

HERE'S HOW

**TO GET THE MOST
OUT OF YOUR**

REPROCESSED GOLF BALLS

"U.S." experts have solved the grading problem that has bothered buyers of reprocessed golf balls. Now you can buy "playing quality and performance."

The NEW "U.S." METHOD of handling, testing, inspecting and grading reprocessed golf balls gives golf professionals and players the best playing golf balls in each price range.

"U.S." experts now test and grade each ball not according to its former price or brand but by its present, tested ability to perform.

You get these accurately graded golf balls bearing such nationally famous names as U. S. Royal, Three-Star U. S. Royal, U. S. Fairway and U. S. Nobby. The first three grades have genuine Cadwell-Geer Covers.

Get in touch with your U. S. Golf Ball representative at once and learn about the NEW "U. S." METHOD of grading and handling golf balls. This year your only possible source of supply—to keep your members playing golf—is the used golf balls you turn in for reprocessing.
