Country Club, Pelham
Manor, N. Y.*

A sound plan for golf course irrigation is based on a piping system whose first cost is the last cost. Install cast iron pipe and there will be no replacements and no maintenance expense. Cast iron pipe lasts for a century. It is the standard material for underground mains. Sizes from 1½ inches. For list of installations, write The Cast Iron Pipe Research Association, Thomas F. Wolfe, Research Engineer, Peoples Gas Building, Chicago, Ill.
