

Jacobsen

power mowers are

“AT HOME” ON THE
GOLF COURSE

JACOBSEN LAWN KING

26-inch cutting width.
Side-wheel type for speed and
hillside stability.

- New 2 1/4 hp. Jacobsen Engine.
- Automatic Recoil Starter.
- Separate Reel and Traction Clutches.
- Auto-type Differential for Easy Turning.
- Riding Sulky Available.

JACOBSEN ESTATE 24

24-inch cutting width.
Rear drive allows
close trimming.

There's a big difference between the once-a-week cutting of the home lawn and the all-day, everyday demands on the commercial mower. That's why more and more golf courses are standardizing on Jacobsen for cutting tees, approaches and clubhouse lawns.

Like the famous Greensmower, all Jacobsen power mowers are built to handle tough commercial jobs, and the records they have established through years of service are proof of their design and quality.

Ask your Jacobsen dealer to show you why Jacobsen is the first choice on the tough jobs.

TURF *that Speaks for Itself!*

BILL MELLON HAS USED MILORGANITE FOR A QUARTER CENTURY

Mr. William Mellon has spent many years growing exceptional turf at Lancaster Country Club in Lancaster, Pennsylvania. He is tops to all the members because he has given them a good course for play. Each year for a quarter century Bill has used a large car of Milorganite on the greens, tees, and fairways at his course.

The services of our staff agronomists and soil testing laboratory are available, with limitations, for the asking. For further information write:

"Our ATCO Mowers give a closer, even cut...and cost less to operate"

says Herman Dietz, Greens Superintendent,
Manakiki Country Club, Willoughby, Ohio.

Helped by his lineup of steady-working ATCO Greens Mowers, Mr. Dietz and his staff will have the Manakiki Course in top condition for the "\$15,000 Carlings Open Tournament" to be held the week of June 22.

On greens, aprons and tees, ATCO Mowers are doing a man-size job quickly and efficiently at Manakiki. At your course, too, ATCO for 1953 has the features that assure better performance at lowest cost:

"Keeping our 18-hole layout in the 'pink' requires a mower that's simple to use . . . and plenty durable. That's why my staff prefers ATCO."

Before ordering any greens mower, check the 1953 ATCO line feature by feature with other makes. For name and address of your nearest ATCO dealer, write:

- **LOWER COST.** Britain's most famous mower is priced \$60 to \$80 *below* other makes.
- **EASY OPERATION.** The ATCO 20" model is less than $\frac{2}{3}$ the weight of competitive models. Perfect balance and steadiness mean easy cutting at all speeds. Nine-reel blade gives 34 close cuts per foot. Reel clutch stops cutter revolving when moving between greens.
- **LOWEST UPKEEP.** Simply constructed to keep repair costs down. Special reel construction gives unusual resistance to shock. Sheffield steel blades *stay* sharp for seasons.
- **RELIABILITY.** More than half the ATCO Mowers sold in 1921 are still on the job . . . *sure* proof of ATCO durability.
