

The NEW International Station Wagon

BEAUTY, distinction, and dignity are the keynotes of the sweeping streamlined styling of the New International Station Wagon.

In every line and curve, simplicity and smartness are blended in pleasing harmony. Refinements inside and out

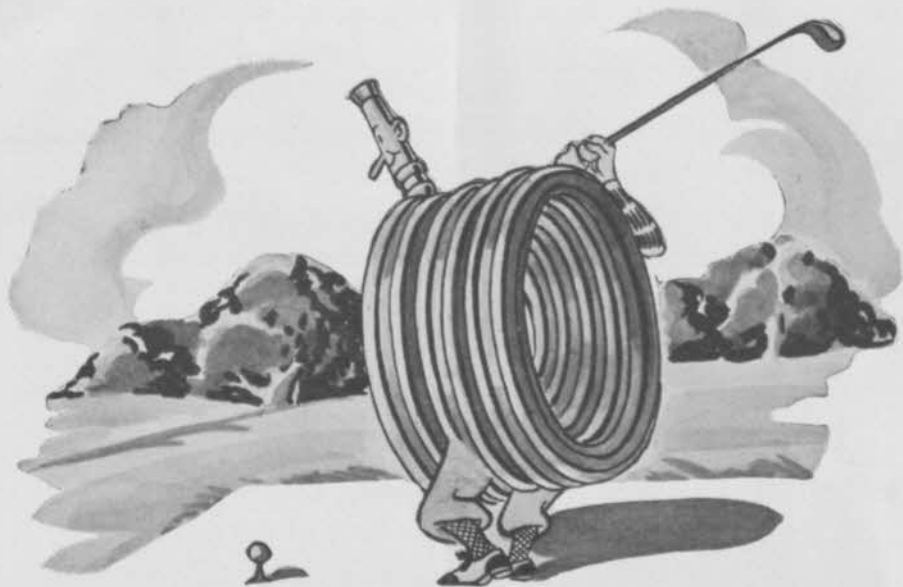

compare with those found in today's fine cars.

But attractiveness and good taste are not the only values. Adaptability to the needs of country clubs, large estates, private schools, and summer resorts has been given every consideration, making the International Station Wagon an ideal transportation unit. Passengers are whisked to their destinations quickly . . . in comfort. There is ample room for luggage and packages.

Inspect the New International Station Wagon. You'll appreciate its smart design, its pleasing appointments.

INTERNATIONAL HARVESTER COMPANY

180 N. Michigan Ave. Chicago, Illinois

INTERNATIONAL HARVESTER

Its "backswing" gives "lift" to maintenance dollars

MANY a sturdy length of Goodyear Emerald Cord Hose giving faultless service today was bought four, five, or even six seasons ago.

That's why it costs less to use, even though its price is a bit more than that of ordinary hose.

Emerald Cord Hose has a thick cover of tough rubber especially compounded to resist the cracking and checking induced by long hours under the hot sun. And those wide

flat ribs armor the body of the hose against abrasions from trees, walls, rocks and walks.

Its stout reenforcement of double-braided cotton cords gives long-life protection against the strains of yanking, kinking and dragging.

Get Goodyear Emerald Cord Hose from your supply house. Or write direct to: Goodyear, Akron, Ohio — or Los Angeles, California.

25 Years of Reliable Service to the Golf Field

The Flossmoor Country Club of Flossmoor, Ill., keeps its fairways and greens in championship condition with Worthington equipment.

WORTHINGTON GANG MOWERS give you greater cutting economies

From a 4-inch cut in the rough to 11/32 of an inch for smoother fairways is simply a matter of a few moments—just one of the time-saving economies every Worthington cutting unit gives you. Then, too, you can quickly convert the 7-gang mower with its 16-foot cutting swath to various combinations of 5, 3 and 1 units, or reduce the width of the 7-gang to the width of a triple for roadway travel, crossing bridges or mowing in confined areas. From 1914, every Worthington cutting unit ever built fits any Worthington frame ever built.

Another time-saving fact to remember is that Worthington cutting units require greasing only twice a year and at only

one point. Accurately cut gears and dust and grease-proof housings assure long, smooth operating life by eliminating unnecessary friction and wear.

Demountable rims are another feature found only in Worthington cutting units which represent substantial money-savings when replacements are necessary.

Attached to the sturdy, economical Worthington Tractor, these gang mowers give you a better golf course at tremendous savings in money, man-power and time. In every State of the Union and in 30 foreign countries Worthington gang mowers are being used to cut cutting costs.

Convert Your Present Toro Hand Greensmowers into Power Mowers with this Simple Motor Conversion Unit

Here is some good news for the thousands of owners of Toro Hand Greensmowers.

It is not necessary to buy a complete new machine. If your old Toro mower is in good condition, we can furnish you with this simple Motor Conversion Unit to slip on your present chassis, converting your hand machines into power greensmowers, exactly the same as shown on the opposite page.

All that is necessary is to remove the drive gears and the Motor Conversion can be attached to your present chassis. No special tools or alterations are required and the change-over can be made in thirty minutes' time.

Now you can have all the advantages of mowing with power with this new, low-cost Motor Conversion Unit.

The Greatest Mower Value in **GOLFDOM**

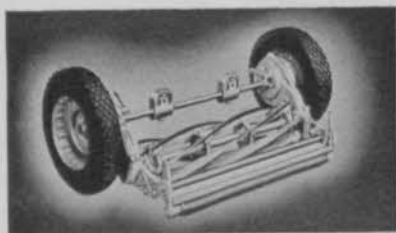

PENNSYLVANIA SUPER-ROLLER GREENSMOWER

Although this precision machine was introduced years ago it still remains the greatest mower value in Golf-dom. To be sure, improvements have constantly been made on this machine, improvements which have added to its ease of operation, its long life, and its useful service. BUT, none of these improvements has jeopardized its outstanding characteristics. It is light — it will not pack the sod. It runs smoothly — free from vibrations which pound the delicate turf. It is *clean*—no grease or oil to drip on the grass. It turns *easily*—no tearing the edges of the green on turns.

For the "magic carpets" your members will praise, use the Pennsylvania Super-Roller Greensmower—it's as fast and treads as lightly as a rabbit.

GOLFERS :
fishing season is here

A plentiful supply of worms on the greens is a boon to fishermen, but not to golfers. Worm mounds spoil the putting game and take the pleasure out of golf.

But, DIWORMA will eliminate worms quickly—easily.

Dilute 1 1/2 pints DIWORMA in 50 gallons of water—sprinkle freely—worms come to the surface—instantly—all of them. Rake them up. No dead worms left in soil to attract ants.

DIWORMA kills night crawlers, angle worms, wire worms.

Help keep the players' mind on golf—not fishing. DIWORMA will do it.

Send for 44 page Ground Maintenance Manual—it's FREE.

NEW HENRY BALL WASHER ELIMINATES BRUSHES!

The revolutionary new Rotary Squeegee, used exclusively on HENRY Ball Washers, entirely eliminates bristle brushes. No splashing — no scouring off cover paint. No loggy and smelly brushes or frequent replacement worry common with other washers.

The Rotary Squeegee, which can handle several balls at a time, is

made of pure gummed rubber called Latex, the toughest of tough materials, assuring thorough cleansing and long service. Compact, good looking and its housing of heavy gauge pressed steel will last a lifetime.

\$8.75
