

tive to brown-patch fungi and other unicellular organisms than pure carbolic acid.

We have made practical applications of this chemical and the results have been so outstanding that I place this preliminary report into the hands of greenkeepers without delay. Briefly, our method of procedure has been as follows: Different quantities of the chemical were dissolved in 50 gallons of water and the greens treated in the customary manner. Before the spray was applied cultures were taken to determine the presence of the fungus. Three days after spraying, further cultures were taken and it was found that the addition of as little as 1 2/3 ounces of the chemical were sufficient to eradicate all traces of living brown-patch fungus from a green of 5,000 sq. ft. in size.

It should be added that this test was made under strictly controlled conditions. In our practical experiments we were careful to allow small portions of the greens to remain untreated so that the effect of changes in temperature, humidity, etc. could be observed while the treatments were made. It is yet too early to state definitely how long a single treatment will render a green sterile so far as fungi is concerned, but the outstanding results secured thus far from the use of the chemicals convince us that a continuance of this study is desirable.

Chicago, Ill.—Frederick Klapproth, pres., Chicago Lumber & Box Co., recently said: "The old proverb—'An ounce of prevention is worth a pound of cure'—is certainly true, yet it is interesting to note how little attention golfers pay to possibility of becoming infected with athlete's foot. Week after week they walk barefooted in the locker-room and then wonder why they pick up an aggravating infection.

"When the comfort and convenience of wooden sandals is taken into account, it seems to me it would be a lot easier to buy a pair of these sandals and wear them when walking to and from the shower room, thus avoiding the possibility of picking up athlete's foot which may result in considerable expense to the individual in the way of medicines and antiseptics, and sometimes even results in large doctors' bills. Taken in this light, wooden sandals may be regarded as a form of insurance."

BUY YOUR GREENS READY MADE!

Hundreds of golf and country clubs, greenkeepers, landscape architects, homes, etc., use our True Washington Strain Creeping Bent in solid turf form. Furnished in rolls ready to lay down like a carpet. Also available in stolon form. Hardy—withstands heat waves. Guaranteed quality. Also Nursery-Grown Blue Grass Sod. Write today for prices, samples and facts about our unusual service.

SAVE YOUR GREENS AND BANK ACCOUNT WITH FUNGO AND VEG-E-TONIC

FUNGO

FOR BROWN PATCH AND SOIL VERMIN

The 2 in 1 compound that controls Fungous Diseases, Earthworms, Sod Webworms, Grubs, Beetles, etc. Applied either wet or dry. Will not burn or impair soil fertility. Very economical.

VEG-E-TONIC

Golfdom's "no filler" fertilizer. Dissolves in water, producing a "cool food" which does not burn or streak your greens. No "watering in." 21% Nitrogen, 13% Phosphoric Acid, 10% Potash. Prompt and lasting results guaranteed.

Small samples of FUNGO and VEG-E-TONIC mailed upon request. Write for our Monthly Schedule System of Green treatment. All free.

McCLAIN BROS. CO., 127 2nd St., Canton, Ohio

The Peerless Mower Sharpener

NEW MODEL D
 Grinds all type of power-driven, fairway, putting green and hand mowers without removing mower wheels or reel knives. Carriage has travel of 42 inches. Grinds with amazing speed and accuracy. 6-inch grinding wheel driven by 1/3 H.P. motor and V belt. Very quiet running.

A Reconditioner Attachment can be furnished at an additional price for "lapping in" putting green mowers with emery paste. This Attachment can be quickly clamped to the Sharpener by two clamps. Write for Catalog.

The Fate-Root-Heath Co. 432-468 Bell St. Plymouth, Ohio

All Can Have Them Now!

"Would like to have them but can't afford it" is a thing of the past. Increased production and decreased manufacturing cost bring this efficient, 4 cutting edge blade within the price of all. Write for new Price List "GG" and full details. A postal will do. **BUDD MFG. CO., Ravenna, Ohio**

AND not a single sprinkler of any other make has been sold where PERFECTIONS have been tried out.

The Reason is—PERFECTIONS ARE THE BEST

Ask your dealer or send for circular

Made in four sizes and styles at \$7.50 to \$14.00

Mfg. by Perfection Sprinkler Co., Plymouth, Mich.

Table-tennis, hitherto confined to play inside the clubhouse because of the difficulty of getting a table that will bounce a ball true, now is one of the outdoor sports. A steel table, weather-proof and with a bite that lets the little ball do all its tricks, has been invented. Here it is shown installed at one of the Chicago district golf clubs. They can leave it out all night and day without injury, or if some of the folks want to play inside, it folds quickly and transports easily. Price is low and that means something these days.

Court Rules Against Caddie

ACCIDENTALLY hitting a caddie with a golf ball does not always result in the courts awarding the youngster damages

for his injuries. A recent ruling by the Kentucky Court of Appeals denied \$30,000 damages to an Audubon C. C. (Louisville distr.) bag-toter who had been struck by a golf ball.

A hand power tool that cuts sod with smooth, even edges and uniform thickness . . . 13½" wide, any length. Easy to operate . . . two men can cut 15,000 square feet of sod a day. Does not damage lawn. Write for full information.

TORO MANUFACTURING CO., 3042-3168 Snelling Ave., Minneapolis, Minn.

The opinion, written by Judge S. S. Willis, read: "It is the duty of the driver of a golf ball to exercise ordinary care for the safety of persons reasonably within the range of danger, but ordinary care in such situations does not require the impossible. A player is not able to control either the direction or the destination of a golf ball. Obviously he must give notice to those unaware of his intended play of his purpose to send the ball in the direction of the persons so situated as to be in danger. But no testimony discloses any breach of duty by Embry."

JUNE MEETING of the N-E N. Y. Greenkeepers' association at Troy C. C. was attended by 30 superintendents and pros. Highlights of the meeting were demonstrations of Ideal and Jacobsen power mowers, a showing of Stumpp & Walter's brown-patch movie "Golf Hazards," a proposal that the association publish a monthly greens bulletin, and numerous speeches on general maintenance topics by authorities in attendance. Next meeting is scheduled for July 20 at Sir William Johnson C. C., Gloversville, N. Y.

"Annual Golf Review" Makes Bow to Golfers

WITH AN IMPRESSIVE list of contributors and with several hundred photographs and diagrams to assure reader interest, the 1932 *Annual Golf Review*, edited by William D. Richardson and Lincoln A. Werden, right now is available for 25c per copy on newsstands, in bookstores and direct from the publishers, the Golfer's Yearbook Co., 6 East 45th street, New York City. It is a pleasing addition to current golf literature.

The *Review* has the format of a popular magazine and editorially treats of such lesson subjects as "Playing the Irons," by Tommy Armour; "How to Hole 'Em," by Johnny Farrell; "Out of the Sand," by

by contact. According to the makers, there is no toxic effect from use of the compound in the soil nor is the turf harmed. It is claimed that as many as 168 dead and dying worms were taken from one square foot of turf in an experiment conducted by the company.

Garden Supply Company will send on application a booklet describing "Sweb" and giving full details as to prices and terms.

ALTA-CO PREVENTS, CURES ATHLETE'S FOOT INFECTION.

Westport, Conn.—*Alta-Co*, odorless antiseptic solution, is manufactured by C. B. Dolge Co. for preventing spread of athlete's foot and for curing this ringworm infection once any part of the human body becomes infected with it.

Clinical tests with *Alta-Co* conducted by an eminent research institution reveal, according to the Dolge Co., that (1) diluted in 4 parts water, it kills athlete's foot mold in 10 seconds; (2) it has 5 times the inhibitive and penetrating power of carbolic acid on basis of comparative dilutions, tested by agar cup plate method; (3) it relieves and prevents athlete's foot infection when used in a foot-bath in 1 to 5 solution.

To prevent spread of athlete's foot, *Alta-Co* is applied with a mop to floors close to swimming pools, shower rooms, drying rooms, locker rooms, and other places trod by many unshod feet. It is used in a solution of 1 to 5 in the Dolge Foot Bath as a supplementary precaution, the bath being placed in doorways leading to and from floors subject to infection. As a cure, infected feet are immersed in a 9 parts water solution for 3 minutes at least 3 times weekly.

In addition to its antiseptic properties, the makers further claim that *Alta-Co* neutralizes offensive odors from decaying matter in and about urinals, bowls, sinks and garbage pails, destroying putrefactive bacteria and combining chemically with the gases they generate to form odorless compounds. It leaves no odor whatsoever.

The C. B. Dolge Co. has published a booklet entitled "Athlete's Foot, Prevention and Cure," giving complete information about *Alta-Co*, which may be had for the asking.

A week-end "abroad" . . . at one day's cost!

How's for a week-
end at one of

Europe's famous spas? You'd like it? Then come over to French Lick—it's like a different world! Our wooded hills shut out your everyday existence, and instead fills your day with gaiety—and sports—and very smart people.

- You can turn yourself loose on our championship golf course . . . or whack a tennis ball across our clean, bright courts. You can ramble over green-leafed hills . . . or pick a smooth-gaited Kentucky thoroughbred for an hour's canter.

- And in the evening . . . music, dancing, entertainment . . . tables of bridge, or what game *do* you like?

- Come! Rest . . . relax. Drink our wonderful curative waters. Sink deep in the baths of Pluto, Bowles and Proserpine Spring waters. Go back to town ready to lick that knotty problem!

- We're so close, you know—just a few hours, and you're here. And the cost—no more than you'd drop over a week-end in town. Here, figure with us.

- Say, you arrive Saturday in time for evening dinner; you are billed for just one-half day Saturday. Then if your plans take you away after the noon meal Sunday, the charge again is for only one-half day. There you are—a Saturday and Sunday week-end at French Lick with just one day's expense. We'd like to have you stay longer, but then—you'll soon be back.

Summer Rate

Schedule . . . NOW IN EFFECT

Men's and Room with lavatory and toilet		Meals and Room with bath
