

There's an ECONOMY SPRINKLER

for every watering
need and every golf
course condition

Economy Sprinklers are used on half the golf courses in the U. S. and Canada—modern, sturdy, wear-proof equipment that makes all water systems efficient.

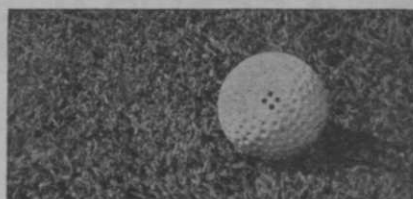

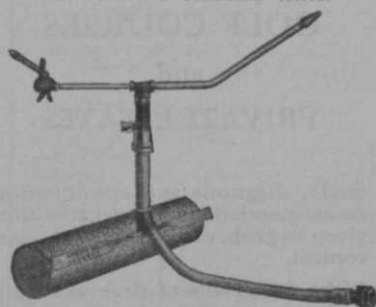

Each of the various Economy models has its own specific work to do and each does it well. Ruggedly built, simple in design, each gives the greenkeeper the best possible assistance in the orderly, even distribution of water.

The President, best for hoseless systems, the Super Simplex, for quick work on the greens, the Traveller, the Spectacular, the Baby Simplex—each of these is solving a golf course watering problem in its own way.

Write us for the name of our agent near you. He can demonstrate and give you worth while watering information.

A Piece of Cocoos Bent Turf

For the Finest Turf Sow Bent Grasses

Because of the extreme fineness and beauty of turf produced from **Bent Seed** we recommend the use of a certain percentage of Bent in all mixtures for *Fairways and Lawns*. Its superiority for use on golf courses, especially the putting greens, has long been recognized.

Grass Seed of Known Quality

TESTED for PURITY and GERMINATION

South German Bent Colonial Bent
Rhode Island Bent Bent Stolons
Special Putting Green Bent Formula
Superfine Fairways Formula (With Bent)

Wholesale prices on above, or any other turf grasses, such as *Fancy Red Top, Kentucky Blue, Cheewing's N. Z. Fescue, etc.*, on request.

COCOOS BENT Because of the fine turf producing qualities of this Creeping Bent, it is meeting with favor in sections, other than the Pacific Coast, where it is already recognized as the outstanding Putting Green Grass.
We offer the **true Cocoos Bent**, the finest of the *Agrostis maritima* grasses, in sealed bags.
Per lb. \$2.50; 10 lbs. \$22.50; 100 lbs. \$200.

Remember:—We are one of the largest direct contractors for foreign-grown Grass Seeds in the United States. Over thirty years of Seed Service have enabled us to segregate those collectors of Bent Seeds who are reliable from those who are not; to single out those growers of Cheewing's Fescue whose strains are pure; also to contract for true American-grown seeds of high vitality. All our seeds are botanically true to name and are cleaned and re-cleaned until brought up to the highest possible state of purity and germination, special care being given to the elimination of weed seeds.

Without obligation we shall be pleased to send a representative who, from long experience, is qualified to advise regarding grasses and furnish such other information as is necessary for the best results.

30-32 Barclay St., New York

Next Best to Rain

Now in use on many of the finest golf courses of the country because it has proved to be "Next Best to Rain".

DOUBLE ROTARY SPRINKLER

Next Best to Rain.

By its rotating principle the Double Rotary Sprinkler covers any circular area up to 80 feet and down to 15 feet in diameter, according to pressure. Throws its rain-like drops "like a gentle shower," evenly and constantly. Never packs or washes soil. Self-operating—saves cost of an attendant. Made of finest materials for years of service. Skid base. Adjustable nozzle.

TRY 10 DAYS—Order from this ad. If not satisfactory, return sprinkler, and your money will be promptly refunded. Descriptive literature on request. (Dealers—write for sales proposition.)

Pick & Shovel VS Niblick & Mashie

A pick and shovel don't get a very hearty welcome on a golf course. The niblick and mashie are much more popular. Yet how often are pick and shovel hazards encountered in the form of water pipe lines dug up for repair or replacement.

Leading golf courses protect players against such annoyance by laying Clow-National Cast Iron Pipe. This pipe will not rust or deteriorate and is easily laid by unskilled labor. Once laid it can be forgotten!

Speaking of Glassed-Over Swimming Pools

HAD you thought of this? That a glass cover to a pool is quite as necessary in the summer as the winter. *First* it gives a desirable seclusion. *Second* it keeps the water free from leaves and such.

In the summer it can be slat-shaded like this one, and with the double ventilators on the roof and all along the sides, it is much more agreeable

than if open to the outside pelting sun. In the early fall and spring, the glass will draw and conserve ample heat, making any fuel expenditure unnecessary.

Making the pool available all year round, means added attraction and increased incomes for clubs. Send for our special catalog on Swimming Pool Enclosures.

IDEAL GOLF COURSE EQUIPMENT

LOW WHEELS MEAN CLEANER, FASTER WORK

Ideal Bulldog Mowers have low, close-coupled wheels that permit a simple pinion and pawl drive. All gears guarded against dirt by closely machined gear case. Any repairs necessary can be made quickly and inexpensively.

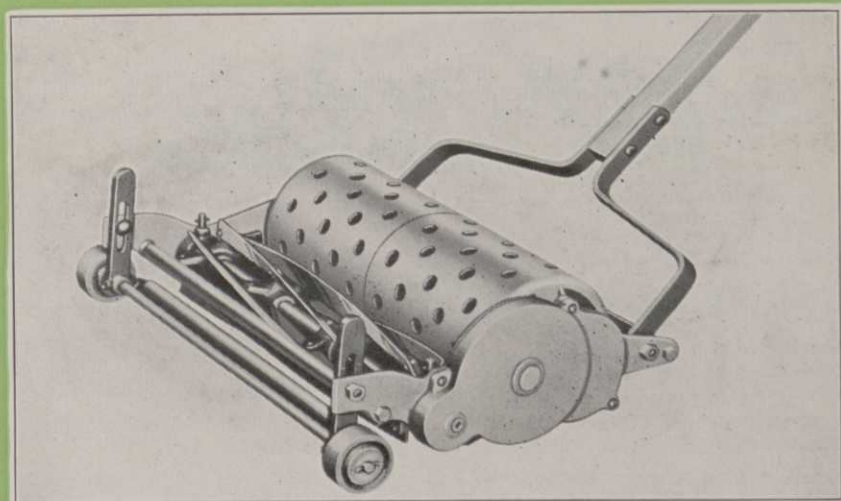

Moreover, low wheels have a short frame that enables Bulldog cutting knives to reach right to the bottom of every hollow—and to ride smoothly over every little hillock. Clean-cut fairways result.

Write today for the five reasons why Ideal Bulldog three and five-gang fairway mowers cost less to operate, last longer, and do better work.

ROSEMAN m o w e r s

offer these essentials of
modern fairway turf
maintenance:

- ✓ denser turf growth
- ✓ healthier root development
- ✓ prevention of scalping
- ✓ elimination of cuppy lies
- ✓ sealing of heat crevices
- ✓ retention of moisture in soil
- ✓ eliminate separate rolling
- ✓ maximum economy, durability
and dependability
- ✓ clean, uniform cutting of both
fairways and rough.

A deferred payment plan on Roseman Mowers and Tractors makes it possible for smaller clubs to share with ALL CHAMPIONSHIP courses, the advantages of Roseman equipment.

Before you buy a fairway mower, get the complete story on ROSEMAN-Hollow Roller Type-MOWERS. Their design, material and workmanship make possible the most liberal of all mower guarantees—ask for a copy.
