

How are playing conditions at YOUR club?

Oakwood Country Club, Cleveland, Ohio

ARE your members able to play in comfort and enjoyment or are they subjected to continual nerve strain for fear of injuring the public who are edging onto fairways for their picnicking and play.

You can restore order and piece of mind by enforcing "keep out" with Page Fence protection.

64 Service Plants erect Page Fence everywhere. Write for name and address of Plant nearest you. Complete fencing aid from first plans to final erection. Interesting literature on request. Page Fence Association, 520 N. Michigan Ave., Dept. A61, Chicago, Ill.

INVESTIGATE! Page fabric available in Copperweld non-rusting wire—reduced upkeep—lifetime service.

F. Hagel, Managing Director.

The Elms is only 28 miles from Kansas City, nestling amid surroundings of natural beauty, with paved highways leading in all directions.

One of the World's Most Famous Mineral Springs Resorts

No Mercy on GRUBS... NuREXFORM Gets Them ALL!

THERE are no half way measures about NuREXFORM. It was scientifically developed to get chewing insects like grubs and earthworms . . . and does it.

It gets them because the finely divided particles of NuREXFORM will sift down through the grassy turf and penetrate the soil where the grubs are feasting on tender roots.

It kills them because each tiny particle of NuREXFORM is two to three times more powerful and potent than ordinary lead arsenate.

Treat your turf for results. . . Take no half way measures. . . Investigate NuREXFORM. Write for special circular on golf course treatment. . . . Address the nearest Rex Company.

Why harbor these hazards

Inferior Pipe in a golf course puts unexpected hazards into the game—excavations made to remove rusted-out pipe—soggy spots caused by pipe leaks. Reading 5-Point Pipe is the remedy for such conditions. Here is pipe that lasts for generations without replacement or repair!

Rust-resisting, stain-defying Reading 5-Point Pipe is made of the original, Genuine Puddled Wrought Iron. You'll find it in many of America's oldest courses, and wherever ultimate pipe economy is important. To prevent mistake, we mark every length of Reading 5-Point Pipe with our indented spiral.

READING IRON COMPANY, Reading, Pennsylvania

For Your Protection,
This Indented Spiral
Forever Marks

Science and Invention Have Never Found a Satisfactory Substitute for Genuine Puddled Wrought Iron

ARMCO

drained courses are

DRY

in the Spring!

Bert Sheldon, greenkeeper at the Cleveland Country Club, superintending installation of Armco Perforated Pipe on his course.

MANY of the best courses are dry and ready for play ahead of the season—because they are drained by Armco Perforated Pipe.

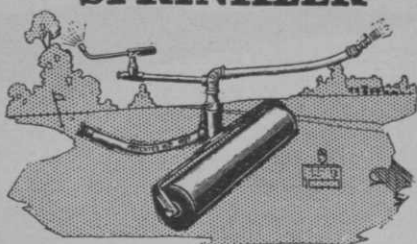

Courses like that at the Cleveland Country Club no longer embarrass a good score with casual water. Fairways and greens are firm and dry. Armco Perforated Pipe, just under the surface, offering no interference to growth of the turf, takes off water as it falls!

Architects and greenkeepers agree that Armco Perforated Pipe, Nature-tested and proved by its unequalled record of 24 years' service in the soil, is the logical pipe for efficient golf course drainage. Armco engineers specializing in drainage offer co-operation in working out any problem of water disposal. No obligation. Write.

Armco culverts and drains are manufactured from the Armco Ingot Iron of The American Rolling Mill Company and always bear its brand.

Middletown, Ohio

THE LARK SPRINKLER

**Endorsed by
Greenkeepers
Everywhere!**

*"We wanted large coverage; we wanted **EVEN** distribution, and we wanted a sprinkler that is always ready for business when we are ready for sprinkling. So we bought Larks."*

*Wherever you see Larks, there is **SATISFACTION**.*

The "Lark" Sprinkles *EVENLY*

125 ft. on 50 lbs. pressure

100 ft. on 40 lbs. pressure

90 ft. on 35 lbs. pressure

80 ft. on 25 lbs. pressure

60 ft. on 15 lbs. pressure

(Pressure readings at the sprinkler)

*There is no other Sprinkler that gives such **EVEN** coverage, from center to outside circumference, regardless of pressure.*

All parts brass, except the roller and the hose pipe.

Send for details or a trial sprinkler. We want you to see the Lark before you buy. Price, \$15.00 each.

L.R. NELSON MFG. CO.
PEORIA, ILLINOIS

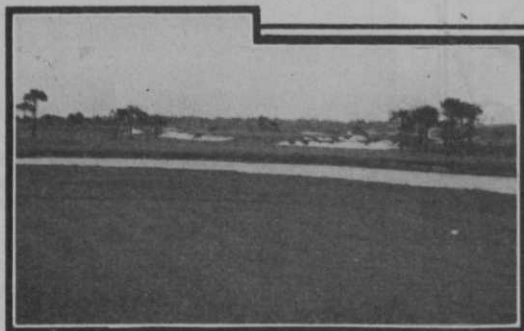

NORTH CAROLINA

The beauty and fine playing qualities of the excellent turf of the golf courses at Pinehurst, North Carolina, prove what NACO can do for established turf. The courses now have an exceedingly fine close stand of Bermuda, and the weeds, wild grasses, etc., have been virtually eliminated. » » »

NACO

"A GOLF COURSE FERTILIZER"

FLORIDA

NACO shows remarkable results in the development of turf on new courses. The photograph on the left shows the wonderful growth of grass on this Donald Ross course in Florida "100 days after planting." NACO is a complete, all organic fertilizer wholly available as plant food. Ample amounts of both quick acting and slow acting Nitrogen insure rapid and continuous growth of the grass. Its Phosphoric Acid (digested fish-bones) builds strong, well developed root structure and its Potash balances the feeding of Nitrogen to produce a tough, wear-resisting grass and healthy turf. » » »

VALUE ... definitely proven!

NACO is now available in the recommended formulas for golf courses throughout the United States. If unable to secure this all organic, complete fertilizer from your Golf Supply House . . . write direct to manufacturers for name of the dealer who can supply NACO

★ A DUAL PURPOSE FERTILIZER FOR GOLF COURSES

To stand cuffing in the driest of weather, turf must be healthy, hardy and have a deep, well developed root structure, for good turf must be developed below the surface of the soil as well as above. To form a perfect carpet for greens, a turf should be free from weeds.

Turf treated with Armour's Special Turf Fertilizer meets these requirements . . . meets *all* the exacting requirements of sod for golf courses. Nitrogen 10%, phosphoric acid 8%, potash 6% . . . these plant foods combined and balanced in just the right proportions for grasses, bring sickly courses to life again . . . develop weak, thin grasses into strong, healthy, vigorous turf.

By forming chemical residues in the soil unhealthy to weeds, Armour's Special Turf Fertilizer inhibits their growth.

Get at the very roots of your turf troubles with Armour's Special Turf Fertilizer. Let it play its dual role to your fairways and greens.

Write for booklet, "Solving the Turf Problem."
