
OUR THANKS *and* OUR PLEDGE

IN starting the New Year, it seems appropriate to express our appreciation for the splendid support accorded all of the balls manufactured by this company.

1934 was a good year—a *mighty* good year—for U. S. Golf Balls. Indeed, it was so good that it is going to be hard to beat in 1935. Yet that's exactly what we intend to do—with your help.

The Golfers of America have accorded us remarkable support and we're fully appreciative. We will do our part in 1935 to merit a *continued* faith in our product.
