No. 7 Green*

A permanent, trouble-proof system of golf course irrigation is based on the use of cast iron pipe. The first cost is the only cost. Properly built cast iron lines require no maintenance. Cast iron pipe is the standard material for underground mains because it serves for a century. Available in sizes from 1¼" up. Address inquiries to The Cast Iron Pipe Research Association, Thomas F. Wolfe, Research Engineer, Peoples Gas Bldg., Chicago, Illinois.
