

YOUR INVESTMENT Protected

by *Pneumatic Tires* AND UNBREAKABLE IRON CONSTRUCTION

Whether the Giant 36" model, or the DeLuxe 30"—your investment in a Pennsylvania Fairway Mower is doubly protected against the roughest use.

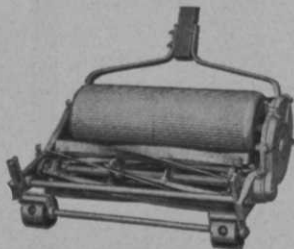

FIRST, *unbreakable malleable iron* construction makes the Pennsylvania the toughest fairway mower on the market. It defies the sudden shocks and strains to which all fairways are subjected, thus protecting you against costly breakdowns that jeopardize the playing condition of your course.

SECOND, *Goodyear pneumatic tires* protect the mower against jolts and jars when crossing hard surfaced roads or rough ground. Moreover, generously wide treads provide plenty of traction and prevent bogging down when the course is soggy. They do not groove, or tear the turf on hillsides.

Why not get first hand information on the host of other features exclusive to Pennsylvanias?

Literature sent you immediately upon request.

SUPER ROLLER
GREENS MOWER

Light weight, high speed, smooth cutting, 8 crucible steel blades. Positive precision adjustment. Alemite lubrication. Cuts ribless 18-inch swath.

**LOOK UP THREE WORDS
in your encyclopedia**

**PEAT . . .
COMPOST
. . . HUMUS**

**You'll use Peat Moss for new
Greens, Approaches and Fairways**

EVEN soil that is too sand-soft or clay-hard is quickly corrected with Peat Moss. It works wonders. Seeds germinate more rapidly and strong, vigorous roots are developed, resulting in a thick, deep-rooted turf.

Peat Moss performs many valuable services—but most important is its ability to promote compost and supply an unfailing source of humus. These are essential to successful plant life. Without them, soils are unproductive, no matter how high the fertilizer content. (Your own encyclopedia will confirm these facts.)

Peat Moss helps soil texture. It adds organic matter to the soil, binds sandy soils, aerates hard clay soils, and acts as a storehouse for plant food. It promotes vigorous, healthy root development—so essential to good greens and fairways.

Let us tell you more about Emblem-Protected Peat Moss and its many uses about the golf course. Mail the coupon below for Free literature and name of nearby dealer.

CAUTION— Look for the **P I C** Emblem on the side of every bale of peat moss you buy. It is not a brand designation—but a stamp of approved quality, there for your protection. Only nature's finest peat moss is Emblem-Protected.

STOP

INSECT DAMAGE

TO LAWNS, GREENS AND FAIRWAYS

... Apply

NuREXFORM

The Improved Arsenate of Lead

The simplest and most effective method of preventing and stopping the insect damage done to your greens, tees, fairways, and lawns is to introduce NuREXFORM, the Improved Arsenate of Lead.

Because of its high killing power and ease of application NuREXFORM is most effective for the control of

Japanese Beetle grubs and earthworms. Apply NuREXFORM now while the grubs are feeding on tender grass roots. NuREXFORM is available in convenient sized packages at your nearest supply house. Write for literature.

GRASSELLI Arsenate of Lead is also effective for grub control.

EASIER

ON TURF! DRIVER! UPKEEP!

You need these big Goodyear Tractor Tires on your tractors and mowing machines. They pay for themselves so quickly—so many different ways.

On Goodyear pneumatics, equipment rolls much faster—handles more easily—can be driven over fairways, greens, lawns, walks, bridges without the slightest damage to surface — without wear and

tear on either driver or equipment itself.

These advantages mean concrete savings. Fuel costs drop to an almost incredible low. Repair bills are cut to a minimum. Hours of time are saved . . . more and better work accomplished.

Ask the Goodyear dealer near you to arrange for a demonstration. He'll be glad to do so without obligation.

<p><i>aiming at a</i> STILL HIGHER <i>mark of service</i></p>					

TEN YEARS ago Mallinckrodt cooperated with the U.S.G.A. Green Section in experimental work on Brown Patch control. A year later Calo-Clor, an economical and scientifically balanced mixture of mercurials, was offered ready mixed for greenkeepers. Still later, Suspension Calo-Clor was developed for use in power sprayers and other spray machines.

For 1937 Mallinckrodt pledges the same spirit of cooperation that has characterized its efforts for the past decade. Literature sent on request.

**WOULD YOU
PLOW UP YOUR GREENS
TO KILL BROWN PATCH?**

OR USE **FUNGOL**

**HIGHLY CONCENTRATED HEAVY DUTY
BROWN PATCH PREVENTATIVE**

Of course no one would plow up perfectly good Greens any more than use ordinary, low grade fungicides. But Fungol is different . . . the one safe and powerful product for both Large and Small Brown Patch. Chemically supreme for all fungous turf diseases.

Figure this yourself. Huge covering capacity of Fungol guarantees lowest application cost. Each pound treats 3,500 to 7,000 square feet of Green.

Last but not least, are the added chemicals in Fungol to prevent and control Soil Vermin . . . Earthworms, Sod Webworms, Cutworms, Grubs, etc. At no extra charge. Big money saving.

Write for special literature and free testing sample.

"It looks like a
**BRAND NEW
COURSE!"**

● If your members have to apologize to their guests because the course is dead and burned out, if the Oldest Inhabitant sputters in the locker room that the club is going from bad to worse—that nobody will play it—that the well-watered course down the road has paid off the mortgage and has a long waiting list—let a Fairbanks-Morse Turbine Pump give you a *new* course.

This precision-built pump was designed especially to handle large quantities of water at the lowest possible cost. It will supply your fairways and your greens with an abundant supply of water for remarkably little. Why not find out about it today? For your copy of Bulletin G14, address Fairbanks, Morse & Co., 900 S. Wabash Ave., Chicago, Ill. 34 branches at your service throughout the United States.
