

SEMINOLE —
one of the fine courses
piped with Cast Iron

View of fourth fairway
and green.

A fairway irrigation system, piped with cast iron, is an investment in better playing conditions and a healthy membership—a *permanent* investment without replacement or maintenance expense. The first cost is the last cost. Cast iron pipe serves for a century. It is the standard material for underground mains. Sizes from 1¼ inches. Address inquiries to The Cast Iron Pipe Research Association, Thos. F. Wolfe, Research Engineer, Peoples Gas Building, Chicago.
