

All Can Have Them Now!

"Would like to have them but can't afford it" is a thing of the past. Increased production and decreased manufacturing cost bring this efficient, 4 cutting edge blade within the price of all. Write for new Price List "GG" and full details. A postal will do. BUDD MFG. CO., Ravenna, Ohio

BUDD·BED·BLADES

both of which factors make a little go a long way. In controlling sod webworms, one gallon of finished spray will thoroughly treat about one square yard of surface, which makes the cost extremely moderate. Moreover, one thorough application will generally guard against a return of the pests for the balance of the season."

LAB REPORT APPROVES ALTA-CO AS GOLFER-FOOT PREVENTIVE

Westport, Conn.—Tests made by Pease Laboratories, Inc., and citing confirmatory remarks of the government investigators, give an excellent showing to Alta-Co, athlete's foot preventive, made by C. B. Dolge Co. Prevention of the disease is assured, according to reports of the tests, by immersion in a foot bath of Alta-Co and in other test cases cures were effected. Despite exposure to new infection, the cures were made lasting during the period of the test by treatment with Alta-Co, which is a material supplied for use in bath departments of golf clubs.

W. C. TYSON NOW WITH BOLSA

Chicago, Ill.—W. C. (Bill) Tyson has resigned his position as general sales manager of the Friend Mfg. Co. and has associated himself with Bolsa Supply Co. of Oak Park, Ill., mid-western distributors of the Friend Co.

Tyson will devote himself largely to furthering the golf course equipment business of the Bolsa company.

"ELECTRIC CHAIR" DEALS DEATH TO INSECT OFFENDERS

Chicago, Ill.—Frost Electric Screen Sales Co., 6 N. Michigan avenue, now has exclusive sales rights for Frost electric screen. This is a device having adjacent wires of opposite polarity. Current is stepped up by special transformer to voltage high enough to be fatal to insects but non-injurious to men or animals.

Golf club kitchens and restaurants have numerous installations of the screen.

BUY GREENS that withstand heat!

Lay them down like a carpet!

Hundreds of landscape architects, golf and country clubs, greenkeepers, parks, athletic fields, estates, homes, etc., use Illinois Grass Co.'s True Washington Strain Creeping Bent in solid turf form. Our greens withstood the heat waves of the past two years like nothing else. Furnished in rolls ready to lay down like a carpet. Extremely hardy and uniform in texture; is mowed with a putting green mower and is hand-weeded at our nurseries. Guaranteed to grow vigorously into rich, velvety greens if properly cared for. Our scientific nursery methods of propagation and growth are unexcelled. Also sold in stolon form, packed 250 sq. ft. in the bag, same high quality as the turf. We also grow Blue Grass sod.

Write today for prices, samples and facts about our unusual service.

Use Your Green Section Research Service

The two United States Golf Association experimental turf gardens at Arlington, Va., and West Lake Forest, Ill., and the 20 demonstration turf gardens at golf clubs have the answers to many of your maintenance problems.

Practical, working course superintendents and the internationally noted turf scientists of the Green section, working in close association on a definite plan, have made available for you at these stations a vast fund of valuable course maintenance information.

These stations always are open to visitors interested. At the turf gardens Green section men are in attendance and at the demonstration gardens the superintendent at the club will gladly explain the work and its findings.

Make use of the Green section stations in correctly and thriftily solving your turf problems.

EXPERIMENTAL TURF GARDENS WHERE GREEN SECTION RESEARCH IS CONDUCTED:

Arlington Turf Garden, Arlington, Va.
Mid-West Turf Garden, West Lake Forest, Ill.
