golf course to be constructed as one of the recreational facilities the government can make valuable additional use of the services of John Monteith, turfgrass specialist for the government since he left the USGA Green Section which he headed.

Rolling Green CC, Arlington Heights, Ill., robbed of \$4,000 . . . Gunmen locked Wallace Giffin, club mgr., and Larry Miller, employee, in a closet to get them out of the way . . . Alva (Okla.) CC rebuilding course to grass greens and building new clubhouse . . . George Ferrier, Seniors PGA official, was a pioneer in golf instruction on steamships . . . George was with Cunard line from 1922 on, teaching on cruises and arranging for golf ashore.

Howard (Pop) Beckett, who retired as pro at Capitol City Club, Atlanta, Ga., to concentrate on course maintenance, licked a real tough poa annua problem on greens with Cyanamid treatment . . . Supts. say it's worse than ever, this year, to get young men to take up course maintenance as a profession . . . Not enough money in it . . . Smaller clubs hard up against it as they can afford only pro-supts. and can get plenty of young pros as applicants but not often can they get one who knows the first thing about course care . . . Only answer is to get some farm kid to take on the course job, and that's what's being done at most of the clubs that recently have switched from sand to grass greens or new clubs in smaller towns that have started with grass greens . . . In ten

years, or less, shortage of qualified supts. will be one of the very serious problems in golf.

Rash of aces at fine Lakewood CC course of Grand Hotel, Point Clear, Ala. . . . Five aces in 19 days . . . Pro Andy Mortimer is baffled . . . Says none of the short holes are that easy . . . And they're not . . . But what a deal to make five vacationing golfers go home ballyhooing Point Clear!

Jack Redmond sure got a lot of publicity out of that picture of knocking a ball teed on one of the Aga Khan's toes during latest Mediterranean trip of the Rover Boy . . . Jack, who has more crust than a pie foundry, told the Aga "Don't worry, this ain't your club."

Roland F. McGuigan, former dean of men at Northwestern university, appointed vp-educational director of the Western Golf Assn. to supervise the WGA's Evans Caddie scholars' program which will have more than 250 ex-caddies in colleges next fall . . . Hugh Moore, Jr.,

Member of Wilson Advisory Staff

"Wilson Strata-Bloc Woods place all your power on the ball!"

says Cary Middlecoff, 1955 MASTERS CHAMPION

These 4 facts prove Middlecoff's point:

1. Exclusive Strata-Bloc construction crisscrosses wood plies—eliminates grain which causes ordinary club heads to swell, shrink, warp and split.
2. Since club faces can't distort, vital face bulge and roll never change. You deliver full power on the ball!
3. Because they're virtually unaffected by moisture, Wilson Strata-Blocs maintain uniform weight and "feel" to boost consistency... lower scores.
4. The great new Wilson Rocket shaft by True Temper generates extra power "kick" near head, provides sensitive "feel" in your hands as you stroke the ball. Wide range of shafts.

Wilson Jet Woods—in sets 1-3-4-5. Feature extra loft on driver and a No. 5 wood to reinforce the average player's long iron game. Ask your golf professional about Wilson Top Notch and Staff Model 11 woods, too. He'll be glad to tell you which set is right for your game.

Sold through professional golf shops

Bulge—longitudinal contour across the face
Roll—vertical contour across the face
