## "HEALTHIER DEEP-COLORED GRASSES EVEN IN HEAVY PLAY"

At Butler's Golf Course, Elizabeth, Pa., greens, fairways and tees stand up to heavy play, thanks to regular feedings with AGRICO and ARGINITE (inset) THOMAS FOX, Superintendent.

"AT BUTLER'S GOLF COURSE, we have extremely heavy play," writes Thomas Fox, Superintendent, "and so have to face up to problems of compaction and maintenance.

"With year-around play, a good fertilizing program is a necessity—and this means using a combination of AGRICO COUNTRY CLUB and AGRINITE.

"We have used these fine performers for the past 10 years, and find that they help produce and maintain grasses of healthier, deeper color on both greens and fairways.

"What's more, our root systems are much better, and we have found that proper fertilization promotes the growth of native grasses, thus cutting our seed problem to a large degree."

Now's the time to be ordering AGRICO — America's Premier Golf Course Fertilizer. Contains both organic\* and inorganic nutrients. See your regular supplier, or write to The AMERICAN AGRICULTURAL CHEMICAL Co., 50 Church St., New York 7, N. Y.

\*Organic derived from AGRINITE, the better (over 8% nitrogen) all-organic plant food.
