

**GOLF CLUBS USE MORE
MILORGANITE
THAN ANY OTHER FERTILIZER**

*The CHOICE of
ONE QUARTER of
the Country's Leading
GOLF CLUBS.*

Such popularity must be deserved. It is—for SCOTT'S GOLF COURSE SEED and SCOTT'S CREEPING BENT have won many a tournament over transient weeds. Try Scott's seed this year. You will find it most economical in the long run—because you buy only pure seed. We would like to figure on your spring requirements. At the same time, let us send you a bound copy of *LAWN CARE*. It is free to greenkeepers and greens chairmen.

TWO "Chocolate Town" COURSES are installing SKINNER SYSTEMS

The Officials and Engineers of Hershey, Pa., America's model town, impressed by Skinner's high quality of construction and performance—thoroughly engineered plans—and experience of outstanding clubs in the country, chose Skinner Systems for both the Hershey Country Club and the Hershey Park Golf Club courses.
