

Newly developed, and first sold nationally late in 1949, is the All-American Picnic Grill. This new grill provides perfect draft control with its fully enclosed fire bowl and its six-way adjustable draft door, which produces the required temperature and heats all parts of the grids evenly. The grill has a massive one-piece oven, two waffle-type top grids and a one-piece removable grate. Burning wood, coal or charcoal, the grill provides a full 25½-inch by 24-inch grilling and warming area. The ample space beneath the grid may be used for baking or for warming foods. The All-American Picnic Grill is mounted on a tested steel pipe support, so that by turning it to leeward as the wind shifts the cook avoids getting a face full of smoke. This grill comes in two models, portable and stationary. In both cases, the grill is readily removed from the support for easy storage.

Complementing the picnic grill as an accessory for pleasant outdoor activity are the American Approved Streamlined Picnic Tables, both portable and for permanent installation in concrete. For greater comfort and efficiency, the top and seats have all edges smoothly rounded, with the top extended well out toward the seats. Seats are 19 inches from the ground, and the top is 31 inches high. Tables are ruggedly built with all-steel frames of 1½-inch new, tested steel pipe. The four table top boards and the two single board seats are of carefully seasoned, old growth Douglas fir, 5/4" by 10". The seats and top are finished in Johnson's green Wax-O-Namel.

#### TRACTOR-DRIVE GENERATOR

D. W. Oman & Sons, Inc., Minneapolis, Minn., are making a new generator for tractor belt-drive. The generator is available in 3000, 5000 and 10,000 watt capacities, 115/230 volt, 60 cycle a.c. This equipment is for emergency use when power shortages occur. Oman also makes other generators for tractor-power use in supplying electricity for country club uses.

CHICAGO HEIGHTS, ILL.

Says W. H. GLOVER, of Fairfax, Va. C. C.

"You might say our turf was born and raised on AGRICO COUNTRY CLUB FERTILIZER," writes Mr. Glover. "For we have used nothing but Agrico ever since first seeding our greens and fairways, 7 years ago. We are extremely well satisfied with results, both as to quality of the turf and the standards of maintenance made possible by well-fed, well-established turf. Your Soil Service is a big help too." Remember, Agrico is specially made to feed golf-course turf and feed it right. Order from your supplier, phone nearest A.A.C. Sales Office, or write to THE AMERICAN AGRICULTURAL CHEMICAL Co., 50 Church Street, New York 7, N. Y.

# LIQUA-VITA

The complete Liquid Fertilizer for Golf Greens

Turf Special 12-8-4

Regular 6-9-7

Plus all Trace Elements

Its use on 700 golf courses (as long as 5 years on some) has proved its value as a greens fertilizer. Greenkeepers are enthusiastic over results. It doesn't burn — cuts labor costs — is easy to apply.

*A trial will convince you.*

**AMERICAN LIQUID FERTILIZER CO., Inc.** Box No. 267, Marietta, O.

## STAN THOMPSON'S "RAINBOW" WOODS

Stan Thompson Golf Co., makers of custom clubs, reports a highly gratifying sales reception for its line of colored woods. The driver is red, the brassie is green, the spoon is violet, the 4 wood is yellow and the 5 wood is orange in this "rainbow" line. The clubs are available in men and women's clubs with usual pro discounts. Stan uses his own special mixture of baked enamel finish on the clubs and says they are virtually dent-proof. He got the hunch from the popularity of color in bags and clubhead covers, with some inspiration from Jimmy Demaret's valet. The line went over well at winter resorts and has good early season sales elsewhere.

C. K. Bradley, Mountain View, N.J., appointed N.J. service and sales agt. for G. B. Lewis golf ball washer and tee accessories, and the new Lewis golf club cleaning machine.

Swift & Co. Plant Food div., Chicago, has issued a new bulletin on use of Viopro on fairways and greens, and on Swift's new all water soluble Bonro which is sprayed on with sulfate of ammonia. The practical bulletin will be sent free by the Research Dept. of Swift's Plant Food div.

## PAR TUBES PROTECT GRIPS

Par Tube, 5710 Dakin St., Chicago 34, Ill., is having good sale through pro shops for its strong, moisture-proof fibreboard tubes that are put into conventional type

or individual compartment golf bags and extend the full length of the bag. The clubs slide easily in and out of the Par Tubes, and the grips are protected against scuffing and tearing. The Par Tubes require no special assembly but are simply dropped into the bags. The Par Tubes are

### NEW POWER ROLLER

Consolidated Industries has just begun marketing their new Con-Sol Power Roller, suited for rolling as a necessary part of the upkeep of turf, walks, drives, tennis courts, and course maintenance.

Sturdy and well built, this power roller was expressly designed for economy of

cost and operation. The gasoline engine drives the 1400 pound roller either forward or reverse, at a constant speed selected by the operator who rides comfortably in the sulky roller's bucket seat. Small

enough to be carried from job to job in any truck, station wagon or trailer . . . yet heavy enough for all rolling.

The Con-Sol Power Roller is a product of Consolidated Industries, Inc., Mixville Road, West Cheshire, Conn.

### A GOLF BALL FOR THE LADIES

The newest thing in golf is this Lady Burke Ball, "designed exclusively for feminine play." Burke Golf, Inc., Newark, Ohio, who is introducing the new ball, believes that the idea will give women

golfers greater confidence in their game, just as women's clubs with their thinner grips and shafts, smaller heads and light weight have helped give the ladies a much

better standing with par. As for construction of the Lady Burke Ball, which is USGA Approved, Burke states that it is specially wound "to a compression synchronous with the power of a woman's swing" and has a specially cured medium-soft cover which, for the average-to-good woman golfer would mean increased distance, less tendency to cut through when topped, and greater all-round wear.

## STEEL CURBING, QUICKLY INSTALLED, READILY BENT AROUND CURVES

Lawn-Gard is the name of a new steel curbing which costs a fraction of regular concrete curbing, can be quickly installed by one person and will last a generation. It is 4" high, 1/4" thick and comes in 12 ft.

sections. Stakes which clamp over top of curbing and are driven into ground are supplied; one stake for each six feet of curb. Curb and stakes are painted rich dark green. Lawn-Gard is suitable for driveways, paths, and as guides for parking lanes. A lighter weight is made for encircling or vignetting flower beds. This practical, neat-appearing curbing keeps gravel out of grass and ends unsightly tire marks on lawns. Lawn-Gard is made

### NEW RAIN SUIT PRO SHOP ITEM

Known as the "Jupe-Suit," a new type of rain apparel is announced by Robert B. Taylor, president of Tailorcraft Corporation, Fort Wayne, Ind. (Formerly Plastic Covers Company.) The Jupe-Suit consists of two garments — to provide complete protection. Sleeves, shoulders and back of the jacket are all made in one piece, assuring essential freedom of arm movement — for golfing.

All seams are triple thickness, waterproof and reinforced with bias tape. The full-length matching slacks are well styled and designed for maximum comfort—offering easy access to every pocket. It remains smooth and pliable even in cold

weather. Packed in a smooth, pocket-size Velon film envelope. Four sizes range from small to extra-large.

### SPALDING ANNOUNCES CHANGES IN PRO SALES STAFF

With the advent of Jimmy Nichols, famous one-arm golfer, being added to Spalding's Promotion staff, several territorial changes have been made. Lyle Thompson, formerly of the New York area, is now covering all of Conn. and Western Mass. Ray Nolan is the new golf pro salesman in Kings, Queens, Nassau and Suffolk Counties in the New York district. Bob Campbell, newly appointed pro salesman, is now handling New Hampshire, Vermont, Maine, parts of central Massachusetts and Western Rhode Island, with George Weaver continuing to cover eastern portions of Massachusetts and Rhode Island.

### NEW 1950 RUTLEDGE CADDY SAVER

The Rutledge Co., Beckley-Ralston Div., 3333 Belmont Ave., Chicago 18, Ill., announces their new 1950 Caddy Saver Golf Cart. Constructed in such a manner that it never has to be carried, Caddy Saver can be rolled through use of an auxiliary

handle with a rubber grip, to an automobile, through locker room, street car or

bus aisle and over narrow bridges. New radius rod connected to axle braces is used for additional strength and to maintain wheel alignment at all times. A

choice of two new bag brackets to hold either compartment or other type bags have been designed for this new model. Brackets are adjustable and will fit any height bag. Ball bearing, cadmium plated steel wheels with semi-pneumatic rubber tires are used to make Caddy Saver easy to push or pull. All steel parts are cadmium plated to resist rust. Essential gussets reinforcing the mechanism are made of specially designed heavy ribbed steel stampings. Aircraft fiber lock nuts are used throughout. The new 1950 circular giving complete information will be sent upon request.

### KOPPLIN NOW JOBBING

The putters retail at \$10 and \$11. A built-up grip is \$1 extra. The putter got a fine sales start with successful use by winter tournament circuit players and caught on quickly in California, Texas and other areas along the winter tour route.

### VERMI-ZONE, NEW DOUBLE STRENGTH INSECT BOMB

Columbia Chemical Co., Inc., 154 E. Erie St., Chicago, announce a new team-mate for their popular Glyco-Zone clubhouse disinfectant, deodorant and sanitizer. The new product is Verm-Zone, a double strength, bomb type Aerosol insect spray, particularly effective in ridding clubhouses of destructive and annoying insects such as moths, flies, mosquitoes, roaches, ants, etc. Literature and prices may be had from the makers.

### BAG BUSINESS BOOMS

John R. Thompson, vp, Des Moines (Ia.) Glove & Mfg. Co., says their new "Toney Bag" which MacGregor's pro advisory staff introduced at the winter resorts, is setting new records in pro shop bag sales. The bag is of nylon, in bright red, green or blue and is "custom-crafted." John says the strength and lightness of nylon and its wearing qualities give it great

sales and service features. The bag will clean with soap and water and has a rubberized lining to make it 100% water-proof. The Des Moines Tufhorse line, including the famed pax bags with tubes which R. E. Thompson, the company's president, originated more than 20 years ago, is going great this spring, John Thompson adds.

### TO HELP HACKERS

Hacker's Helper Co., Bridgeport, Conn., makes a plastic brace which straps on the left arm and keeps the arm from buckling without encouraging the tendency to stiff-

fen the left arm. The doctor who invented it says it go him shooting respectable shots and worked so well with others he got the device made for the market.

### **EVERTRED, NEW TYPE FLOOR MAT**

A new type of floor mat has just been announced by D. W. Moor, Jr., president, American Mat Corporation, 1802 Adams Street, Toledo 2, Ohio.

To be marketed under the trade name of Evertred, this new mat, constructed of

vinyl plastic links woven on a rust-resisting spring steel wire network has unlimited applications.

Evertred affords safety underfoot through the special design of the links. One side of each link is slightly corrugated to effect a non-slip surface even when the mat is used in shower rooms and pools, in which cases it is comfortable to walk on even with bare feet. An additional safety factor is provided on the non-trip beveled nosing.

Non-porous and non-absorbant, Evertred is 100% greaseproof and can be used even where oily conditions would ordinarily quickly destroy rubber mats.

Available with links in any of five brilliant colors—green, red, brown, white and black—a distinctively beautiful Evertred Mat can be had in any desired pattern. Since the brilliant colors are fade-proof, this mat should meet with quick acceptance for use in building entrances.

Evertred mats are available in any width up to five feet and in any desired length. Smaller sizes are also being produced for home use.

Literature and prices on Evertred will be sent to anyone addressing American Mat Corporation, 1802 Adams Street, Toledo 2, Ohio.

### **JOHN DEERE INTRODUCES NEW GOLF COURSE TRACTOR**

A new tractor designed especially for golf course work is now in production at the John Deere Dubuque, Iowa tractor factory. Called the "MI," it is the modern successor to the well-known John Deere "LI" Tractor, many of which are still giving efficient and economical service on America's leading courses. New power, new speed, new stability, new ease of handling and new comfort for the operator are some of the advancements offered by the new tractor.

A new side-mounted integral mower, the MI-7, shown on the tractor, is also in

production. The new mower is power take-off driven and is designed especially for use with the "MI" Tractor. One of the many new advancements is the Dual Touch-o-matic feature which provides finger-tip control of the mower cutting-bar throughout its complete range of 45 degrees below horizontal to vertical. This dual feature enables the operator to raise and hold the inner mower shoe as high as 12 inches to handle such situations as
