

ler, and a simple friction clutch. The manufacturer says the new Sportlawn is especially easy to operate and that it will be backed with the nationwide service facilities of the Toro organization.

#### UTILITY TEE MARKERS

Harold Oldham, green chairman, Richmond, Ky., has designed and the local high school Manual Arts class has made a useful as well as attractive tee marker for use

on the Madison CC course. Two 16 inch rods support the 2 x 4 - 4 ft. markers which can be used to remind players of many of the do's and don'ts of golf, and some of the important rules as well as number and yardage of holes.

#### MAST-FOOS, NEW MAKERS OF IDEAL POWER LAWN MOWER

On Jan. 14, Dallas B. Winslow, head of the Mast-Foos Mfg. Co., Springfield, Ohio, makers of Buckeye hand and power mowers, and Ralph B. Rogers, Pres. of the Indian Motorcycle Co., Springfield, Mass., jointly announced the sale of the Ideal Power Lawn Mower Division of the Motorcycle Co. to the Mast-Foos interests.

The combining of these two old names creates a strong new factor in the lawn mower industry. There will be a complete line of mowing equipment from hand mow-

of these units, and it is capable of both high and low pressure spraying. A one hundred gallon steel tank mounted in an all welded steel frame for sturdiness per-

mits the use of the equipment with all types of spray materials. The ability to convert from one model to another is an outstanding feature of Myers general purpose sprayers. They are manufacturing four basic models: The engine driven skid model, two-wheeled, engine driven model, four-wheeled engine driven model, and the two-wheeled tractor power take-off model.

The Skinner Irrigation Co., 415 Canal St., Troy, O.

Pioneer and Leader in Irrigation for Nearly a Half Century

All models have the same frame construction and the units are adaptable for all spraying requirements. Pressures and capacities developed by this compact power sprayer are effective for grass, shrub, tree, and weed spraying. It is also useful for numerous other jobs such as fire fighting, cleaning machinery, and pest control.

#### DART BALL GAME

Tri-Plan, Inc., 169 Front st., South Portland, 7, Me. has a new Dart Golf game. It consists of a large target on which 9 holes are laid out in an attractive coloring job. Players stand about 10 ft. from the target and throw darts at fairway and green areas. If dart lights out of bounds or in traps on the design player is penalized same as in a regular game. It's a lively clubhouse or home gambling game.

#### NEW AIR-COOLED SPORTS CAP

The most temperamental golfer can "keep cool" in the new, modernly-styled Congo Airlift Sports Cap. It's a natural for anyone who is enthusiastic about sports

activity. The top of the crown gives the head plenty of coverage for protection, while wide mesh-sides permit free circulation of air.

It's long, wrinkle-proof, water-proof visor is underlined with green to cut down squint and add to eye-comfort. This model, designated as No. 433, is made in Cardinal Red, Kelly Green, Royal Blue, Gold, Tan, and White. Mesh-sides are white in all instances. Caps are available in small, medium, large, and extra large sizes, and are packed one dozen to a box in assorted or solid sizes; solid or assorted colors.

The Congo Airlift Sports Cap is sold through jobbers and is one of many styles of Sunshine Headwear created by the

### CHAMPION'S ALL-PURPOSE COURSE EQUIPMENT TRAILER

For turf equipment and general hauling, The Champion Co., Springfield, Ohio, has manufactured a versatile "Doo-All" chassis which can be quickly interchanged with different trailer types. Designed to save valuable time in transporting course equip., the Turf Equipment Trailer carries as much as six mowers, two portable generators, and four grass trimmers. A special box is provided for tools leaving plenty of room for gas, oil, and other necessities. A unique feature of this particular model (shown in cut) is that the tail gate lets down in such a manner that it becomes a loading or unloading ramp and power mowers can run up and down under their own power.

For all-purpose hauling, another model, the Trail Flat Trailer provides a flat body to which side and end panels can be added or removed quickly to fit the need, with special metal-tipped skid planks designed to load or unload power equip., barrels, or other heavy objects.

Another model which is interchangeable

with this same basic chassis is the Dump Roll Trailer which is designed for dirt handling and hauling. Dumping or loading from either side and locking in four positions, it is balanced and designed for easy maneuverability.

All Doo-All-Trailers are designed specifically for the turf trade, giving maximum load capacity without injury to the turf. Perfect balance plus tires which give greater supporting surface between tire and ground, makes this an ideal trailer for course work.

Champion also makes two types of weed killers: WEED-IT which is a selective weed-killer in a concentrated 40% solution, and KILL-ALL, designed to stop all vegetation. Both have been employed successfully for several years.

#### **PENNSYLVANIA ANNOUNCES MODERATE PRICED MOWER**

The Pennsylvania Lawn Mower Division of the American Chain & Cable Company, Inc., Camden, New Jersey, announces for the season of 1949 a new moderately priced mower—the Penna-lawn—with five blades—16" cut—constructed with grey iron castings and crucible analysis steel knives. In addition to the 18" cut Model R Power Mower produced during the past season, there will be a Model T 21" cut—patterned after the Model R. The Pennsylvania Great American—Meteor—Pennsylvania Junior and Trimmer & Edger—as well as the Penna-lawn and both power mowers, will be available in any quantities through Pennsylvania Lawn Mower distributors.

#### **GORDON JONES, NEW BUSINESS PARTNER OF BOB DUNNING**

The Bob Dunning Co., Tulsa, Okla., golf course equipment and materials, was established in March 1948. Founded on a policy of specialized service, success of the first year's operation has made it necessary for the company to institute a program of expansion of both facilities and services. Gordon Jones has been brought into the firm in order that the same high standard of personal attention to the turf problems of the area can be continued. As a result, the Bob Dunning Co. gives way to Bob Dunning-Jones, Inc.

Jones is a graduate of the University of Nebraska where he majored in agronomy and later spent several years with Dr. John Montieth, of the USGA Green Section. He was working on his Doctor's degree at the

Univ. of Calif. when he joined Bob in Dallas, Texas on an Army Airfield turfing program. Since that time he has been in charge of turfing and landscaping work for the Fourth Region of the GAA over a five-state area. For the past two years he has been pres. of the Texas Turf Assn.

Purchases of new property and construction of a new building with a large display room and storage and service facilities will be completed by March 1. Free parking space has been provided and the remainder of the grounds will be turfed and landscaped.

The company's free turf advisory service is an important phase of their operation. Last year turf problems arising from the unprecedented hot, humid weather brought many requests for the service and since time was an important factor a private plane was used to make calls. In this way permanent damage to turf was avoided in many instances and the Dunning Co. reputation enhanced immeasurably.

Excellent service and a comparable sales record have resulted in the handling of many course equipment and material lines on an exclusive basis for the state. Among the many lines Bob Dunning-Jones, Inc. handle are: Toro Mowing Equip., Buckner Irrigation Equip., Champion Cemetery Equip., Iron Age Power Sprayers, Dow Agri. Chemicals, DuPont Fungicides, Armour's Fertilizer, Standard Golf Supplies, Parker Sweepers, McClain Products and others.

## MAKING THE SWING

(Continued from page 27)

Old Orchard GC (Chicago dist.) . . . Picture postcards, newspaper and bill board advertising and combination pencil-calendars are among media used.

USGA women's championship to have sectional qualifying rounds this year for championship to be played at Merion GC (East course), Sept. 12-17. . . . Warren W. Morrow, 60, Western Union telegraph operator for 45 years who has handled copy for national and regional golf events almost since the game became copy around Chicago, retired by the company.

Ed Wilson constructing 9-hole night-lit Culver City (Calif.) course with holes from 110 to 325 yds. . . . Local power company designed \$25,000 lighting system with only 9 poles and underground wiring. . . . Washington bent greens. . . . Dave Elphick goes from Elmwood CC, East Paterson, N. J. to Beacon Hills CC, Atlantic Highlands, N. J. . . . Elmwood being subdivided. . . . Bill Langford, architect, has worked out putting "fractional par" table in which he estimates that 50% of 7½ ft. putts are holed. . . . Not by us, Bill.

King of Belgium orders new set of special woods from Wilson through Robert Lanz, pro at Swiss Zurich-Zumikon GC. . . . Re-

verse English on pro-only goods getting to stores comes from stores' complaint that some pros cut set standard price on apparel. . . .
