

You can't use green paint

IF you could only use green paint on your fairways and greens now and then, how easy it would be to keep them looking fit. But the job is not as simple as that. You must have the right kind of soil, the right kind of seed—and then, the grass be fed and fed and fed. Most important of all, it must be fed *right*. With clean, nutritious food. V-C Fairway has all the qualities the most critical greenkeeper demands, it has high food-content, it is convenient to use, it is economical. Write for full information.

PAGE FENCE

in **4** Metals

**There is
now a longer-
lasting PAGE FENCE
for every locality . . .**

The corrosive elements in the atmosphere differ in different localities. No one fence will do for all conditions surrounding a golf course. So Page engineers have been at work to overcome all fence destructive influences.

Now PAGE FENCE comes in four different metals—

1. Page Alcoa Aluminum
2. Page Armeo Ingot Iron
3. Page Copper-Bearing Steel
4. Page Ornamental Wrought Iron

Call in an expert from a PAGE Service Plant. He will tell you which PAGE FENCE will give the longest service at the least upkeep in your particular locality.

76 Service Plants erect PAGE FENCE everywhere. Write for name and address of Plant in your locality. They will gladly consult with you and offer suggestions from plans to final erection. No obligation whatever. Complete descriptive literature on request. Address Page Fence Association, 520 North Michigan Avenue, Dept. D31, Chicago, Illinois.

CHAIN LINK OR ORNAMENTAL WROUGHT IRON

The Combined UNI-T-STAND and ROTO WASHER

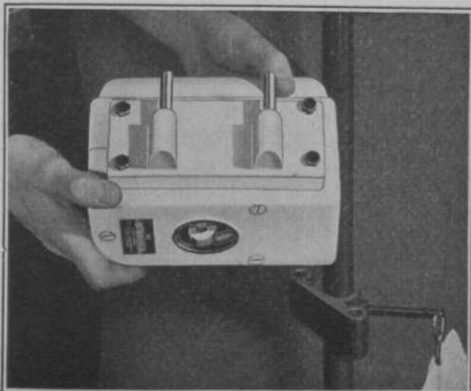

Here's the greatest tee convenience yet devised! The handsome Uni-T-Stand indicates hole number, yardage and par, with embossed aluminum plates. It is easily moved and does away with the unsightly worn patches always found by permanently placed tee boxes. The Roto Washer, guaranteed for two years, really *cleans* the ball. It is speedy and efficient. It cannot splash and it returns the ball through the opening by simply reversing the crank. New literature gives full information. See your dealer or ask us.

Here's another case where a Royer has "paid-in-full" --- plus!

RIDGEWOOD GOLF AND COUNTRY CLUB
CLEVELAND, OHIO

Mr. S. B. Davies, Treas.
The Royer Foundry & Machine Co.
Kingston Sta., Wilkes-Barre, Pa.

Dear Mr. Davies:—

You will be interested to know that we are very pleased with the performance of The Royer Compost Machine, which we have been using at Ridgewood Golf Course, Cleveland, Ohio.

We have screened several hundred yards of soil, consisting of sod, lumps, etc., with great rapidity, in fact the machine will pulverize and mix compost as fast as three men can feed it, and also loads it on to the wagon with the same operation.

Three years ago we top-dressed all our fairways, which took approximately 3000 yards of compost, and this compost was all made thru The Royer without any breakdown whatsoever, so after putting the machine thru this test I consider the machine has paid for itself time and again.

This is the sixth year of service The Royer has given us, and I can see now that there is going to be several more years of service in this machine

Very truly yours,

F. W. ERMER.

THE ROYER

ROYER — Model "M"

To those who contemplate the purchase of a compost machine, the above letter tells the complete story—the kind of story that convinces all concerned: those who shoulder the responsibility for the purchase, those who have to operate the machine and those who must use the finished product. Wherever the decision has been based on Results, Speed, Economy and Reliability... there you will find at least one Royer.

ROYERS are made in four models. Write for booklet illustrating and describing model best suited to your requirements

IMPROVES

Hyper-Humus

SOIL

Watch Out for A 1931 Drought!

When it's so easy and pleasant to use "Cultivated" Hyper-Humus either as a top dressing or as a soil ingredient—it seems too bad that any putting green should suffer this season from water shortage. In addition—Hyper-Humus returns the much needed organic—humus.

We have names of successful greenkeepers who use Hyper-Humus. Write for them and tell us your problems. Maybe we can make worthwhile suggestions. Literature free.

DANDELIONS

PUT "ON THE SPOT"

with DAN-D-LION KILLER-KEMICAL

It's sure death to dandelions now. No more futile attempts at cutting or digging. Dandelion Killer-Kemical puts them "on the spot" and it's all over quickly. This simple, sure cure for lost balls among white dandelion ghosts brings cheer to the soul of the harassed greenkeeper.

Killer-Kemical is a powerful, non-poisonous liquid that penetrates the yard-long dandelion root and permanently kills it. Easily applied with the Killer-Knapsack Does not harm soil. Forces decay of weed roots, aiding luxurious grass growth.

A complete manual of greenkeeping . . .

GOLF COURSE COMMONSENSE

By G. A. FARLEY

The golf field has waited long for this valuable and practical guide to good greenkeeping. It presents, for the first time, full details of the methods of the country's foremost greenkeepers in simple, usable form. "Golf Course Commonsense" tells you what the most successful greenkeepers and the leading turf scientists do to put and maintain courses in the top-notch condition demanded by exacting players and club officials.

Each chapter of the book is rich in working instructions based on a careful study of the methods employed by leaders in the course

construction and maintenance field.

PARTIAL TABLE OF CONTENTS

Soils, Fertilization and Growth.
Grasses. Fairways. Hazards.
Weeds and Diseases.
Equipment and Supplies.
Greenkeeping in the South.
Golf Course Trees.
Drainage and Water Systems.
Tees. Putting Greens.
Topdressings and Turf Repair.
Birds, Animals and Insects.
Keeping Course Records.
Concrete Construction.
Growing Choice Flowers.
The Golf Course in Community
Welfare.

This is the business book that is essential to the library of every greenkeeper, green-chairman, professional, supply man and manager interested in course maintenance.

The price, postpaid,

GOLFDOM, The Business Journal of Golf

BOOK DEPARTMENT

205 W. Wacker Drive

CHICAGO

Introduced last July "Come-Putts"

are already becoming standard equipment among golf clubs everywhere.

The country over, and in Europe, Hawaii, and the Philippines as well.

They fill a long-felt need for which nothing adequate has ever been offered before.

"Come-Putts," white special water-proofed composition rings of standard diameter, outline upper part of hole on golf green and make it plainly visible as much as forty feet away. Dress up greens, support turf around holes, make new holes needed less often. Non-resilient—"bounce-proof"—remove the "accidental hazard" of a misshapen or broken-down hole.

Golfers who have played courses that are "Come-Putts" equipped cannot help making comparisons if your course lacks this finishing touch.

May be renewed two or three times weekly at less than a cent a hole per day—and oh, how they do improve the game!

Sanctioned by R. & A. and U.S.G.A.

Write for further particulars, or better yet, order to-day.

RIGHT TO THE FRONT IN GOLFDOM

Comes the 1931 Edition of
"THE GOLFER'S YEAR BOOK"

CAREFULLY edited, packed with the kind of data that warms the cockles of a golfer's heart, it is the most thorough-going publication of its type on the market—in prize fight language—"it's a knockout!"

Dedicated to the pre-eminent golfer, Bobby Jones, this issue, edited by William D. Richardson and Lincoln A. Werden, whose stories of the golf world appear in *The New York Times*, includes the work of Bernard Darwin, O. B. Keeler, Innis Brown and a staff of noted writers every golf fan knows.

With its oceans of informative material on varied phases of the game, it contains among other things the history and records of golf associations, biographical sketches, tournament results, photographs, maps and an elaborate directory of golf clubs in America.

AS THEY SAY:

"The Golfer's Year Book should be in every clubhouse."—Canadian Golfer.

"The book fills a long felt want. Every golf club, every professional and those golfers who like to take their clubs along when going out of town, should have one or more copies."—Detroit News.

Porque?

Why?

Warum?

Pourquoi?

WHY do foreign buyers choose Roseman Mowers almost exclusively, in spite of tariff and freight?

An Australian must pay \$750 for a Roseman Five Gang Mower plus about \$150 freight and about \$600 duty. Australian, Mexican, Hawaiian, English and Canadian Golf Clubs could purchase other mowers for less money, and correspondingly, less duty.

BUT they choose Roseman Mowers. Experience or careful investigation has proven to them that Roseman Mowers will not require replacement of parts. There are no breakdowns, no delays. They know that over a period of years they will get **THE MOST MOWING FOR THE LEAST MONEY.**

Write in for a list of owners.

• • • ————— • • •

Roseman Tractor Mower Co. - Evanston, Ill., and New York City

Roseman Features:

Timken Tapered Roller Bearings on Cutter.

Hyatt British Tank Roller Bearings on Rear Axle.

Alemite Forced Feed Lubricators.

Guaranteed Non-Breakable Malleable Iron Side Frames, Gear Cover, Bed

Knife Shoes, and Caster Wheel Forks.

Drop Forged Machine Cut Gears.

LIGHT ROLLER DRIVE, for better Traction and Turf Development.

Eliminates separate Rolling, and Brings Denser Turf Growth, Healthier Root Development, Prevents Scalping, Eliminates Cuppy Lies, Seals Heat Crervices, Retains Moisture in Soil.

(Our patents give us the exclusive right to all ganging of Roller Type Mowers)
