

*New!*  
**this valuable  
 reference book  
 is yours for the asking!**

It shows the first power mower, the earliest power fairway mower and the first PENNSYLVANIA Quality mower (1877), which is illustrated at the left.

In addition, it is chock-full of up-to-the-minute golf mowing information, including full details of the revolutionary new UNBREAKABLE MALLEABLE IRON CUTTING UNIT (illustrated here) of the 1931 PENNSYLVANIA Fairway Quint or Trio.

The cost of operation?

# don't overlook it in planning your golf course watering system

**E**VERY conceivable question is asked us about the cost of the watering system itself. Certainly, the installation cost is important...but how about the *cost of operating the system?...*water?...labor?...electricity?...replacements?

If operating costs are overlooked before the system is installed, you will soon understand their importance after you start operations. And, too late, you will understand the importance of employing the services of specialized irrigation engineers.

Regardless of installation cost, your system should be designed with a full knowledge of facts based on cold-blooded analyses of individual requirements, local conditions and proved principles.

*The Miller working plan for irrigation engineering embodies:-*

Foundation of facts;  
Disinterested Analyses;  
Nation-wide experience;  
Knowledge of Turf Culture;  
Skill in design;  
Bedrock construction costs;  
Skilled project management  
—thus insuring completion of project at substantially lower total investment and operating cost—thereby effecting definite consequent economies.

Let Miller engineers bring you the best in irrigation—keep your capital investment within bounds—and limit your operating costs to an amount your club can afford

# NUTRIA PEAT MOSS

for greens, fairways  
and top dressing....

Greens  
that hold

Greens  
that last

NUTRIA Peat Moss combines the highest known qualities for soil improvement, fertilization and propagation. Holding 15 times its weight in moisture, it increases the water holding capacity of the soil and turns dry, barren fairways into playable turf.

Properly mixed, Nutria Peat Moss makes a perfect base for constructing or rebuilding greens, giving the right degree of resiliency so that patches will hold.

Granulated Nutria Peat Moss is especially suitable as a top dressing for greens.

A product of nature, Nutria Peat Moss costs no more than ordinary black dirt. The coupon below will bring you a sample and full information. Fill it in.

## YOUR DISTRIBUTOR LIKES THE SOILSLINGER AND SOILSPREADER

Since the inception of this new and better method of preparing and spreading compost, distributors of golf course equipment everywhere have sought territorial franchises. We have selected the most active distributors and are pleased to announce that you can now secure a demonstration of these new low cost, labor saving machines from any one of the following operating in your territory:

New York Toro Company  
67 Warburton Avenue  
Yonkers, New York  
Long Island Toro Company  
76 Roslyn Road  
Mineola, Long Island, New York  
Troy File Works  
171 River Street  
Troy, New York  
Golf & Tractor Equipment Corporation  
717 East Erie Boulevard  
Syracuse, New York  
Pittsburgh Toro Company  
Pittsburgh  
Pennsylvania  
Philadelphia Toro Company  
1528-32 Belfield Avenue  
Philadelphia, Pennsylvania  
New England Toro Company  
247-257 Newtonville Avenue  
Newton, Massachusetts

Golf Course Supply Company  
3049-51 Carnegie Avenue  
Cleveland, Ohio  
Indianapolis Toro Company  
Coburn Warehouse  
Indianapolis, Indiana  
Lawn Equipment Corporation  
Larned at Second  
Detroit, Michigan  
J. Oliver Johnson, Inc.  
946-960 West Huron St.  
Chicago, Ill.  
R. L. Ryerson Company  
4543 Port Washington Road  
Milwaukee, Wisconsin  
Western Golf Course Supply Company  
284 East 10th Street  
Portland, Oregon  
Consolidated Wagon & Machine Company  
Salt Lake City  
Utah

Call your distributor today. Get first hand information—see these new compost mixers and spreaders in operation and really know the value of these new type machines. If there is no distributor near you, we shall be glad to send descriptive bulletin and prices. Write us.

ONLY  
\$150.00

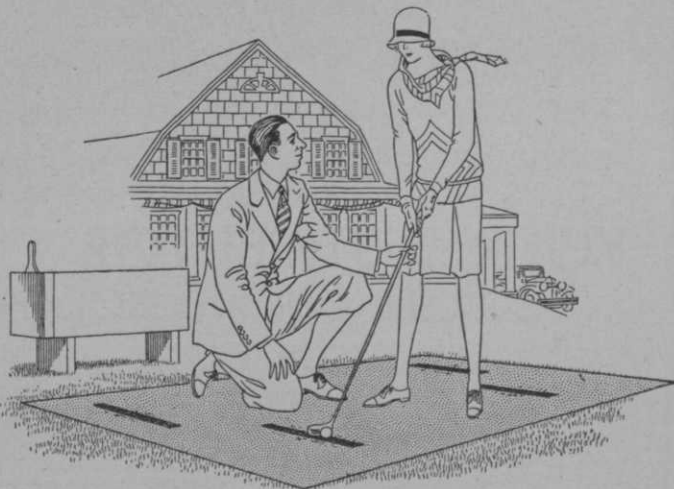

SOILSPREADER  
ONLY  
\$90.00

Every greenkeeper at the Columbus Convention who inspected these machines was highly complimentary on the design and operation. It was the consensus of opinion that they represented a distinct forward step in compost preparation.

# Tees *that give you perfect playing conditions . . . and freedom from maintenance miseries!*

**I**T'S only by eternal vigilance and heavy expense that grass tees can be kept in good condition. The job is an almost impossible one for the public and fee courses with heavy play, and for the smaller clubs where tee maintenance expense is prohibitive.

**But now**

... you have the one practical solution to this tee problem, in the *new* **PARATEX TEE MAT**

### **Make this test:**

Install a Paratex at your tee that shows the hardest wear, or at your practice tee. Note how it stands up—provides firmer footing and altogether better playing conditions. Ask your players what they think of it. See how you have put an end to tee maintenance expense and time.

Then, after you have sampled the benefits of this one Tee Mat, you'll have Paratex Tee Mats on every hole of your course.

The Paratex Tee Mat is a half-inch thick surface of rubber composition that sturdily resists the abuse and wear of spikes, scuffed shots and weather. *It is guaranteed for one season under any condition of play.* The use of patented wood or celluloid tees is provided for by small slots correctly placed in the Tee Mat.

### **ONE SEASON UNCONDITIONAL GUARANTEE**

*Our simple and certain guarantee is just this: If a Paratex Tee Mat wears to an unplayable point inside a season, we'll replace it without cost to you.*

For sizes, prices and other particulars write us today and start your 1931 season with the best tees you ever had at your course.

# HADDEN SYSTEMS

*"Waters the Lawn before the Dawn"*

Amazing results have been obtained with this MIGHTY MONARCH of the Sprinkling Kingdom. Will cover a 200-foot-diameter circle, *with even distribution*, delivering 150 gallons of water per minute.

ACTUAL PHOTOGRAPH TAKEN AT THE WILSHIRE COUNTRY CLUB COURSE, LOS ANGELES, CALIFORNIA. ROBERT S. GREENFIELD, *Greenkeeper*.

This SPRINKLER is permanently installed flush with the surface of the ground and it is entirely AUTOMATIC in operation. Automatically turns on, makes a complete revolution, or any arc of a circle, shuts off and turns on the next sprinkler.

From one to the next the cycle is thereby completed or repeated ABSOLUTELY AUTOMATIC.

## Who Are Your New Officials?

*Each U. S. golf club president, green-chairman, greenkeeper, professional and manager is entitled to GOLFDOM free every month during his period of active service at his club.*

*Will you please help us to keep GOLFDOM'S list corrected in accordance with changes in the executive and operation personnel at your club?*

*We will appreciate having you write us today, the names and addresses of the above designated five men at your club for the 1931 season.*

GOLFDOM earnestly solicits letters from all club officials, department heads and manufacturers on methods, means and policies that are successful in course and clubhouse construction, operation and maintenance and on pro merchandising of goods and services.

Use GOLFDOM as the medium of exchange for ideas and as your aid in digging up facts that will promote business-like operation at your club.

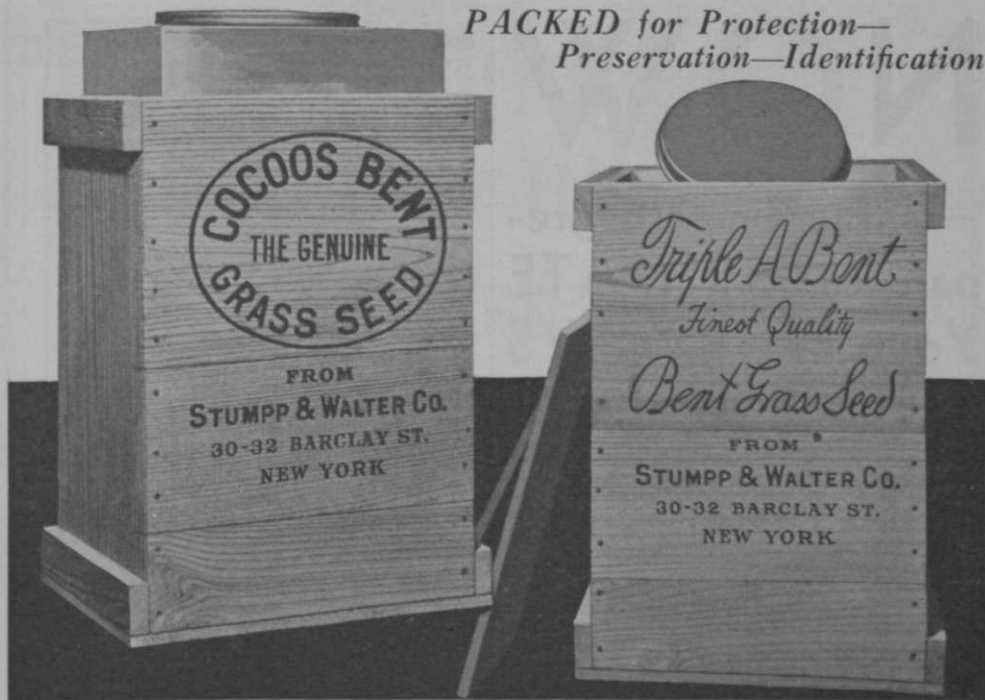

We have no pets and no prejudices, but the determination to make each copy of GOLFDOM bring some specifically profitable idea to each reader.

PACKED for Protection—  
Preservation—Identification

Now packed in tin canisters, enclosed in strong wooden boxes

As a means of protection in shipping, assurance of safe arrival of the seed and for protection and preservation when in your storage, as well as for clear identification, hereafter all lots of 50 lbs. or over of Cocoos Bent and Triple A Bent will be packed in tin canisters enclosed in strong wooden boxes, as shown in picture.

## Two Outstanding Bents

### Cocoos Creeping Bent

This is the Bent that has made California greens famous, now in use from Coast to Coast. While Cocoos is botanically known as *Agrostis maritima*, it should be borne in mind that all strains of *Agrostis maritima* are **not** Cocoos Bent.

We offer the **true** Cocoos Bent, the finest of the *Agrostis maritima* grasses—over 99% pure.

1 lb. \$2.50, 10 lbs. \$22.50, 100 lbs. \$200.00

### Triple A Bent

This is a comparatively new strain of *Agrostis capillaris* that produces turf of the same beautiful color and texture as Velvet Bent. The seed we offer has been remanaged for the elimination of weed seeds and has a purity of over 99%. It has been an outstanding plot at our trial grounds.

1 lb. \$2.25, 10 lbs. \$20.00, 100 lbs. \$185.00

"Golf Turf"—A new and revised edition (the 8th) of our interesting and instructive book, devoted to the production and maintenance of fine turf, sent on request

## 6 REASONS Why Up-to-Date Clubs Demand the SIX-BALL CLEANER

- ONE TO SIX BALLS AT A TIME
- EJECTS BALLS WHEN CLEANED
- MADE SO IT DOES NOT SPLASH
- HAS NO GEARS OR SPRINGS
- AVOIDS DELAY ON THE TEE
- REQUIRES VERY LITTLE CARE

Six-Ball Cleaners are so much faster, cleaner and simpler than old-fashioned ball-washing methods they are rapidly becoming standard equipment on modern courses, in pro shops and on miniature and practice layouts.

# And Now It's *Night Golf!*

Taking its cue from the amazing success of Night Baseball, Football and other types of athletics, the grand old game of Golf is now added to the long list of Sports which can be successfully played at night, under Giant Floodlight Projectors.

The Lighting of full-size, 18-hole golf courses has been proven practical in rigorous tests, and 1931 will see a number of clubs installing Giant Floodlight Projectors for night play. Night Golf is profitable, too, as shown by the experience of Miniature Golf Course owners where 60% of their play was after dark. In other sports, night play has doubled and quadrupled gate receipts.

Your club can be in the forefront of this new development—adding both to its prestige and patronage. Write for full details on Giant Illumination and results of latest exhaustive Night Golf tests made with Giant Projectors.

Tennis court fence for Residences, Clubs, Schools, Colleges, Parks, Playgrounds and Institutions.

## TENNIS TIME IS JUST AROUND THE CORNER

It won't be long until you see nets strung up and hear balls go apopping. It is time to think about the backstops. Wickwire Spencer Chain Link makes an ideal tennis fence.

Like all Wickwire Spencer Fences both fabric and frames are *Copper Bearing Steel*, heavily hot galvanized and insure long life with minimum up-keep. Our local representative will be pleased to call and quote you on the material only or on a complete fence erected by our construction men. Tennis days are far too few. Don't waste any of them. Send for a Wickwire Spencer representative now. It involves no obligation on your part.
