

NOW... Watch out for

BROWN PATCH

Midsummer weather gives brown patch "the edge" in the fight for healthy greens. So here's good advice! Use a standard fungicide—and treat turf every week!

Du Bay Semesan—the original brown patch fungicide—is recommended for prevention and control where the soil is normally fertile. Nu-Green (the only brown patch disinfectant licensed under U. S. Patent No. 1,787,581) is equally effective, but because it stimulates grass growth it is advised where soil fertility is lower.

Either fungicide, used as directed, is entirely harmless to turf. Order from your seedsman or golf supply house.

Weeds Never Heard of the Depression

An Editorial on Golf Course Maintenance

DANDELIONS and Plantains aren't practicing birth control. They're still in full-time production—looking for bare spots in your fairways to give their offspring a start in life.

The only way to check weeds is to beat them at their own game. Sow good grass seed, develop strong, thick turf or the weeds will take over the huge investment you have in your golf course and run it to suit themselves.

Keep up your layout. If necessary, give dime banks as trophies this year instead of diamond-studded gimcracks, or serve ginger ale in unbreakable tin cups. But don't cut down on grass maintenance! Good golf is **BUILT** from the ground up and turf can't be applied like a coat of paint.

Now is the time to plan on Fall seeding. Insist on Scott's weed-free seeds of proven quality. More than 1,300 other golf courses have found it pays even in years when prices were much higher than now.

Keep Up Your Course at the Lowest Possible Cost

EQUIPMENT that pays its way by reducing costs is needed on every golf course. That's what so many clubs have found out about the McCormick-Deering Fairway Tractor. This practical golf tractor cuts maintenance costs to the bone; and it does so much work that it keeps a course in good playing condition all the time.

One man can mow 60 to 75 acres a day with the Fairway and a gang of seven mowers. The rough is quickly and easily cut with the special built-in power mower. The square-turn feature of this tractor enables the oper-

ator to cut close to trees, shrubs, fences, bunkers, etc. The Fairway also pulls rollers, sprayers, compost distributors, wagons, drills, seeders, manure spreaders, and other equipment. It has abundant power for any construction work on a course.

Investigate this economical power and see how it has improved maintenance methods and put them on a low-cost basis. The nearest of 115 Company-owned branches in the United States and Canada, or a McCormick-Deering distributor or dealer, will demonstrate the Fairway Tractor for you. Write us for catalog.

THE TESTED
PYRETHRUM SPRAY
FOR CONTROLLING
**SOD
WEBWORMS**

Extensive tests show that Red Arrow Insect Spray offers a thoroughly dependable way to rid putting greens of sod webworms.

Mr. W. H. Noble, U. S. Dept. of Agriculture, investigating for U. S. Golf Asso. Green Section, reports in January Bulletin, "when used 1 ounce to five gallons water gave practically 100% kill."

Methods of application are remarkably easy. Simply use ordinary sprinkling can and apply 1 gallon of solution to 1 square yard of turf. Within a few minutes insects are forced to the surface and quickly die. Complete control is assured, yet without the slightest danger of poisoning or injury to grass.

• **Pyrethrum in Its Most
Economical Form**

Because it is highly concentrated and scientifically combined with soap, Red Arrow is the most economical and effective of all Pyrethrum insecticides. At leading seed and hardware stores or write direct for complete information. Address Red Arrow Dept. G-2, McCormick & Co. Inc., Baltimore, Md.

SMOOTH GREENS

"X" SHOWS WORM CASTS

EVERY month a new kind of pest appears, ready to damage the golf greens—to make them uneven and spotty. Give your greens full protection against the successive crops of bugs, worms and grubs by applying Dow Lead Arsenate.

Dow Lead Arsenate is especially adapted for the control of grubs, beetles and earthworms on greens and fairways. It kills the pests—makes the greenkeeper's job easier. One user says, "I find since having used Lead Arsenate that my greens are free from chickweed as well as earthworms and beetles."

Dow Lead Arsenate is a light, fluffy material that *gets results* without harm to fine turf. Order your supply now. Write for complete information.

The "Lark"

\$15.00

Golfdom's Leading Sprinkler

For years, the famous LARK sprinkler has been preferred by greenkeepers the world over. Its EVEN distribution and dependability are recognized as the standard for sprinkler performance.

The new worm-gear adjustment for the main stream nozzle makes "setting" the LARK easy and simple. And its wide coverage—up to 125 feet—eliminates most resettings. Roller base 18" wide.

And now—
the "Lark's" little brother...
The Economical TEE Sprinkler

\$6.00

For tees, practice greens, and other limited areas, the TEE sprinkler is ideal. Covers a circle up to 80 feet.

The TEE, little brother of the famous LARK, is sturdy, dependable, and economical. VIBRATOR NOZZLE keeps speed of rotation slow, and covers inner circle with misty spray. Roller base 12" wide.

Ten days' trial on a money-back guarantee basis. Send today for sprinklers you need.

Feed your *turf*

this fall with a natural grass food...

PREMIER POULTRY MANURE

..and your fairways and greens will be *better—earlier—* next spring. A safe, sane turf diet that has proven its effectiveness on hundreds of America's best kept courses. *Now's the time to plan fall feeding.*

PREMIER POULTRY MANURE CO.
327 S. La Salle St. Chicago, Illinois

Best for turf because—

¶ It is a natural grass food and stimulant. ¶ It is a balanced manure containing 6% Ammonia, 2.50% Phosphoric Acid and 1 to 2% Potash. ¶ It contains no live weed seeds. ¶ Being organic, it aids humus and aids bacterial action. ¶ It can be applied with a minimum of labor and expense. ¶ Being more soluble than other manures, it is more available. ¶ Being finely pulverized, it is quickly absorbed into the soil.

Write for name of your nearby dealer.

IT SAVES MONEY..

Memphis, Tenn.

Yesterday the writer watched its operation for one hour and roughly estimated the quantity of material produced, and comparing the labor cost with that of the old hand method, will say that we are perfectly sure that the machine will show an annual saving of from \$600 to \$900.

Five-Gang
Mower with
Lift Hitch

Keeps
your
fairways in
healthy condition!

Turf experts agree that light rolling is highly beneficial to turf growth. (1) The rollers press down top turf that is separated by air pockets from the nourishing subsoil. (2) They close heat cracks, keeping the moisture in the soil during dry spells. (3) Loose surface runners are pressed

into the soil, thus multiplying growth. Roseman Hollow Roller Mowers will help to keep your fairways in healthy condition through the long playing season. Send the coupon today for catalog and list of Roseman users.

ROSEMAN MOWERS

Roseman Construction Features:

- Timken Tapered Roller Bearings on Cutter.
- Hyatt British Tank Roller Bearing on Rear Axle.
- Alemite Forced Feed Lubricators.
- Guaranteed Non-Breakable Malleable Iron Side Frames, Gear Cover, Bed Knife Shoes and Caster Wheel Forks.
- Drop Forged Machine Cut Gears.
- LIGHT ROLLER DRIVE, for better Traction and turf development.
- Eliminates separate Rolling, and Brings Denser Turf Growth, Healthier Root Development, Prevents Scalping, Eliminates Cuppy Lies, Seals Heat Crevices, Retains Moisture in Soil.
