

E. STEINIGER, Supt.

**"We are very much pleased  
with the TORO Master Seven  
Tractor and Mowers" . . .**

*Pine Valley Golf Club,  
George Cunningham, Mgr.*

By many competent authorities, Pine Valley Golf Club at Clementon, New Jersey, with an international membership, has been chosen as one of the five outstanding golf courses in America.

Selected by the U. S. G. A. as a site for the Walker Cup tournament next year, it will be the scene of competition attracting world-wide interest.

It is particularly significant that TORO Mowers are used 100% on Pine Valley and have been for a number of years past. The fairways are cut in six hours with a TORO Master Seven and Trojan Mowers. The greens are mowed to perfection with TORO hand Greensmowers and the tees are cut with TORO Silver Flash precision mowers.

Throughout the East, the Middle West, the Pacific Coast and Canada, three out of four able Golf Course Superintendents will tell you that TORO machinery is the best in the field. Specify it on your grounds.

*This is the McCormick-Deering Fairway 12 Tractor on low-pressure rubber tires which can be furnished on special order. Steel wheels are regularly supplied.*

## Efficient, Low-Cost Power for Your Maintenance Work

**A** NEW opportunity to reduce your budget for maintenance—this year, next year, and for many years to come—that's what the McCormick-Deering Fairway 12 Tractor offers golf clubs. With fuel consumption less than a gallon of gasoline an hour, and a great capacity

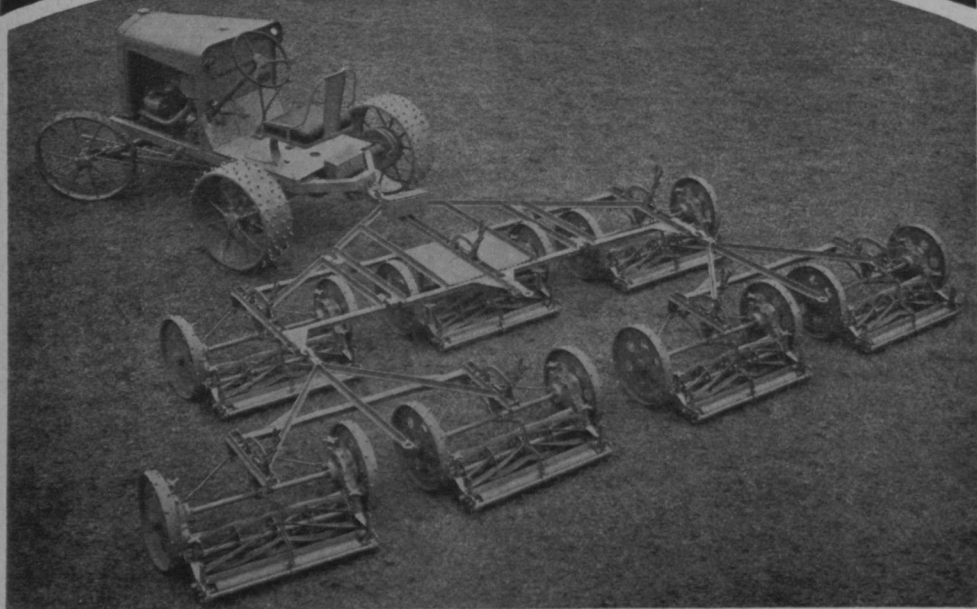

for work, the Fairway 12 can be relied on to put operations on the most economical, most efficient basis. When you see the Fairway 12 in action you will begin to appreciate what a worthwhile investment it is. Call our nearest branch, or a McCormick-Deering distributor or dealer, for a demonstration.

# Worthington Mowers

Any cost cutting savings we claim to make with our equipment, are not just words. We have the proofs. Yours at any time for the asking.

## Cuts Down Cutting Costs on Fairways

Worthington Dump Body Tractor.  
Has no tailboard. Dumps itself.  
Body easy to take off. No hinges.  
Just slip out one bolt. Holds full  
cubic yard.

HERE are six exclusive Worthington cost cuttings, which are not to be found with any other fairway equipment.

1. Cuts down time necessary for lubrication.
2. Cuts down gasoline consumption time.
3. Cuts down pulling unnecessary weight.
4. Cuts down wheel replacement cost.
5. Cuts down sharpening time.
6. Cuts down knife-adjusting time.

# Worthington Mowers

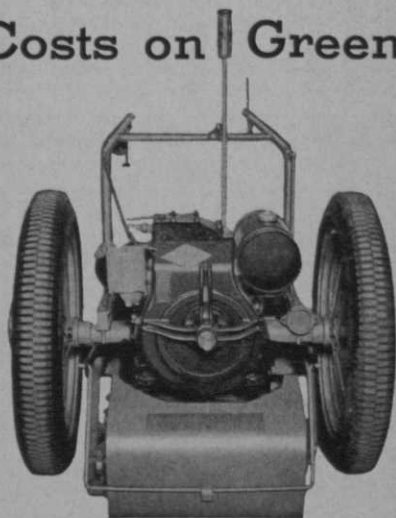

Meadow Lake Country Club is one of the many hundreds who have paid for their Overgreen with the money it saved.

## Cuts Down Cutting Costs on Greens

**H**OW about taking at least three men off your greens cutting and let one man do it alone? "Can't be done", you reply. To which we come back at you and say: Oh yes it can, if you have a Worthington Overgreen.

Besides mowing greens, it will roll, disc, rake traps and distribute fertilizer.

"But they cost too much," you reply. To which we raise our voice a bit and say: Cost too much! Why man they don't cost you a cent! They pay for themselves in the savings they make. "Bunk," you reply. All right then, send for catalog. Get the facts. See for yourself. Make us prove it.

**SKINNER  
SYSTEM**  
OF IRRIGATION

## MEN WHO "KNOW" CHOOSE SKINNER

The Skinner System of Irrigation Welcomes  
Investigation by Engineering Minded Buyers.

For the Portage Country Club, engineers of the large Akron Rubber Companies — at Midland Michigan, engineers from the Dow Chemical Companies — at Youngstown, engineers from the Steel Companies — at Moraine Park Country Club, Dayton, the N. C. R. Engineering Department — at the private course of the United Shoe Machinery Company

their own engineers—were largely determining factors in the selection of the Skinner System.

The selection of Skinner System for complete fairway, tee and green irrigation on these and many similar courses is not due to any indefinite or haphazard investigation. Only after thorough, able and informed consideration and comparison did the decision go to Skinner System.

Quality equipment, able engineering service, a quarter century of irrigation experience have achieved for the Skinner System a prominent position in the golf course watering field.

A copy of our new and condensed golf watering manual is yours for the asking. It is interesting and full of useful information.

# GOLF *for* GOLFERS

## DECLARE WAR ON WORMS, BEETLES, GRUBS AND WORM CASTS

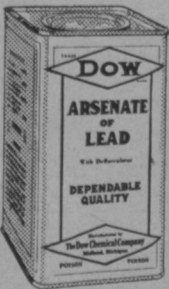

A few handfuls of grubs, beetles and worms will ruin more good putts than any other cause. Worm casts and bare spots on greens not only take the joy out of golf, but also take the cash out of the greens fund.

It costs much more to repair and replant greens than it does to save them in perfect condition by the generous use of Dow Lead Arsenate.

Dow Lead Arsenate, properly applied, will rid your greens of worms, beetles and grubs, and will discourage growth of chickweed, fennel, crabgrass and other noxious weeds. Get your supply of Dow Lead Arsenate now.

*Inquiry Solicited from Responsible Dealers in Areas Where We Have No Representative.*

Latest Designs — Finest Workmanship

Send today for complete details and latest LOW prices.

**STANDARD MFG. COMPANY**  
 Cedar Falls, Iowa

*Juggle them all you want—*

**WORN OUT MOWERS STILL COST YOU MORE THAN NEW "PENNSYLVANIAS"**

You can juggle figures just so long, then they fall on the right or left hand side of the ledger.

Many greens committees have postponed the purchase of new mowing equipment in an effort to meet reduced appropriations—only to find that the cost of maintaining old worn-out mowers is greater than the investment necessary for new "Pennsylvanias".—Some have paid for this knowledge with a lowering of the standard of their turf, and the resultant complaints of player members.

So—stop paying repair bills and jeopardizing the condition of your course—send for the new Pennsylvania Quality Mower Catalog—you will be quick to see how up-to-date "Pennsylvanias" actually save you money while improving the playing condition of your course.

**UNBREAKABLE FAIRWAY MOWER**

Built of malleable unbreakable iron. 6 crucible steel blades. 3 dust-protected cut gears on *both* sides. Timken Bearings on cylinder, dust-proof bearings on ground roller. Alemite lubrication throughout. 2 sizes—30 inch, and the Giant 36-inch unit which gives 20% wider cut for only \$15.00 more.

**SUPER ROLLER GREENS MOWER**

Light weight, high-speed, smooth cutting, 8 crucible tool steel blades. Positive precision adjustment. Alemite lubrication. Cuts 18-inch swath.

 PRIMOS (write for catalogue) PENNA

## PROTECT Your Fresh, Green Fairways

### Don't Let Them Burn

Florida Humus, applied now, will hold like a sponge the moisture that your fairways are going to need this summer. It's your best **fairway insurance**—against hot, dry weather—because it also encourages strong root growth, and makes healthy grasses by feeding them slowly released stores of organic nitrogen . . . Many clubs have found that Florida Humus has reduced their watering costs by as much as 50%.

THE ANALYSIS of Florida Humus (Wiley & Co., Baltimore, No. 129117) shows a water-holding capacity of 581.12%; a nitrogen content (on a dry basis) of 3.25%; and an acidity, pH, of 6.2 (very slightly acid—7 is neutral—most grasses like an acidity of around pH, 6).

**FREE BOOKLET:** If you haven't received your copy, write Florida Humus Co., Sales Office, 141 Milk St., Boston, Mass., for The Uses of Florida Humus for Better Greens and Fairways.
