## DO IT BEST

## for 1934—TORO HI-SPEED TROJAN Mowers with New Style Rollers

THOUSANDS of Trojan Hi-Speed Fairway Mowers are now going into their fourth year of highly satisfactory service. From Maine to California, enthusiastic purchasers have testified as to their dependable performance.

The Trojan was the first fairway mower on the market built with a single unit reel and a knife assembly which eliminated all twist. Closely coupled and with a special draw-bar suspension it stays on the ground and does a clean job of cutting at higher speeds than any other mower.

For 1934 another major improvement has been made. The rear roller is now built with a three-point bearing surface which eliminates the excessive accumulation of worm casts and dirt and provides a lighter, stronger and easier-running mower.

TROJANS will deliver for you the utmost in service and satisfaction at the lowest upkeep expense, and yet cost but little more than other makes.

If you are in the market for mowers this year, by all means, insist on the new TORO TROJAN.

## "CANADIAN CLUB"

"CANADIAN CLUB," happily, is one of those few products known the world over for consistent, unvarying excellence. When Hiram Walker, in 1858, founded this now vast business, he laid down hard-and-fast principles of quality and purity. Those principles have not been changed in 75 years. They are prac-

ticed faithfully today, in every process of distilling and leisurely mellowing "Canadian Club"—whose age is attested by the government's official stamp which seals the bottle. Those same principles are your assurance that any product bearing the name of Hiram Walker & Sons measures up to the high standards so evident in "Canadian Club."
