

L. R. NELSON MFG. CO. and **RAIN BIRD SPRINKLER MFG. CORP.**—Joint exhibit will display full line of Silver Top quick coupling valves—really two valves in one, as an auxiliary valve closes automatically when the working parts of the valve are removed for inspection or repair, eliminating digging and tearing up turf necessary for removal of valve casing. Other items on exhibit will be valve casing and sod cup, swivel hose ell, wheel bases, roller bases, sled base, Silver Spray underground sprinkler heads, Pop-up sprinkler heads, and Rain Bird sprinkler heads, both full and part circle, ranging in capacity from 10 ft. to 2½ acres. Representatives will be R. B. Nelson and Burnell Brown. Rainbird will be represented by Mr. Crawford Reid.

WEST POINT LAWN PRODUCTS—The Fairway-Green Aerifier will be displayed in Booth 24. One unit equipped with one inch diameter spoons will be shown; also, an extra "reel" consisting of shaft plates, shaft, discs and ½" diameter spoons.

For the benefit of those who have not seen the Aerifier in operation, there will be a slide viewer and color slides of the Aerifier and work done by both large and small spoons.

The Noer Soil Profile Sampler and the West-Pole will also be exhibited.

PERFECTION SPRINKLER CO.

ANN ARBOR, MICH.

• BENT GRASS •

Stolons and Sod. Washington — CI — and
other recommended strains.

HIRAM F. GODWIN

22366 Grand River Ave., Detroit 19, Mich.

OLD ORCHARD TURF NURSERIES—Booth will feature small plots of different creeping bent strains growing in flower pots. Among them will be Arlington C-1, Co-hansey C-7, Toronto C-15, Congressional C-19, Collins -27, and Old Orchard C-52. The latter Old Orchard was developed by Ralph R. Bond in his nurseries and has consistently rated high throughout the years as one of the five top strains.

A prize of 5,000 sq. ft. (50 bu. of chopped stolons) of Old Orchard will be given away during the convention and shipped, prepaid to the winner's home golf course. A free ticket for the drawing will be given to each one calling at the booth. Bond and his wife, Marie, will be in attendance to answer any questions regarding turf.

AMERICAN CHEMICAL PAINT CO.—Will introduce two additional 2, 4-D concentrates, namely, WEEDONE CONCENTRATE 48 and WEEDAR 64 at exhibit which will be in charge of John C. Hendren assisted by James J. Farrell. WEEDONE CONCENTRATE 48 is miscible with water and some oils for either low volume or high volume application, and because of its ethyl ester formulation is particularly effective for the hard-to-kill weeds.

WEEDAR 64 is completely soluble in water and has the additional advantage of not clogging spray nozzles. It is also recommended for either low or high volume application and is particularly effective for such weeds as dandelion, plantain, etc. It is a low cost product which we feel will be particularly attractive to the green-keepers.

Weedone will remain as a featured product because of user preference.

Look at the SAVINGS you get with

HENRY BALL WASHERS

... backed by years of thrifty performance

Saves players' clothes and tempers because it is sloop-proof. Saves time because it is quicker, more thorough and easier to use. Saves cover paint of balls because it has no scouring bristle brushes. Saves frequent replacement costs because its cleaning units won't rot and warp . . . and its unbreakable steel jacket is rust proof.

Attractive — stays tidy — easy to drain and refill — Allen Set Screws make them theft proof

BALL WASHER	\$12.75
Tee Data Plate	\$ 1.25
Waste Paper Cont'n'r	\$ 2.35

NUTRIA PEAT SALES CO.—Mr. George Johnson and Franz Aust will be present to discuss and display their several types of horticultural sedge peat. Samples of Nutria Peat, which has proven its worth in construction and maintenance of courses from North Dakota to Texas and Colorado to Georgia as a high quality reliable turf humus will be available for greenkeepers to take along.

PERFECTION SPRINKLER CO.—Will show complete line of golf course sprinklers for greens, tees and fairways including a large fairway sprinkler which can be used for maximum coverage on minimum pressures and without extensive or expensive water system changes.

In addition the popular One-Man Proportioner, which is used for efficient and easy application of fertilizers and fungicides will be shown. A. S. Lyndon, Gen. Mgr., and Tom Lyndon will be in attendance.

CLYDE IRON WORKS, INC.—Will show small tandem Clyde Model 20 roller which operates with 4.6 H.P. air cooled engine, has overall length of 76½ inches, turning radius of 11 ft. and compression of 61 lbs. per lineal inch with rear roller filled.

IDEAL POWER LAWN MOWER CO.—An improved model of the Ideal power greens-mower; the streamlined Caretaker mower with reverse mechanism which aids mobility; a new cutting unit, the "New Victors" with 24" or 28" cut and the recently developed tubular gang frame which can be built up into from 3 to 9 mower units of the Ideal Bulldog cutters equipped with an improved throwout clutch for easier operation will be on exhibit. "Denny" Satterfield, Mr. John W. Clark and Robert Zimmerman will be on hand to meet the greenkeepers.

McCLAIN HYDRO-MIXER

Last word in getting Greens treated at race horse speed. Nothing like the Hydro-Mixer for handling this big job with least labor and expense.

EVANS GOLF TEE MARKER CO.—Three color design tee marker ready for spring delivery will be exhibited for the first time. The tee is designed for beauty, better visibility and to avoid leaving dead grass spots on the grass.

JOHN BEAN MFG. CO.—Planning to show a trailer model golf sprayer equipment with a 12 nozzle weed boom and the new SPARTAN portable power sprayer. The SPARTAN, just announced, comes complete with 15 gallon corrosion resistant steel tank; electric or gasoline motor, jet agitator to mix and keep material in solution; pressure control valve with complete range from 10 to 200 lbs.; rugged John Bean twin-cylinder pump and other special features.

ROSEMAN TRACTOR MOWER CO.—The 1948 Roseman model roller drive gang mower, provided with a full length drive roller and widely used on the golf courses of the nation will feature the company exhibit. The full length drive roller which eliminates the spacing formerly present assures elimination of all wheel and clipping marks after fairway cutting. This is an especially desirable feature on watered and fertilized fairways. An improvement of the 1948 model of interest to all greenkeepers is the use of a large diameter, all steel roller which greatly reduces pull power required.

FATE ROOT HEATH CO.—Manufacturers of the Ideal and Peerless line of Mower Sharpeners, will be represented by Mr. Paul H. Root, Div. Mgr., and Mr. Thomas F. Root, Service Mgr. Featured will be the well-known Peerless Mower Sharpener, especially designed to precision sharpen larger grass-cutting units. The Company will also introduce two new Bench Grinders, the Model No. 50 and the Model No. 75, recently developed to handle the sharpening of straight blades. Both new machines use a high speed cup wheel and the Model No. 50 is especially useful in that it can be adapted to the sharpening of ice skates, jointer and planer knives, and general surface grinding.

Literature and information on the Ideal and Peerless line will be available in Space No. 47.

is unusually rapid and complete with a minimum of agitation. The powder formulation is recommended for use on turfs at the rate of 1½ pounds per acre dissolved in enough water to give good coverage.

**Brand Names Honors
Louisville Slugger Bats**

Hillerich & Bradsby Co. of Louisville, makers of Grand Slam and Powerbilt golf clubs, was recently awarded the Certificate of Public Service by Brand Names Foundation in recognition of the brand name "Louisville Slugger," which identifies the baseball and softball bats produced by the company. The Brand Names Foundation is a national organization devoted to the promotion and preservation of "branded" merchandise which has proved itself worthy of public acceptance through 50 or more continuous years of dependable service. L. W. Goessling, vp, Hillerich & Bradsby attended the ceremonies and received the award for his firm.

PORTABLE PRO SHOP

Vic Soitz, pro at Edgewood Valley CC, (Chicago dist.) had this portable pro shop constructed to his design and has it at the first tee on Saturdays, Sundays, holidays and other days of big play.

Soitz has an indoor pro shop that is very attractive and well stocked and from that excellent operation gets all the business that normally could be expected in taking care of his members and their guests. But this added convenience of the well displayed stock at the first tee got Vic a great deal of extra business last year. He says, "You wouldn't believe how much golf merchandise golfers need when they arrive at the first tee."

Cuyahoga Falls, Ohio

Newly Designed Golf Club Grip Made of Compounded Rubber

A new Golf-Pride inner-locking grip made of especially compounded rubber cured-on to the steel shaft to last a lifetime, is an innovation for American golfers which has been devised and patented by James A. Karns, engineer and designer for the Westgate Rubber Co., Akron, Ohio. 342 separate fins graduated symmetrically and running in a horizontal position down the shaft are reinforced by six vertical moulded ridges which combine to create an element of friction that will not slip under any circumstances and yet is kind to milady's tender palms.

The grips, in small, medium and large sizes can be tailor-made to fit the hands of any golfer. Utilizing the same principle as is used in the manufacture of tires, the pre-treated steel shaft (which guarantees perfect adhesion of rubber to metal) is placed in a mold under pressure. When the heat is applied, the rubber flows into every tiny mold fin to guarantee true register on the shaft.

After the "cure" is complete, the club is removed from the mold with the hard rubber butt button permanently locked in place. All that is required for the finished product is light, high-speed buffing to remove the overflow rubber ridges.

By new compounding methods, pre-determined weight for perfect balance on club sets is no longer a theoretical selling point but has now become a reality. By the same token, the lightweight grip makes possible a grip of larger diameter for golfers with large hands without the deadly increase of weight. This means that the "club head feel," designed into the club by the manufacturer, will remain even though larger grips are needed. The drilling and plugging club heads, when larger grips are needed, will become a thing of the past.

Cork can be added to the grip without the hazard of peeling or crumbling. When cork is used in the Golf-Pride combination rubber and cork grip, the small cork segments are mixed and milled into the rubber compound. During the vulcanizing process, the rubber flows into the tiny irregular cork segments locking them permanently into the rubber grip.

Other outstanding advantages of the new Golf-Pride grip include: (1) the "new look" achieved quite simply by pigmentation in compounding. Color combinations are unlimited and grips in production now are red, black, blue, brown and green: (2) rubber, known as the world's greatest shock insulator, eliminates the hand shock of a topped ball.

Plant the best first

WOODSIDE BENT GRASS NURSERIES
R. F. D. No. 4—Des Moines 13, Iowa

Golcraft's new and modern plant is at 1700 West Hubbard St., conveniently located near downtown Chicago.

NEW SLINGERLAND GOLF-GLOV — Jack Redmond, internationally famous trick shot golf artist demonstrates a Slingerland GOLF-GLOV, custom manufactured from fine, durable glove leather that will not harden or lose shape when soaked with perspiration or water. It consists of an open, two-fingered sleeve to accommodate

the last two fingers of the left hand and the main gripping surface of the palm. An elastic band, adjuster strap, wrist strap, brass retaining hooks and adjustable brass buckles complete the parts. It is available in three sizes: large, medium and small from the Upham Products Co., New Haven 10, Conn.

VELVETGREEN OKed BY TEXANS—Frank Goldthwaite, Texas Toro Co. mgr., relays good testimony from Dallas and Ft. Worth course authorities on their use of Armour's Velvetgreen fertilizer. Wells Howard, supt. of Worth Hills heavily played munny course says results on Bermuda and rye greens and tees has been so satisfactory fairways are getting Velvetgreen this spring. R. M. Alexander, Jr., Colonial supt., attributes to the product considerable credit for excellent turf on the nationally famed course. The veteran pro Larry Nabholz and Supt. Bowman of Lakewood at Dallas also report highly satisfactory results.

Golcraft's New Home Marks Thirty-Year Achievement

Crowning 30 years of fine golf club design and manufacture, E. R. (Ted) Woolley has moved his Golcraft, Inc. into a new and modern manufacturing home at 1700 West Hubbard Street, Chicago. Outwardly, Golcraft's new home presents an imposing front, in brick and steel, with concrete entrance way, curved across the corner.

Inwardly, the new plant is a model of attractive efficiency. Offices are located on two sides of the second floor. These include a large executive suite. Flanked on one side by the Accounting Department, on the other the plant manager's offices. Beyond this is a large and efficient display room of the Sales Department, behind which are private offices of Golcraft's territorial sales managers.

The factory floor occupies 25,000 square feet, efficiently organized to permit pro-

E. R. "Ted" Woolley, pres., Golcraft, Inc. at his desk in beautiful and spacious managerial suite of company's new manufacturing home.

gressive manufacture and assembly of wood clubs in one line and of steel clubs in the other. The plant is equipped with the newest and finest machinery available for precision building of fine golf clubs much of which is new equipment, procured to promote maximum productivity in the new plant. An air conditioning and ventilating system has been installed in the interest of worker health, comfort and efficiency.

Managerial and sales activities are under the direct supervision of Mr. Woolley who today is one of the prime workers in the endeavor to get the Nation's teen agers out of the juke box zone into the more stimulating zone of the Nation's golf courses.

Territorial sales managers are Roy Hunter, Roy Hanson, Cal McKee, Buck Bertsch and Lee Tully. Factory manager is Edward Delahan.

Woolley and his associates recently played host to some 500 fellow workers, and contemporaries who were taken on progressive tours of the plant, and given a preview of Golfcraft's new 1948 line of TRU-GOOSE woods and irons.

LIQUID HAND PREPARATION—Hydro-Chemical Company, Inc., East Hartford, Conn., announces Hydro-Tac, new liquid hand preparation for better gripping.

Hydro-Tac is specially designed for wet conditions, is sanitary, will not transfer from hands to clothing when applied for contact with golf clubs. Assures grip regardless of moisture from rain or perspiration. Distributed through sporting goods dealers.

POCKET SIZE PEN—Rite-Right Ball Pen, 2 $\frac{5}{8}$ " long, made of aircraft dural, combined with key chain, is ideal for golfers, is guaranteed against any defects in workmanship and material. Writes up to two years under normal usage.

Liberal discounts allowed. Distributors are being sought by the manufacturer, Van Petty Manufacturing Company, 5033 Exposition Blvd., Los Angeles 16, Calif.

THERMO-SERVER—An odorless, heat-retaining and portable food server consisting basically of a thermostatically-controlled radiant glass heating element in a polished hardwood base with a detachable "rigidized" aluminum roll-back hood designed to keep foods properly heated without adding moisture or drying out is in production by the Sunline Co., 8661 Grand River Ave., Detroit, Mich.
