

# Give your fairways "PUTTING GREEN —like surfaces" as you mow!

All Putting Greens Are Mowed With Hollow-Roller-Drive Mowers. Why Not Give Your Fairways The Same Benefits.

#### IMPROVED FAIRWAYS

Smooth, uniformly cut putting-green surfaces are the result of mowing with roller-type green mowers. This same desirable quality can be had in your fairways by using Roseman Hollow-Roller-Drive Gang Mowers.

#### Roseman Rear-Wheel- Drive Gang Mowers

Advocates of wheel drive mowers can now obtain the advantages of Roseman quality and design in the new Roseman Rear-wheel - drive mower.

#### NATIONWIDE SALES and SERVICE

Write, wire or phone for descriptive literature, prices and availability. Phone: UNiversity 4-1842

**ROSEMAN**  
HOLLOW-ROLLER DRIVE  
"FAIRWAY IMPROVER" MOWERS

#### LOWER LABOR COSTS

Roseman Mowers mow faster, more uniformly without kicking up in the rear. Roller design permits overhang of traps — slow costly hand trimming eliminated. No protruding side wheels permits close cutting, eliminates fringe around trees. Narrower overall width permits mowing in tight places.

#### LESS DEPRECIATION

Top quality, nonbreakable materials mean reliability and long life. Added life means less depreciation — lower cost every year.

#### QUALITY EQUIPMENT

Exclusive non-breakable side frames. Timken bearings. "E-Zjust" hand reel adjustment permits quick, accurate adjustment of bed-knife — no tools needed. Bedknife and cutting reel steels, precision tempered and riveted — not welded — used throughout. Sharpen reels in your own shop with new lap-in attachment.

# Quick facts that make **WORTHINGTON** your best tractor buy

Model F Chief Tractor with 7-gang Fairway units. Gangs are mounted so that each cutting unit conforms to surface irregularity. Units are available with either steel wheels or pneumatic-tired wheels.

## Worthington Model F Chief Tractor

1. Low gas consumption with Ford Industrial Engine.
  2. Pivotaly mounted axle for safety on hillsides.
  3. Adjustable steering column for driver comfort.
  4. "E-Z" ride seat with spring and hydraulic shock absorber.
  5. Hydraulic brakes and engine governor standard — no extra cost.
  6. Reserve gas tank — eliminates "running out."
  7. Front-mounted mowers permit operator to look ahead when mowing.
  8. Smoother mowing — mowers cut grass ahead of wheels — no compaction.
  9. Hydraulic gang mower lift available for fast travel, easy storage.
- This is just a sample. A demonstration by your Worthington dealer will tell the whole story. See him now.

## "MILORGANIZED" TURF GROWS BETTER LOOKS BETTER

Fairways, greens and tees fertilized consistently with MILORGANITE, the natural organic nitrogen plant food, are distinguished by rich, deep green color, uniform texture and a healthy, closely knit root system. "MILORGANIZED" turf resists disease and withstands many of the climatic rigors to which less sturdy turf succumbs.

These are reasons why Golf Clubs use more MILORGANITE than any other commercial fertilizer. Our Soil Testing Laboratory and Turf Service Bureau are available to you upon request.

*greens mower*

*Jacobsen*

POWER GREENS MOWER

22-inch Cutting Width

Jacobsen Greens Mower is powered by an engine that's dependability plus — the Jacobsen engine. Check these advantages:

**Double-Quick Starting.** Jacobsen engines deliver power strokes at every revolution of the crankshaft. Ordinary engines deliver power strokes at every second revolution of the crankshaft. The average pull on the starter produces six crankshaft revolutions — double power strokes mean double-quick starting.

**Positive, Fresh Lubrication.** Jacobsen engines are positively lubricated by mixing oil with gasoline. Vaporization of the fuel oil mixture insures fresh lubrication of ALL MOVING PARTS, ALL THE TIME — uphill, downhill or on the level. No separate oiling mechanism required — no oil level to check.

Only three moving parts — piston, connecting rods and crankshaft. Jacobsen engines have no valves to grind, no camshaft, push-rods, timing gears or valve springs to require adjustment or repair.

## **PLASTIC PIPE**

**... FOR RAPID, LOW COST INSTALLATION  
AND LONGER TROUBLE-FREE SERVICE**

Now . . . CARLON plastic pipe is available to solve golf course water-handling problems. It is lightweight . . . can be installed quickly without special tools . . . and is *guaranteed* against rot, rust and electrolytic corrosion.

**CARLON lasts longer.** Because it is impervious to the chemical attack of corrosive soils and waters, CARLON pipe assures years of trouble-free service. It will not accumulate scale or sediment.

**CARLON is easier to install.** Furnished in long lengths, CARLON requires fewer fittings. It is lightweight and easily handled by one man — no rigging equipment needed. Because CARLON is flexible, it curves to follow irregular surface contours and eliminates many fittings needed for rigid pipe.

A complete line of molded plastic fittings is available for joining this new pipe or connecting it to established metallic systems.

## "FLEXI-COMB"

for fairway mowers

Reduce thatch  
 Smoother cut  
 Overcome weeds

Begin Flexi-combing early in the season. Comb out accumulated plant material to provide better growing conditions. A thatch layer sheds water, prevents fertilizer from getting down to the soil.

Reduction of thatch by Flexi-combing promotes healthier growing conditions — reduces disease.

Use Flexi-combs on mowers to overcome existing thatch and prevent its reoccurrence.

Flexi-combs fit Toro and Worthington mowers . . . Combs are mounted permanently on mowers — easily locked out of operating position when their use is not required . . . Improved design provides easier depth adjustment.
