# BUY YOUR GREENS READY MADE

*Lay them down like a carpet!*

Among the noted Golf Architects who used Genuine Illinois Creeping Bent Grass Turf on courses constructed by them in 1930, are:

AL HACKBARTH

*W. C. Grunow Private Course, Lake Geneva, Wis.*

GEORGE O'NEIL

*Lincoln Fields Golf Club, Crete, Illinois*

JACK DARAY

*White Pines Country Club, Bensonville, Ill.*

Hundreds of landscape architects, golf and country clubs, greenkeepers, parks, athletic fields, estates, homes, etc., utilize Illinois Grass Co.'s True Washington Strain Creeping Bent in solid turf form. Furnished in rolls ready to lay down like a carpet. Our solid turf has the reputation of being extremely hardy and uniform in texture. It is mowed with a putting green mower and is hand-weeded at our nurseries. Guaranteed to grow vigorously into rich, velvety greens if properly cared for. Our scientific nursery methods of preparation and growth are unexcelled. Also sold in stolon form, packed 250 sq. ft. to the bag, same high quality as the turf.

*Write today for prices, samples and facts about our unusual service.*

J. A. CARTER, Sales Agent—75 E. Wacker Drive, Chicago, or the nurseries at

**ILLINOIS GRASS COMPANY**

## BETTER FAIRWAYS

*without  
more money*

**Y**OU know what the trouble has always been—you have never had enough fertilizer for your fairways.

Now there's a way to have more fertilizer for your fairways—and without any more money.

In Nitrophoska you get more plant-food for your money than you can get in any other fertilizer. Nitrophoska is three to five times as rich in plant-food as most fertilizers. And, remember, it is the plant-food that your fairways need.

An application of 100 pounds of Nitrophoska per acre is equal to 400 pounds of ordinary fertilizer. And costs very much less.

If you are really determined *to have better fairways*, you will use Nitrophoska, because it gives more plant-food for the same money.

Buy Nitrophoska from your regular supply dealer, or direct from us.

Synthetic Nitrogen Products Corp.  
285 Madison Avenue, New York

*Urea is the Ideal  
Nitrogen Fertilizer  
for Greens*

Repeated tests have proved conclusively that Urea is an ideal nitrogen fertilizer for the finest grasses. It furnishes organic nitrogen in the same form as in liquid manure. It gives a beautiful green color to the turf, and is long-lasting in its effect.
