# Swinging around Golf

## NEWS OF THE GOLF WORLD IN BRIEF

USGA figures on time required to play rounds in National Open gave plain indication that faster play meant better scoring . . . Last group of three first day took 4 hours 27 minutes . . . Second day the last three finished in four hours . . . Saturday when players were in couples, the first pair, Ralph Evans and Zell Eaton, played their two rounds in 5 hours 12 minutes . . . An average of 2 hours 36 minutes per round shows action . . . The Hogan-Harris pair played the fourth round in 3 hours 2 minutes, and the last pair, Ford and Harbert, made the route in 3 hours 13 minutes.

**HERB GRAFFIS**

usual date there's been talk about shifting the event into early September to get courses in good condition . . . Bertoni's performance at Meadowbrook showed it's possible, with genius, sweat and some luck to have a course in top shape on the PGA dates.

Plenty of pros at Meadowbrook envied Chick Harbert's beautiful and well laid-out shop . . . Floor covering is unique . . . It's about the speed of a good green and wears well . . . It's made of reconditioned carpet, bleached, then dyed with outlines of fairways, traps and greens . . . Chick also has a wire display rack for shoes to which Grant Robbins tipped him

profitable National Open programs for Baltusrol and Olympic, on which the USGA gets a percentage, is negotiating for a tournament circuit program deal with the PGA.

National Open program as a big money-maker for the club holding a big tournament was started in 1928 at Olympia Fields (Chicago dist.) by Jack Fulton, Jr. and Joe and Herb Graffis . . . Split was 50-50 with the club . . . Next year arrangement was repeated with Winged Foot for the Open and in 1931 with Wanamoisett for the PGA.

Western Golf Assn. Amateur championship experiment at Rockford (Ill.) CC with 72-hole medal play qualifying low eight for title match play was such a marked success the idea is bound to extend . . . Field had at least 20 rated among nation's finest amateurs and included seven Walker Cup players.

Baltimore, Md., golfers pushing for construction of 18-hole course near Loch Raven for which plans were made three years ago . . . Robert Sommers, Baltimore Sun golf writer, says on Saturdays, Sundays and holidays it takes six hours to play 18 holes on any of the city's three

## For Tees and Approaches

Makes short work of tee-mowing and cutting landscape areas. Wheels behind reel permit exceptionally close trimming around trees and flower beds. Riding sulky available.

## For Trimming

Self-propelled with all the pull you need to trim the toughest areas. Jacobsen-built Hi-Torq engine has plenty of reserve power for heavy grass and hillsides. Rugged rear axle with oil seals insures long life.

## For Greens

High cutting frequency, perfect balance and precision-built 9-blade reel assure the smoothest greens possible . . . and in record time. "Quick-on, quick-off" transport wheels and sulky let you ride from green to green.

# PARKER solves the leaf problem... adds to your playing season

**FAIRWAY** baling sweeper. Heavy duty construction—easy to operate. Comes completely assembled including six 25-bushel canvases, 48" width.

**PARKMASTER** power sweeper. 36" width—2 h.p. engine. Ideal around greens and traps for removal of leaves, clippings, etc.

**TRAILMASTER** trailer sweeper. The Parkmaster model adapted for use behind small tractor or heavy duty power mower. 12 bushel capacity.

For most courses falling leaves signal the end of the season. With a Parker Fairway baling sweeper, however, as much as a full month of playing time can be added.

Golfers get more enjoyment. Courses dependent on greens fees add extra income.

The Fairway model sweeps and bales up to 500 bushels of leaves per hour—*wet or dry*. It is easily towed by truck, jeep, or tractor. Sweepings are collected in compact canvas bales for easy disposal.

Write for catalog sheet describing money-saving Parker sweeping equipment.

Nelson Brothers, landscape contractors, purchased a Royer NCYP-EG Shredder a year ago and, as you can see, they are enthusiastic about its operation. Mr. Harold Nelson says that they condition a mixture of soil and old sod containing a considerable amount of trash with this tractor bucket fed unit at a cost far less than with previous methods.

This new "Y" Series (up to 150 cu. yds./hr.) provides high capacity production wherever materials are to be shredded, mixed, aerated or reduced in particle size. Available in portable and stationary models, gasoline engine or electric motor driven.

There is a Royer to provide uniform, correctly textured compost or top dressing for you at low cost . . . no matter what your needs may be. Write for details.

**"...our labor payroll has been reduced and our soil sales have been doubled"**

**"...only regret that we had not bought a Royer sooner"**
