## HOW ABOUT YOUR ROUGH?

Yes, the big gangs easily take care of fairway mowing, but what about your "rough"—those knee-high weeds and grass, steep hillsides, weed-infested gullies, fence rows, etc?

That's exactly where YOU need a GRAVELY—that rugged little 5-HP Tractor with its 42" Sickle Mower attachment! . . . Low center of gravity and swivel action of cutter bar give a smooth job no matter how rough or hilly the ground. Long-necked, front-mounted cutting unit gets in close—under fences, shrubbery, etc.—places big tractors can't touch. Reverse gear eliminates tugging and pulling to back out. . . Powerful, sturdily built, all gear driven—the perfect adjunct to an otherwise well-equipped, well-groomed golf course.

But remember—sickle mower is just one of Gravelly's 19 attachments—rotary and gang mowers, bulldozer, roller, hauling cart, snow plow, etc.—for complete maintenance of small courses.

Eau Claire, Mich.

Dear Fergie:

I believe I promised you a report on how the Night Crawler, which we purchased from you in June, worked out for us, so here it is — better late than never!

Just before the Big Elks State Tournament was held here we perforated all eighteen of our greens with your machine taking only two days for the whole job and hiring no extra help at that and the tournament players pronounced the greens in perfect shape for play. I personally think the Fergusons have produced the answer to every greenkeepers' prayer with their Night Crawler — it is certainly "Tops" at our club.

With best wishes,
