

FONKEN
"PICKER-UPPER"
GOLF BALL RETRIEVER

FIRST CHOICE OF RANGE OPERATORS FOR OUTSTANDING SERVICE!

All the popular features and quality engineering that have won the praise of range operators year after year are combined with improved production methods to make the Picker-Upper better than ever. Make this the season to have a Fonken Picker-Upper on your range for reliable, positive golf ball retriev-

ing and injury-free ball pick-up. Fast, mechanical retrieving with the Fonken Picker-Upper — even under rugged service conditions — is the right step towards increased range profits! Improved pick-up discs assure golf ball pick-up without injury — lift-out wire basket-type containers allow for easy unloading and are ideal racks for hosing and washing golf balls. Rugged all steel welded construction and only once-a-year lubrication of bearings provide stand-out performance and maintenance-free operation.

Photograph shows section of seamless molded and bonded rubber covered pick-up discs. Thick rubber covering, rigid construction of discs and separator angles for aligning golf balls assure best possible pick-up under all range conditions.

ORDER DIRECT — Illustrated brochure giving complete details and specifications of the Fonken Picker-Upper golf ball retriever is available on request.

Here is the
Shower Head that's
**AUTOMATICALLY
SELF-CLEANING**
each time it's used
NO CLOGGING • NO DRIPPING

There is no shower head like the new SLOAN Act-O-Matic. The exclusive feature which sets it apart from all others is its automatic self-cleaning action. The unique spray disc moves downward into shower position when the water is turned ON. A cone-within-a-cone spray of maximum efficiency is delivered. When the water is turned OFF the disc is moved upward, draining the head instantly.

Because the water is completely removed, the Act-O-Matic SHOWER HEAD does not clog or lime up, and therefore it will not deliver irregular or distorted spray patterns. The Act-O-Matic is also economical in use. It saves water, fuel and maintenance service. (Institutional models available.)

THE Act-O-Matic Disc MOVES
EACH TIME SHOWER IS USED

DISC DOWN SHOWER ON
DISC UP SHOWER OFF
OFF position opens large, free waterway permitting Automatic Self-Cleaning

A NEW ELM IS BORN

- Column-like stature
- Sturdy and ample crotches
- Strong anchorage — deep root system
- Vigorous growth — large leaves
- Great indestructibility
- Allows sun to get to grass

Drawing of chromosomes in a root cell. Advantage of healthy resistance to tree plagues; and is a mutation of American Elm.

Golf course superintendents have found this popular new elm variety ideal for enclosures, avenue and fairway borders, wind breaks, and boundary markers. For beauty and economy, it is unexcelled. Each scion produced by grafting so that all have the identical features of the original. Write to us for information. Publication, "A New Elm is Born," sent on request.

Get those Weed ROOTS!

Go to the Root of Your Weed Problem
with These Dolge Products

To keep weeds off drives, walks, parking lots, tennis courts, sand traps you've got to finish the roots.

DOLGE SS WEED-KILLER does that and more. It kills the foliage, of course. It works down deep. It tends to sterilize the soil so that wind-blown seeds cannot sprout in it. Diluted as directed, it can kill the toughest weeds. Spray or sprinkle where you want no growth whatsoever.

E.W.T. is the Dolge 2,4-D Selective Weed-Killer. It finishes dandelions, plantain and other broad-leaved weeds in turf — does not harm good lawn grasses. It translocates; is absorbed and travels through the sap to the roots.

Knock Out Turf Pests

with dieldrin

A single application of this powerful insecticide controls the major turf pests for years

Here's a sure way to save labor and expense on large scale applications of insecticide to turf. Use *dieldrin* . . . and get sub-surface turf pest control for years on end *with just one application!*

Count on dieldrin to stop Japanese beetle grubs, white grubs, lawn chinch bugs, ants and other turf destroyers. Dieldrin is easy to use and will not harm the finest grass.

It comes in four formulations. The one you use depends on the application equipment you have.

Dieldrin Granules: The latest formulation, dieldrin granules, can be applied in combination with fertilizer. Or in clay or tobacco carrier they can be applied as a

separate application. Dieldrin granules are easy to apply . . . and they get down to the roots where the pests are.

25% - 50% Dieldrin Wettable Powder: For use in high volume sprayers where large quantities of water are used. Ideal for application to large areas.

1.5 lb. Dieldrin Emulsible Concentrate: For low volume sprayers . . . only requires a fraction of the water required in larger equipment . . . for greater economy in applications to smaller areas.

Dieldrin Dusts: For use with conventional dust equipment . . . dieldrin dusts are even-textured and smooth-flowing.

Regardless of which formulation is best suited to your needs, you can depend on dieldrin to do the job. Technical information on dieldrin is available. Please write to:
