Gravelly, Dunbar, W. Va., has new chain saw attachment for its tractor.

## PUTT-PERFECTOR NEW PRACTICE DEVICE

The Putt-PerfeCTOR is a golf ball with two conical projections and a horizontal steel center rod invented by a prominent golfer who has become a remarkably good putter. The ball has to be stroked squarely to roll with the conical projections in

horizontal balance. Failure to make precise contact is made very obvious by the cones getting out of line and emphasizes the error in stroking.

Pros who have received early production of the Putt-PerfeCTOR have found it a popular, effective instruction and practice device, with players buying it for indoor use at home as well as on practice greens. It comes in packages of 3

with each ball's cones in colors. It should be a good Christmas gift item. It is made by Putt-PerfeCTOR, 31 N. First St., Phoenix, Ariz.

## NEW THATCH SPOON FOR AERIFIER

A special Thatch Spoon has been designed by the West Point Products Corp., West Point, Pa., for use on the F-G Aerifier, G-L model, Junior G-L and G-T models for use where thatch is a greater problem than compaction. The special

spoon cuts a full circle of thatched material, has the same curve as the standard Aerifier spoon and movement of the spoon beneath the surface provides "cultivating action" although not as thorough as with the open spoon. Reported advantage in the design of the Thatch Spoon is the circle of metal at the tip of the spoon which does not clog as readily as conventional hollow tine. Thatch Spoons are available only in 1/2 in. dia.

Among other newly developed or improved products of West Point are the newly introduced Junior G-L Aerifier, a

self-powered unit using the same spoons and providing the same "cultivating action" of the standard model. It is equipped with adjustable handles for convenience of the operator.

Improvements in Flexi-press include changes in wire coils around Aerifier spoons with wider spacing to prevent clogging.

The H-L model has been made into an Aerifier-Roller combination equipped with standard 1/2 dia. spoons with reversible handles so machine may be pushed or pulled. In transit unit rides on the roller which may be filled with water and used to firm seedbed.

**AL LINK DESIGN SHINES IN  
 NEW KROYDON MODELS**

Al Link, widely known in golf as a star designer and builder of clubs, has produced some new numbers for Kroydon's 1953 line that Kroydon declares are the finest clubs for playing qualities and selling looks the company ever had. Al's made ingenious use of the unique qualities of the Kroydon shaft and special head design in effective combination. Pro reception of the new clubs has been highly gratifying, says Frank Mitchell, Kroydon's sales mgr.

**WAR-MUP WEIGHT HOOD  
 COVER ON MARKET**

The Hoodswing Corp. of 6944 Collins Ave., Miami Beach, Fla., owners and developers of the "War-Mup" weighted golf club hood, started production October 15th. C. M. Hill Co., Peoria, Ill., is in charge of production.

Damon C. Abel, pres., Hoodswing Corp., says that this patented head cover will be marketed through the pros who will advise the golfer on the proper weight and use of a "War-Mup" weighted hood. A complete set of hoods, one with a changeable weight for "War-Mup" is priced from \$4.50 to \$12. The individual "War-Mup" retails from \$2.50 to \$5.00.

A special Christmas gift package of the single weighted "War-Mup" and in sets of 3 or 4 (one weighted) will soon be available.

**STROKE-MASTER HAS TWO NEW  
 LIGHTWEIGHT SHOES**

Miles H. Baker, vp, E. E. Taylor Corp., Freeport, Me., says the company will feature two new lightweight two eyelet golf shoes next season. One is to have a lug sole and will retail at \$14.95. This is to be made of a soft type upper with a

full leather toe lining and an unlined back quarter. The same shoe will also be available in a waterproof neolite sole out of a brown softy upper leather with an unlined back quarter to be available to retail at \$15.95. These are two new shoes Stroke-Master believes "have a wonderful place in the pro shop for the coming season." Styles are in the men's line.

Baker adds: "We also are featuring a blue and white women's spiked golf oxford in our hand fashioned, unlined women's shoe. This shoe seems to be much in demand and its comfort giving features are unquestioned as we have sold many thousands of pairs of this type shoe in plain brown and brown and white."

### W. A. CLEARY TO HAVE SUPPLY MERION B27 SOD IN EARLY '53

The W. A. Cleary Corp., New Brunswick, N. J., has seeded 25 acres of their plant farm to Merion B27 and some other good green mixtures from which they plan to furnish a continuous supply of sod to golf courses and parks starting in early 1953.

Control plots are to be marked off where studies will be made of treatments with PMAS for crabgrass and fungus in

various stages. Other test plots will show results of use of the soil conditioner, Soilam, and a newly formulated liquid fertilizer, Nitro-Gro.

Superintendents and club officials are invited to visit the Cleary plant and see the sod in various strains of grass and make first hand observation of tests being conducted.

### DOUBLE EAGLE IS DISTRIBUTOR FOR PENFOLD BALL IN U. S.

The new Penfold golf ball is now exclusively distributed in the U. S. by Double Eagle Golf Products Co., Inc., Yardley, Pa.

The new Penfold is wound with a special tape of purest rubber and has unique center construction. Distribution of the Penfold ball is exclusively to the professional and in most leading pro shops appears the well known Penfold trademark of the happy Scot.

Double Eagle Golf Products Co. first gained prominence when it introduced its bag line for sale exclusively by golf professionals.

Last year Double Eagle popularized a bright plaid golf bag. This year they presented a "Seamless" bag which has

proved to be successful and popular. Recently Double Eagle has been given exclusive manufacturing rights to a new material, "Kalistron," which, it is predicted, will have strong selling appeal in beautiful high quality golf bags.

#### NEW GOLF BALL RECONDITIONER

The Wittek Golf Range Supply Co., 5128 W. North Ave., Chicago 39, Ill., in collaboration with the Globe Products Co., has developed an improved, heavy-duty, press-type vertical Golf Ball Reconditioner, adapted for range operators to put cut and out of round balls back into play. Re-vulcanizing the entire cover, this machine is hand operated. Details from manufacturer.

#### NEW ITEMS FEATURED IN MACGREGOR 1953 LINE

New and original items designed to give impetus to the increased market golf professionals have created in recent years will be featured in the 1953 line of the MacGregor Golf Co.

A completely new golf ball, the MT, will be presented to the public this Fall. This ball has been tried and tested with

New items in MacGregor's 1953 line.

satisfactory results on the tournament tour through the past year. It will also be offered in an attractive Lizagator Utility Kit for Christmas sales.

The "Blended Weight" principal has been developed in MacGregor's laboratory to satisfy the professional's demand for a simple and clear way to supply balanced sets of clubs to their members.

Additional factory facilities have been added in an effort to meet the demand for MT "Eye-O-Matic" woods, which will again be featured in 1953. The companion MT irons have been refined to please golfers of every description, size and shape.

Both Byron Nelson and Louise Suggs lines of woods and irons have been completely redesigned and will offer real values to the golf market. The Tommy

MacGregor's Christmas package—One doz. "MT'S" in an attractive zipper case.

Armour Tourney irons have been also refined to meet today's trend, as have the Armour left hand irons and the Jack Burke, Jr. model for younger players.

Sales success enjoyed with the MT combination sets of nine irons and four woods has resulted in the Armour and Suggs Tourney models being offered in this novel merchandising unit. The boxes have been redesigned for additional strength and can be used as built-in display cases.

A Saran pattern of the authentic MacGregor Plaid will be featured in the comprehensive series of pro-only golf bags in a choice of round, keystone and Pax styles. Available also in attractive green and blue color combinations. The serviceable Saran will be offered for the first time in lower price brackets and in completely restyled and original designs. There are also companion head covers, carryalls and shag bags to match.

MacGregor is also introducing an uniquely constructed number, the "Buggy Bag", specifically designed to be used on carts, regardless whether it is a collapsible or rental type, affording protection to the bag at points where the brackets on most carts will cut a conventional bag.

#### GOLFERS IMPORTS, INC., HANDLE BRITISH LINES IN U. S.

Golfers Imports, Inc., has been formed as sales agency to American golf trade of several leading British lines. Address is PO Box 26, Hillside Manor, New Hyde Park, L. I., N. Y. Telephones are Floral Park 4-4115 and Bayside 9-9566. Golf Imports salesmen now are calling on pro trade.

The company handles U. S. sales for North British Rubber Co., Ltd., featuring the North British ball and a new floater, and North British rubber oxfords with steel spikes, for men and women. It also is sole U. S. sales agent for Tartan un-

"For six years we have used only Liqua-Vita as a summer fertilizer. We wouldn't be without it. Better color—even growth—no burn.

"We apply Liqua-Vita with the fungicide, thereby ~~eliminating~~ labor cost—an important item these days."

brellas and cane seats made by James Ince & Sons, Ltd., and has the pro line of Macintosh poplin reversible windbreakers for men and women, rainpants, and all-service self-lined poplin jackets with wool collar, waistband and cuffs.

Golfers' Imports, Inc. also has a fine line of cashmere sweaters made in Edinburgh, and soon will announce its agency for one of the leading line of British-made clubs and heads.

#### FASHION ACADEMY AWARD TO BURKE

For excellence of design, styling and construction Burke golf clubs received the Fashion Academy Medal Award for 1953. Production of Burke's 1953 clubs is well underway at their Newark, O., plant and pres. Jack Schram advises reasonable quantities will be available for holiday selling.

#### ATCO GREENS MOWER SAYS SALES "PHENOMENAL"

A. M. Bruce, U. S. Resident representative of Atco Motor Mowers, 67 Broad st., New York 4, says that the British-made Atco which was introduced to the Ameri-

can market in 1951 has had "phenomenal" sales and acceptance by supts. Bruce adds "many distributors report that they have sold more greens mowers this year than during any other year since the war."

The Atco is made by a company with more than a century of engineering experience. It was put on world markets other than U. S. in 1921 and came into the American market when the pound was devalued and its price became competitive.

The 20 in. Atco weighs 106 lbs., has a 9-blade Sheffield steel reel and simplified, sturdy construction for operating economy and uniformity.

#### UNION HARDWARE NAMES REGIONAL SALES MGRS.

Appointment of four regional sales managers to handle sales of Union Hardware Co. products in the East, the Midwest, the South and the West Coast areas of the country, has been announced by Milton G. Meinig, director of merchandising and sales for the company and its subsidiaries.

Eastern Regional Manager, with offices in New York, will be Irving Swirnow, former New York district representative for the company and its Athletic Shoe Division, and previously a buyer for Davega stores.

George Fox, for the past 25 years in charge of the sporting goods department of the Hoffman Hardware Company in Los Angeles, is the new West Coast Regional Manager. He will establish regional sales headquarters for Union Hardware in Los Angeles.

James Jackson, with Union Hardware the past five years as Chicago district representative for its Athletic Shoe Di-

#### LAWN MOWER STATIONARY BLADES

*Buy Fulname!*

Buckners, after serving for many years as manager of their New York office, and with a wealth of sales experience gained during his 14 years as manager of the Transite Pipe Department of Johns-Manville Sales Corp. in their San Francisco offices.

Buckner plans immediate expansion of their line, with emphasis on product development and a streamlining of current models.

**MICHIGAN PEAT COVERING COUNTRY ON GOLF CLUBS**

Michigan Peat, Inc., 267 5th ave., New York 16, has a new folder describing use of its high nitrogen peat from bogs at Capac, Mich., on golf courses from Washington, D. C. to Los Angeles, and from northern U. S. to the deep south. Prominent supts. are quoted as having used the material in constructing new greens and reconditioning old greens. The material is being extensively used in 1/3 sand, 1/3 soil and 1/3 Michigan peat for top-dressing after greens are aerified and soil plugs brought up during aerification are removed. Supts. have reported very satisfactory results.

**HYPER-HUMUS DESCRIBES TOPSOIL MAKING**

Hyper-Humus Co., Newton, N. J., whose product has been widely used on golf
