*Announcing*

**The New ★ Three ★ Star ★ U. S. Royal Golf Ball**  
*with Three New Important Features —*

★ **LONGER FLIGHT**

Made possible by radical changes and improvements in construction, materials, winding and design of cover marking.

★ **FEELS RIGHT**

A combination of the "sweetest feel" and sharpest "click" ever developed in a ball.

★ **STAYS WHITE**

Its pure white balata cover, finished with three coats of specially prepared white U. S. golf ball enamel, properly applied, makes the ball smooth and prevents discoloring. Paint helps a golf ball—lack of paint harms it.

Marked with Three Stars of Merit, we are proud to present the new Three Star U. S. Royal—the finest ball U. S. has ever made—as an even better ball than the Pro Royal it replaces.

**U. S. GOLF BALLS**  
*all improved for 1933*
