PLEASE do us a FAVOR!

We are glad to send GOLFDOM free to Club Officials . . . BUT, we hate to think copies are going to the wrong man! So we spend lots of money keeping our mailing list up-to-date.

Will you help us correct the names at YOUR club by filling in this page, tearing it out and mailing to GOLFDOM, 205 W. Wacker Drive, Chicago.

This is especially important if YOUR club has recently held an election. We want the new officials to begin receiving GOLFDOM immediately!

Please PRINT plainly. Home or business addresses preferred.

FORE-PEST IS LATEST TREATMENT FOR BROWN PATCH

Indianapolis, Ind.—Camillo Laboratories, Architects Bldg., are making an aggressive play for increased use of "Fore-Pest," a brown-patch cure and preventive, following its successful use according to Camillo, in Louisville, Cincinnati, Indianapolis and Chicago last season. It is offered not only as a cure for turf troubles, but as an excellent preventive, if used at 60 day intervals.

Descriptive literature and full information is obtainable by interested greenkeepers upon application to the Laboratories.

ELWINN INTRODUCING FORK FOR GREEN AERATION

Roselle, N. J.—Elwinn Supply Co., 11th Ave and Chestnut St., are offering to golf course supply houses for resale a new tubular tine turf fork. Pressing the fork into the ground cuts 7/16-inch plugs in the turf, the plugs rising through the hollow tines and falling to the green surface, or a plug-catcher attachment can be used which gathers the plugs and thus keeps the green clean. Holes in the green are clean, do not interfere with play and the walls are not compacted as in ordinary methods of aerating, according to the makers.

Prices vary somewhat over the country, the average price being \$9.50, complete with catcher, \$8.00 without.

A N INTERESTING idea from the Detroit District Golf Assn. is the practice of issuing presidents and secretaries playing privilege cards good on all clubs belonging to the association. These cards are not abused and have been responsible for much valuable exchange of information. The policy is one that could be applied in many other districts with good results. It would seem like inclusion of green-chairmen who are the men most usually anxious to compare operating conditions and results, would be advisable in any extension of the Detroit District's plan.

COMPOST-^{CONVERSE} Rotary Screens - SOIL

F. S. CONVERSE CO. Box B. JOHNSON CITY, N. Y.

WHEEL SPUDS

Quickest to put on and take off. Doubles traction. Durable and low priced.

All sizes for all purposes. Samples and circulars sent free on request. Advise make of tractor and purpose intended.

If your Ford or equipment dealer cannot supply, write direct.

WILLIAM MADLUNG, Mng. Dir.

Simple Enough, Isn't It?

When the four cutting edges of the blade (see arrows) are worn, replace with a new one as you would in your razor. The attachment becomes a removable part of the mower and never needs replacement.

Poor turf

is a warning!

Good turf is a magnet

NOTHING attracts players like a course in-the-pink-of-condition. Good turf is the best and the cheapest business insurance a golf club can buy.

**Turf does better
on a natural diet**

PREMIER POULTRY MANURE

A natural grass food and stimulant.

Read these **7** reasons why:

1—It is a natural grass food and stimulant. 2—It is a balanced manure containing 6% Ammonia, 2.50% Phosphoric Acid and 1 to 2% Potash. 3—It contains no live weed seeds. 4—Being organic, it aids humus and aids bacterial action. 5—It can be applied with a minimum of labor and expense. 6—Being more soluble than other manures, it is more available. 7—Being finely pulverized, it is quickly absorbed into the soil.

Write for name of your nearby dealer.
