

The PENNSYLVANIA "New" Fairway Quint being pulled by the sturdy 6-cylinder PENNSYLVANIA Tractor.

It takes 5 efficient units to make an efficient Quint

Experienced greenkeepers know that a fairway gang mower cannot be any more efficient than its individual cutting units.

Every cutting blade of the PENNSYLVANIA "New" Fairway Quint or Trio is made of the finest crucible tool steel, oil-hardened and water-tempered. Each knife is given three separate grindings. Highest quality bearings throughout—either ball or roller. Alemite lubrication.

Hoseless Irrigation for Golf Courses » »

Modern --- Superior

Country Club of Detroit

Fairway Irrigation by Wendell P. Miller and Associates

Sooner or later, every course that needs irrigation at all will be driven by the demands of superior economy and convenience to install an engineered irrigation system. It is a penny-wise, pound-foolish policy to install or use makeshifts. The installation of Miller-designed systems is invariably followed by greater club prosperity, because of actual savings in time and labor of watering, reduced course maintenance, and increased member patronage.

At least have us make a survey of your property and a report of your needs—the cost is nominal. Full information on request.

FAIRWAY Power Reduces Maintenance Expense

This new type of gang mower, designed for use with the FAIRWAY, is another compact unit that combines with the FAIRWAY in reducing maintenance expense on golf courses

POWER NEEDS for golf course maintenance and construction are well taken care of by the McCormick-Deering FAIRWAY Tractor. Low maintenance costs—the goal of the greens keeper and the greens committee—follow the use of the FAIRWAY. The savings effected by it give the committee leeway in their budget for improvements.

The FAIRWAY enables one man to handle a remarkable amount of work. With a gang mower, the FAIRWAY cuts from 75 to 100 acres a day and rolls the fairways at the same time. It has a special built-in 7-foot mower to cut the rough. The exclusive square-turn feature (it turns in an

8-foot radius) permits working in close quarters. Three-point suspension provides flexibility for all kinds of going.

While the FAIRWAY does some of its best work keeping the course in excellent shape its power is also available for a variety of jobs. It plows, disks, seeds, moves dirt and materials; pulls wagons, compost distributors, rollers, etc.; builds roads, paths, terraces.

You can obtain service near at hand. There are 115 Company-owned branches, 50 distributors, and thousands of McCormick-Deering dealers in the United States and Canada. See the FAIRWAY now. Write us for special catalog.

Getting the Most from Your Golfdom

GOLFDOM appreciates comments—favorable and unfavorable—on any article it prints. The authors want this comment, too, for golf as a business still is so new that all are seeking information. Using GOLFDOM this way helps all of us to get the right bearing.

Use the advertising columns for your help. GOLFDOM gets the advertising of the newest and best products and services for golf club use, and these advertisers pay for your copy of the magazine.

GOLFDOM earnestly solicits letters from all club officials, department heads and manufacturers on methods, means and policies that are successful in course and clubhouse construction, operation and maintenance and on pro merchandising of goods and services.

Use GOLFDOM as the medium of exchange for ideas and as your aid in digging up facts that will promote business-like operation at your club.

We have no pets and no prejudices, but the determination to make each copy of GOLFDOM bring some specifically profitable idea to each reader.

Especially Prepared for Golf Courses

Greens and Fairways should always be green—always fresh looking. But if the soil from which the grass roots get their food is worn out—if the plant food is not there in abundance, —woe to appearance.

Driconure—Nature's very own fertilizer—quickly restores grass vitality by supplying to the soil all the plant food elements that have been used up.—Manure from high protein fed cows and peat moss, the greatest humus forming, moisture holding organic known. Dehydrating removes all weed seed. Also Driconure is 100% pure—it contains no filler or trash of any kind. Try it now—use it as you would any top dressing and watch results.

DEERFIELD, ILL.

BULLDOG CUTTING UNITS are stronger than any other lighter than any other

Bulldog cutting units have low wheels and a stocky, rigid frame. They have strength that cannot be equaled by high-wheeled cutting units, with their long side frame.

For the same reason—(low wheels)—the Ideal Bulldog is lighter in weight. The wheels

weigh less. The shorter side frame weighs less. *The towing frame is extra strong and heavy.*

And, because Bulldog cutting units are *pushed* into the work, they need no dead weight to hold them to the ground. Send today for illustrated book on the art of keeping fairways smooth.

Make This the Last Trenching On Your Course

Install TONCAN (alloy) IRON Drain Pipe

INFERIOR drain pipe in a course puts annoying hazards into the game—impromptu lakes—soggy spots—excavations to replace broken pipe. TONCAN IRON is the cure for such conditions. Once in, TONCAN IRON drain pipe is in to stay.

TONCAN is an alloy of highly refined iron plus copper and molybdenum. It is far more resistant to rusting, longer lasting, than any other commercial iron. You'll find TONCAN drain pipe on leading courses which refuse to harbor a pick and shovel gang.

★ GRASS THAT GROWS

Armour's Special Turf Fertilizer contains the three main plant foods rightly balanced for grasses . . . nitrogen 10%, phosphoric acid 8%, potash 6%. Land now too poor to produce grass will grow a sturdy, healthy sod when treated with Armour's Special Turf Fertilizer. Grass needs a deep, well developed root structure to make it healthy and strong, for good turf must be developed below the surface of the soil as well as above.

Such a turf means the ultimate elimination of weeds and does away with the necessity of reseeding every year.

Get to the roots of your turf troubles with Armour's Special Turf Fertilizer. Write for booklet "Solving the Turf Problem."
