any make of Mower

The Peerless Lawnmower Sharpener grinds all makes of Power, Horse and Hand Mowers in 20 to 30 minutes, with razor-like edge, giving any desired clearance or bevel. Mowers run easier, less power required, hence more speed.

A special grinding wheel attachment for sharpening grass shears, sickles, scythes, etc. A skate sharpener attachment sharpens all makes of skates, including hockey.

One club reports they have dispensed with one man. Another writes: "The Peerless Sharpener saves us \$700 to \$800 annually."

Prince Edward Island Bent

Produces an ideal turf for Greens, Fairways, Bowling Greens and Fine Lawns

Extra Hardy and especially suited to acid soils. Does well in rather sandy sterile locations without the water supply necessary to Creeping Bent. Grows upright and makes playable turf quickly.

Grown and recleaned on Prince Edward Island, by the Grass Seed Growers' Association of Charlottetown, Prince Edward Island, Canada.

FIELD INSPECTED, CERTIFIED AND SEALED BY THE CANADIAN GOVERNMENT

THE J. M. McCULLOUGH'S SONS CO.

Dept. A.

CINCINNATI, OHIO

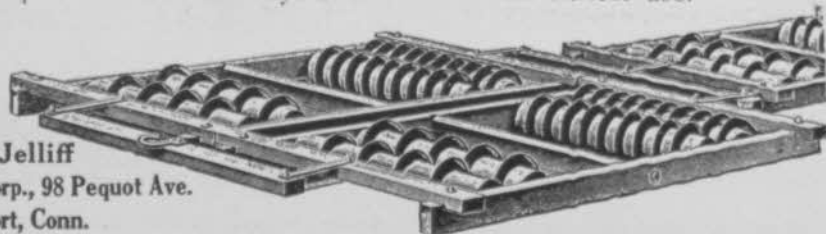

Recleaners and Specialists in Grass Seeds for 91 Years and Wholesale Distributors of Prince Edward Island Bent Seed in the United States.

"Massage" the Fairway Bald Spots with a MEEKER Discing Machine

Let the sharp wheels of the Meeker separate what roots remain, stimulating growth of new blades and opening up the soil to allow air, moisture, fertilizer and seed to bring new, live grass.

The Meeker Discing Machine was especially designed for repair and improvement of fairways and

lawns. Three detachable sections (6' 8" x 3' each) with 28 steel cutting wheels on rollers per section. To be set at angles for re-seeding, scarifying or cutting runners. Easily carries 1,000 lbs. of weight to increase its "bite" in heavy clay. We also make a hand machine; and a five-section Meeker for tractor use.
