### PRO ACCOUNTING SIMPLE

Fontaine, McCurdy & Co., 735 N. Water St., Milwaukee, Wis., certified public accountants, have prepared a simple pro department accounting method based on extensive study of pro business operations and tax problems. The accounting firm, which has done considerable work for golf clubs, found that in many cases pros were failing to record legitimately deductible expenses, hence were failing to take advantage of government and state tax easing opportunities. The accountants also found that pros by not knowing their actual and full costs of doing business were not informed adequately to make sound business arrangements with their clubs. The simple system Fontaine, McCurdy & Co. devised is presented in one book with forms which provide readily recorded and complete data on income and expenses. Complete details on the system as a guide for 1949 tax reports and 1950 operations will be supplied on request.

Acushnet says three times as many aces with Acushnet ball reported in first 6 months of 1949 as were reported during same period of 1948.

### CHRISTMAS GIFT BOXES FOR SPALDING GOLF BALLS

A. G. Spalding & Bros. are offering these beautiful Christmas boxes, in dozen and half dozen sizes, for the Spalding Dot or Top-Flite balls at the regular prices for the golf balls. Pros can obtain, also in lots of a dozen or more, personalized balls bearing the player's

own name stamped on the cover of each ball at no extra cost.

These boxes are richly finished with a heraldic design embossed in an antique gold effect on the tops—insides are cork lined—and they are very useful and attractive ornaments for any home, as containers for cigarettes or numerous other items.

### WOOL PRAK-TIS GOLF BALL

A practise golf ball, called PRAK-TIS, for practising golf driving on lawns, in yards, playrooms, even in large living rooms, has been meeting with great success. Manufactured by the Jimknit Corp., 433 Broadway, New York City, PRAK-TIS golf balls are 100% wool and are used safely indoors and outdoors. Additional information, displays, flyers, prices and discounts can be secured by writing direct to the company.

### JACOBSEN ADDS TO SALES FLEET

To provide more intensive sales coverage, Jacobsen Manufacturing Company of Racine, Wisconsin, manufacturers of power mowers, has added ten Kaiser Travelers to its present fleet. Four popu-

lar-sized mowers fit easily into their roomy interiors, enabling sales representatives to back up their story with on-the-spot demonstrations.

### LOCK SHOE SPIKE

Harry Schwab, pro, Dayton (O.) Community CC has established Harry Schwab Company at 30 Cushing Ave., Dayton 9, O., for national distribution of the golf shoe spike he invented. The spike is receiving a good sales reception from pros and their customers. Schwab's spike has a projecting tongue on the rim and this is imbedded into the sole of the shoe when the spike is screwed in. The projection keeps the screwed-in spike from unscrewing and coming loose with expansion and contraction of leather. When it's desired to replace the spike due to wear, it's easy to pry the imbedded tongue loose. Schwab's lock-spike, known as "The Trusty" is sold on a basis to give pros a good profit.

### COIN CONTROLLED PUTTING COURT

Joe Mozel, 718 N.E. 12th, Portland 14, Ore., inventor and operator of the first completely automatic tees for commercial use, now has a coin controlled automatic tee and a coin controlled putting course. The coin control machines which have been in highly profitable use at the Lloyd

A night shot showing the coin controlled Putting Court designed by Joe Mozel. Player gets 20 balls for 10c. Installations on gallery of driving range clubhouse proved popular practice facility and money maker.

The all-new 1950 Mozel automatic electric golf ball teeing mechanism adapted to coin operation for use on driving ranges and miniature courts.

range in Portland, are being manufactured and sold for indoor and outdoor use, not only in strictly golf installations but in other recreation establishments. The slot drop of money gives the operator complete control over the revenue and facilitates quicker use of the balls.

NEW YORK 17, N. Y.

### STANDARD "SAND-GREEN" PUTTING CUP

Made in two sections of heavy seamless steel tubing. The outer section or casing

is 4 1/4" in diameter by 6" high and remains in the hole. The inner section or

cup is 4" in diameter by 4 1/2" deep and is made with steel bottom and fitted with a handle or grip so that it may be easily and quickly lifted from the hole for emptying as often as necessary.

Extra long 3" pole socket is reamed to fit standard ferrule and keep flag pole in straight upright position. With this new Standard "Sand-Green" putting cup, the flag is placed in the center of the hole instead of at the back of the green so that the player can more accurately approach the green and the cup.

When brushes, levelers or rollers are pulled across the hole to smooth the putting surface between the ball and the cup, the cup is simply lifted out, emptied and replaced so that the ball receptacle is clean and ample to avoid putting re-bounds.

This brand new idea is clicking because it improves the approach and speeds up play on the green.

### GRASS-SEEDING PULVERIZER

Illustrated is the Brillion "Sure-Stand" Grass-Seeding Pulverizer and Packer for seeding golf courses, parkways, etc. Lift type, it is hydraulically controlled to raise clear of the ground for transporting

and backing to culverts and walls. Made exactly like the larger grass-seeding pulverizer and packer used on farms, it is actually two-seeders-in-one. The rear box can be used for letting down fertilizer or seeding up to 100 pounds of average lawn grass mixture per acre. A compact unit, it is 5'4" rolling width with wheels 2" on

center to assure shallow covering of seed. No seed is pressed down deep into the ground. The front wheels crush the lumps leaving narrow, shallow grooves. Seed drops between the front and rear rollers. The rear roller lightly covers the seed and firms the soil around the ground for quick germination. It seeds uniformly and has a seed meter gauge for selecting the seeding rate. Sturdy construction and simplicity of design, all welded frame and heavy duty end brackets. Self aligning roller bearings on ends of wheel drums enable them to conform to contour of ground. Raising entire machine off ground eliminates clutch. Rear drum spring loaded, gives additional pressure for better forming of seed bed. Weight with both seeding boxes, 1000 pounds. Manufactured by Brillion Iron Works, Inc., Brillion, Wisconsin.

#### NEW PORTABLE INCINERATOR UTILITY CART SAVES LABOR

The Westchester Utility and Burning Cart offers the readers of GOLFDOM a portable incinerator especially designed to save time and labor in golf course main-

tenance. This cart, made by County Specialties of Port Chester, N. Y., serves a dual purpose. First, as a cart, because all the weight is carried in perfect balance on the axle, it enables one man to do the work of many. Even though its large capacity (18 cu. ft.) is many times that of any ordinary wheel barrow, one man can easily handle it, and can carry full load of sod, plants, etc. for transplanting.

Secondly, as an incinerator, it burns on the spot, and flowers, leaves, brush cuttings, papers, etc. have merely to be put in the cart and set on fire. When falling leaves are a serious problem the cart can be wheeled up to the greens, leaves swept up and burned on the spot. This saves many operations — loading, trucking, dumping and then burning — one man can do the work that ordinarily requires a squad. The leaves, twigs and other burnable refuse are reduced to ashes on the spot and an ash catcher protects the grass and collects the ashes, which can be discarded or used to nourish greens or flower beds.

The cart is welded steel throughout and extra heavy expandable metal mesh

is used where it is subjected to severest heat. Wheel treads are 2½ inches wide to prevent sinking into sand or damaging lawns. The over-all length is 6 ft. and the 3 ft.-4 inch height makes it handy to load. County Specialties, P.O. Box 626, Port Chester, N.Y., is the manufacturer.

## MILES BAKER WITH TAYLOR

The E. E. Taylor Corp., nationally known manufacturers of men's fine shoes, announce that Mr. Miles Baker, well known shoe sales executive, has joined the organization in a sales, advertising and promotional capacity. Mr. Baker resigned as buyer for Wolf Bros., western group of men's specialty stores to accept the position. He was affiliated with Field & Flint Co., Brockton, Mass., shoe manufacturers for many years where he was instrumental in developing the well known Foot-Joy line of golf shoes into national prominence.

## BASEBALL BATTING PRACTICE MACHINE FOR GOLF RANGE

Fred Wright, Jr., 22 Middlesex Rd., Watertown, Mass., formerly one of the ranking amateurs of New England, has at his profitable golf driving range a baseball batting practice machine that he's found a big money-maker. It brings in many customers who make their debuts on the golf tee after they've batted baseballs. The baseballs are hit out onto the golf driving range. The baseballs are good for at least three months use. Balls are washed after they get dirty. The

machine pitches to two batters at the same time. The space for batters is about 20 ft. Full protection against fouls is provided. The machine is the only one of its kind. Fred is having them made and can make delivery in one month. His first model paid for itself in a short time and required no appreciable maintenance expense.

## MacGREGOR TOURNEY GOLF BALLS AVAILABLE IN GIFT PACKAGE

The MacGregor Golf Company announces an attractive Christmas package of new Tourney golf balls is available this holiday season through golf professional shops. The gift box of a dozen Tourney golf balls features the colorful MacGregor plaid box in a beautiful wrap of ribbon, pine boughs and pine cones. There is no extra charge for this year's gift package.

If desirable, every Tourney golf ball furnished in a gift box will be imprinted with any name desired without charge. The MacGregor Company has set up production facilities to handle the imprinting of these names for immediate delivery of the Christmas package to all golf pros.

## PORCELAIN ENAMEL GOLF MARKERS

A new type tee marker has been installed at the Country Club of Maryland near Baltimore about 35 feet from each tee. Made of porcelain enamel it shows at a glance the hole number, its length and the par. Idea was developed by club pro Andy Gibson and W. R. Greer, vice-pres. of Pemco Corporation, as a method of making things easier for golfers playing the course because they see at a glance all the information they need for shooting the hole—thereby eliminating necessity for checking the score card. Porcelain enamel was selected as the material best suited for these signs because of its permanence and extremely low maintenance cost. Since the finish is not affected by sun, rain or temperature changes, the signs may be left on the course all year round without damage. Marker signs were custom-made by the J. M. Seasholtz Company, Reading, Pa. Measuring 18" x 7", they are of 18-gauge metal with black letters and trim on a white background.

## MAKING THE SWING

*(Continued from page 32)*

C. Miles McDonald, Jr., sec., and Mrs. Harry A. Newby, treas.

Royal and Ancient announced rules revision after 2 years' work on the job. . . Out of bounds, lost ball and unplayable ball reduced to loss of distance only. . . USGA retains stroke and distance for lost or unplayable ball. . . R&A change rule to eliminate marking of player's ball in stroke competition by providing that if nearer ball is in way of the other ball the nearer ball must be putted first. . . R&A clarified rule to prevent repetition of Bradshaw case of playing a ball lodged in a broken beer bottle. . . Player can lift out of the bottle. . . Forecaddies are ruled out. . . No change in R&A stymie rule. . . Robert Harris, British amateur champion in 1925 and chmn., R&A Rules committee 1927-46 protested against changes saying they "softened the game" and differed in 35 major instances with code R&A and USGA had established over a period of 60 years.

Some British saying U.S. Ryder Cup players took a Locke by side-stepping British tournaments, account of pound devaluation, after 7-5 victory over British Ryder Cup team. . . Yanks stuck around long enough not to do well in British PGA match play championship. . . Henry Cotton had the last laugh on them. . . He knocked out Johnny Palmer and Lloyd Mangrum. . . Quite a performance by Henry who wasn't selected for the British Ryder squad. . . Cotton lost out in the finals to Dai Rees, 1 up.

Carl Bretzlaff, pres. National Green-keeping Supts. Assn., honored by Meridian Hills CC, Indianapolis, Ind., members at dinner observing his 35th year at club. . . Green chmn. P. D. Powers and Ben Stevenson who was chmn. when Carl started at the club and still is on green committee, engineered the dinner. . . Dinner attended by 160. . . Carl presented with television set, fat-sized govt. bond, cash and enough gasoline for 40,000 miles. . . Party great success except women members complained the boys forgot them in arranging to pay tribute to the guy who's made the course so fine.

John Hilgert and Paul Huston have bought Tuscarawas 9-hole course at Akron, O. . . . Larry Wolfe will convert it for them into 18 holes of par 3 golf. . . Inside 9 will be night-lighted. . . Findlay (O.) CC completing new clubhouse. . . Matthew (Scotty) Anderson, mgr., Glencoe (Ill.) GC, given testimonial dinner by players at the community course. . . Dick Hopwood returns to Nogales (Ariz.) GC as pro for its usual fall, winter, spring operation.

Dr. Edward B. Spalding, still a lively practicing dentist at 81, only surviving charter member of Detroit (Mich.) GC, honored guest at club's 50th anniversary dinner. . . 16 past presidents among 306 at the fiesta. . . Club was started on 45 acres with \$10 initiation fee and \$10 annual dues. . . Now its 36-hole plant is worth millions.

Boston Herald says Marie Robie scored 393 ace at Wollaston, Mass. . . . Hole slopes toward green from point 200 yds. out from tee. . . "Ham" Gardner wins 12th Country Club of Buffalo championship. . . Gardner won his first club title in 1914 and has won Buffalo District title several times. . . Love in Bloom news—Gwen Irene Loeffler born Sept. 30 at Parkersburg, W. Va., where proud papa is supt. Worthington GC.

William Hunter, 71, one of the old guard who built golf in the U.S. and Australia after leaving Scotland, died in South Shore hospital, Chicago. . . For many years he was pro at Onwentsia club, Lake Forest, Ill. . . . He won the first pro golf match played in Sydney, Australia, in 1900. . . For the past 7 years he had been teaching at Postl's Health Club, Chicago. . . He is survived by his widow, Nellie, his son, Wm., Jr., and a daughter, Mrs. Mel Powers. . . He was active officially in the PGA during its early days and in his kindly, sincere and quiet way was a true friend of his brother pros and the amateurs who knew him.

Mass. Agricultural Experiment Station, Amherst, Mass., has been experimenting

**WILLIAM B. LANGFORD**

with carbon black to raise soil temperatures. . . Tests so far disclose that soil containing carbon black absorbs more heat from sun than untreated soil. . . Further study being made to determine feasibility of carbon black treatments to defrost soil for earlier spring planting and postpone fall frosts.

Walter Hagen missed third annual Hagen Day put on by Michigan PGA at Lakepointe CC (Detroit dist.). . . Walter sick at DAC and was kept from the party by doctor's orders. . . It broke The Hague's heart to miss a party but it's a good sign that the mileage is reminding Walter to take care of himself. . . Ed Furgol won the huge Hagen trophy with 139. . . Horton Smith and Leo Diegel at the dinner told of Hagen scoring feats in the old days that continued day after day in exhibitions and tournaments.

Mrs. Edith W. Painter, wife of veteran Southern California golf writer Ollie Painter, died Sept. 23 in Buffalo, Wyo., following a brain operation.

County relief labor probably to be used in building new Eaton Canyon public course between Pasadena and Atladena, Calif. . . . Gomer Sims, co-owner of Alondra Park GC, Torrance, Calif., says construction and seeding completed. . . Course to be opened early next year. . . Midwest Assn. of Golf Course Supts. to have meeting and tour of Armour fertilizer plant, Chicago Heights, Ill., Nov. 7. . . Bob Duguid returning as supt. to Evanston (Ill.) GC. . . Veteran Andy Gillett retiring as supt., Forest Hills CC, Rockford, Ill. . . A Treasury of Golf Humor to be published by Lantern Press, NYC, Nov. 17.

Hiawatha GC, Liverpool, N.Y., reopened after being shut down in 1941. . . It's 18 holes, owned by Archie Ajamian. . . Valparaiso (Fla.) CC bought by Army for use of Eglin Field personnel. . . Allen Gan, caddy at Presidio GC, San Francisco, Calif., whose Chinese-born dad is chef at the club, recently selected for WGA Chick Evans scholarship at Stanford U.

Mr. and Mrs. Charles Schalestock and sons, John, 6, and Gerald, 2, loudly and proudly herald the arrival of sister, Susan

Mary. . . Daddy is supt., Farmington CC, Charlottesville, Va. . . That makes it nice for Mom. . . Pop can attend to the 4 a.m. feeding when he's starting out to work and worry about the course. . . Gene Kunes' golf range in Cleveland, O. has a kiddie coop where children of customers are parked safely with attendant's care.

Northern California PGA Bulletin in first paragraph says: "For the good of all, it is about time that strong emphasis be placed on facts and all flowery speeches be done away with quickly." . . . Then Pres. Pat Markovich proceeds to write a frank and constructive detailed account of pro personnel and association work that needs considerable goosing up. . . Markovich notes: "Our one program that has shown remarkable progress is that for assistant professionals." . . . Gotta hand Pat and his teammates credit for having the character to candidly consider errors of omission or commission instead of muttering, bellyaching and bellowing "treason" when the truth is told.

Great job done by the veteran Fred Newnham at Santa Fe (N. Mex.) munny course. . . Fred went there in 1943 from the Carolinas. . . Then the course had few players, no grass in fairways or tees and small sand greens. . . Now it has 200 regular members, grass fairways, tees and Astoria bent greens. . . Fred has a free clinic each week and conducts a weekly golf class with 40 women enrolled.
