

erally unsatisfactory traps. To apply it simply punch holes at intervals of approximately 4 feet in the mole run. Pour in from a teaspoon to a tablespoonful of Nomole. Cover over with earth—do not stamp down. Allow to stand for a day or two and then the runs may be rolled down. Moles can't seem to resist this food and having eaten it, they haven't got a chance.

To tell you truthfully, we were somewhat surprised with the results of our tests and knowing what a field there was for a good inexpensive, yet easy and sure mole-killer, were mighty pleased. Results obtained by actual users in various sections of the country have confirmed our tests and sales on the product have exceeded expectations.

Dolco Nomole is covered by the Dolge test privilege; that is, from any shipment 2 ounces may be used within 30 days of receipt of shipment. If it does not live up to our every claim for it, the balance may be returned to us and no charge made for the amount used in testing. We believe this is fair. We know the product is good and we're willing to give the other fellow a chance to prove it to himself.

Assuring you we will deeply appreciate any consideration you can give this matter, we remain

Faithfully yours,
THE C. B. DOLGE COMPANY,
LLOYD DOLGE.
