

Picture of a Pro Making Money!

LAST year 100,000 packages of Gauz-
tex were sold by pros to golfers and
the way orders are coming in as this is
being written, the sale this year will be
300,000 packages.

Gauztex is pure white gauze treated
to make it cohesive—sticks only to itself. Packaged in a handy
PRACTICAL metal package for sportsmen and is the only item
of this kind carried by the leading sporting goods wholesalers.

Golfers use it for taping hands and fingers to prevent blisters
or to protect fingers after blisters have formed and for taping
clubs for more certain grip. One golfer uses several packages
a season. Last year some pros sold one or more gross.

This year sales will be much higher. More golfers know about
it; nationally advertised in Collier's, Saturday Evening Post,
and American Weekly, Gauztex is known to millions. A fast
seller that is increasing in popularity each season. Display it
and you sell it. Ask your wholesaler.

Manufactured only by

GENERAL BANDAGES, INC., 508 S. Dearborn St., Chicago, Ill.

GAUZTEX

The Self Adhering Gauze

Gauztex is as white as
the gauze itself. Guaranteed
to remain cohesive. Medicated
with mercuric chlor-
ide antiseptic. The metal
package retails for 25c
and contains $\frac{3}{4}$ " x $7\frac{1}{2}$
yards Gauztex.

The above assortment con-
tains 3 dozen metal pack-
ages and $3\frac{1}{2}$ dozen Four-
some packages and a sup-
ply of demonstrating
samples free. Sells to
golfers for \$15.30. Costs
you \$8.64, making 43%
profit. Order from your
wholesaler.

YOUR PROTECTION

62 YEARS SPECIALIZATION

In 62 years Pennsylvania has produced many outstanding mower developments. AND each of these features has stood up under the test of *actual working conditions* before it was offered to you. *You don't experiment when you buy a Pennsylvania!*

THE GREAT AMERICAN METEOR—Aluminum. A lawn mower streamlined in design, construction and performance. The 16-inch size weighs only 35 pounds (19-inch, 38 pounds). Rubber tires and special construction of the mower itself make it *quiet*. Timken Roller Bearings on cylinder are *adjustable* to take up wear. Patented single-screw adjustment on ends of lower blades make fine adjustment possible—and rigid.

DE LUXE PENNSYLVANIA FAIRWAY—Try and break it in ordinary use! Just can't be done—it's made of malleable iron. New tubular frame eliminates ground wheels—permitting extreme flexibility of gangs. Units in two sizes: 30" and Giant 36". Pneumatic tires optional. Can be operated singly (horse or power drawn) or in gangs of 3, 5 or 7.

"Every Golf Course Should Have That Mower"

*Says Clarence C. Yarn,
Woodside Golf Club,
Des Moines, Iowa*

Clarence Yarn, owner of the Woodside Daily Fee Golf Course in Des Moines has no money to throw away on machinery that doesn't perform 100% and is a good value.

Early last spring he bought a 21-inch Homelawn mower. He used it continuously for cutting steep bunkers, traps, tees and approaches. He was amazed at what the machine would do.

At the Golf Show in Kansas City he stated the case simply and quickly.

"It was the best investment I ever made. Every Golf Course should have that mower."

Toro Homelawn Power Mowers are built of light strong pressed steel and sell from \$84.50 to \$98.50 at Minneapolis. Ask your nearest Toro distributor to deliver one immediately or write

● A very popular sprayer is this Hardie Tractor Trailer, designed and built for use with golf and fairway tractors. Below is shown the No. 99X0104, a splendidly efficient smaller, lower-priced Hardie golf sprayer.

THE HARDIE LINE of specialized golf sprayers includes built-for-the-job models in many types and in all sizes and capacities. The long life, splendid performance and economical operation of Hardie sprayers make an investment that pays consistent dividends for many years. Durability in a sprayer depends directly upon the design and construction of the pump and how it is lubricated. The vertical-type, crankshaft-driven Hardie pump has demonstrated an absolutely unmatched length of life. Ask your dealer or write for catalog and complete data. The Hardie Mfg. Company, Hudson, Mich., Portland, Ore., Los Angeles, Calif., New York City.

HARDIE

DEPENDABLE SPRAYERS

The New Worthington Golf Chief and 7-Gang Mower, which we believe to be the finest, most efficient mowing combination in the world.

The new **WORTHINGTON GOLF CHIEF** gives you even better mowing and more economical performance

The new Worthington Golf Chief gives you a radically advanced tractor for golf course work. Its high-efficiency Chrysler industrial motor, its 1-ton capacity Dodge truck rear-end and its sturdy construction throughout, give you a power reserve and a safety factor far in excess of any golf course requirements.

Operator-comfort has been built into its cushioned, spring-plunger seat. The new, non-glare scientific paint job saves the operator eye-strain as well as giving the Golf Chief an attractive, harmonious appearance.

The wheel-base is only 65 inches, which permits a turning radius of only $5\frac{1}{4}$ feet.

Its weight is only 1975 pounds (more weight means loss of economy and is unnecessary). Its ground clearance of $10\frac{1}{2}$ inches at the front axle is more than ample for cutting or sickle-bar work in the rough. Transportation speeds up to 32 miles an hour.

This new Golf Chief saves you time, money and man-power. Remember, there are more Worthington Gang Mowers in use throughout the world than all other makes combined and that in the last 15 years, 46 out of 60 of the championship courses chosen for the United States, British and Canadian Open and the United States Amateur Championships used Worthington equipment.

Tear out and mail this coupon today for handsome, illustrated catalogue showing Worthington equipment and how it can save you money and give you a better golf course at the same time.

HEADQUARTERS for BENTS

Read what one of our large growers says in an unsolicited letter:

"This in our opinion is probably the largest single order for bent grass that has been issued in this country. We want you to know that we greatly appreciate the confidence that you have placed with us in giving us an order of this size. We will undertake to supply the seed to you in such a manner as to meet with YOUR most exacting requirements."

We offer seeds of the following that have been proven by test to be over 99% pure:

Coos County Seaside Bent	Rye Grasses Rhode Island Bent	South Mixed German Bent (90% pure)
Red Top	Triple A Bent	Creeping Red Fescue (97% pure)
Astoria Bent	Colonial Bent	Reliable Putting Green and Fairway Formu- las
Chewings Fescue (Im- ported and Domestic Grown)	Kentucky Blue Also True Velvet Bent (94% pure)	

—and—

Fescue, Strain 53-27 . . . a selection from Chewings's Fescue, but of stronger vitality, deeper rooting, more drought resistant and less susceptible to attacks from chinch bugs.

Big covering capacity of Fungol spreads your dollars farther . . . 3,500 to 7,000 square feet of Green to the pound. Nothing else like it.

NEW

Cooper

"CHAMPION"

Provides for the First
Time • Proved Economy
• Durability • and Top
Performance for All Greens
Maintenance

The top performance of the Cooper "Champion" is possible because of the introduction of a new engineering design, thoroughly tested and proven.

WORLD'S LIGHTEST POWER GREENS MOWER

The wide-spread use of power greens mowers has not been possible in the past, because excessive weight had a decided tendency to pack greens. Faulty design and construction produced corrugations, cutting laps showed and uneven contours or terraces were often scalped. All these faults common to former greens mowers have been overcome in the Cooper "Champion."

All dead-weight has been eliminated without sacrificing strength and durability. New clutch design engages without grabbing and will not scuff or mar the finest turf. High speed reel insures a smooth-cut green without corrugations. Simple adjustment of reel to bed plate gives micrometer exactness. New design for rear roller provides uniform lap of cutting swath. Latest type Briggs & Stratton high speed, self-lubricating motor develops up to 1 H.P. Full 20" cut with height control ranging from 0 to 1". Equipped with light weight transport cart and close-coupled grass box. Weight 120 lbs.

The Cooper "Champion" will pay for itself the first year and give you a handsome profit. Write for demonstration appointment, new literature and complete information. Learn how you can provide finer greens, release your men for other work, and still save a substantial part of your maintenance appropriation each year.
