

# TRIANGLE-

## THE *Guaranteed* PLASTIC PIPE Assures an Economical, Trouble-Free System

Triangle Plastic Pipe, made of virgin non-toxic materials, is guaranteed to perform perfectly, provided simple installation instructions are followed. Not only is the pipe guaranteed but, because Triangle holds to rigid tolerances, the joints made with Triangle pipe and fittings are also guaranteed.

Before and after pictures at Hempstead Country Club, Hempstead, Long Island. Left: No need for straight line ditching. Triangle Plastic Pipe follows the contours of the land, reduces number of fittings needed. Below: Pipe down, sod back in place, sprinklers on—in record time! You can bury Triangle Plastic Pipe—and forget it! It will never rot, rust or corrode.

### HERE IS TRIANGLE'S POSITIVE PROGRAM!

**1. Uniform Pressure Piping.** Triangle offers a full line of Plastic Pipe and fittings, each type made from virgin, non-toxic materials. The line includes polyethylene Flexible Pipe in sizes 1/2" to 4" rated at 75 PSI. In addition, Triangle offers 100 lb. Flexible Pipe 1/2" to 2", 100 lb. Semi-Rigid Pipe in 3 and 4 inch, as well as other Semi-Rigid and Rigid types for higher pressures. No matter what your pressure problems, Triangle has the answer.

**2. Engineering Service.** Triangle offers the services of its Engineering Department in your plan-

ning and installing of Plastic Pipe. If you wish, we will send an Engineer to the job to help get it started.

**3. Permanent Identification and Color Coding.** Triangle, proud of the quality and workmanship of its product, permanently identifies all of its pipe with name and trade-mark, pressure classification, size and convenient one foot marks. The Flexible types are embossed and Color-Coded—white for 75 lb., yellow for 100 lb.

Triangle Plastic Pipe, being light and flexible and requiring few tools, is extremely easy to install in record time. If your course is interested in an efficient, non-corroding system for sprinklers or drinking water lines—a letter will bring full details.

# Mow *Anywhere* at Lower Cost with **WOOD'S** Tractor Rotaries

MODEL 80 (61 similar)

- **FASTER THAN REEL TYPE**
- **FASTER THAN SICKLE BAR**
- **LESS EXPENSIVE TO USE**

Wood's PTO-operated tractor rotaries do a clean and even job of mowing grass down to an inch high or cutting thick waist-high brush. Easy and accurate adjustment is handy on all models.

There are 12 models available in hydraulic lift or drawbar pull-type for any size tractor—42' to 114' cut—adjustable from ground to 14' high. Wood's cutters mow, clip or shred and mulch leaves—close to trees, fences or buildings.

There are 1, 2 and 3 blade models. Blades overlap for clean cutting. Equipped with shock absorbing V-Belt drive,  $\frac{3}{16}$ " boiler plate housing, 15" drop-center wheels or 8" with non-pneumatic tires. All working parts enclosed.

## Large Selection of Models

Model 42C, 42A—42" cut, single blade, for Farmall Cub and Super A. Model 42F—Same as 42C but rear-mounted for the Fast-Hitch Cub. Model 5—60" cut, single blade, for 2 plow tractors. Model M5—Same as 5 but mounts on 3-point hitches such as Ford. Model 61—61" cut, double blade, for 2 plow tractors. Model M61—Same as 61 but mounts on 3-point hitches.

Model 80—80" cut, double blade, for 2-3 plow tractors. Model O-80—Same with off-set drive for working under low trees. Model M80—Same as 80 but mounts on 3-point hitches. Model 114—114" cut, triple blade, for 3-4 plow tractors. Model 114E—Same as model 114 but with mounted engine for use with small tractors.

**KEEPS  
SHOWERS  
AND POOLS  
SPARKLING  
CLEAN**

*An Easy Way!*

Removes lime deposits, algae formations, body grease and soap oil even where hard scrubbing with other cleaners failed. The most formidable stains and rust disappear like magic. Simply sprinkle a little Saf-T-Klenz powder on the damp surface, mop lightly, and rinse with clear water. Minimizes conditions that breed and spread infectious germs. Leaves floors and decks practically slip-proof. Odorless, it doesn't mask odors—it removes the cause. Harmless to hands, clothing, floors and drains. Safe to use on glass, porcelain, china, marble, tile, terrazo, vitreous and concrete surfaces. Porcelain drinking fountains, wash bowls, toilets, and urinals are similarly cleaned with little effort. Ideal for brass, bronze or copper. Sold with a positive guarantee of satisfaction or cancellation of invoice. It is not even necessary to return the unused portion. Write for folder and prices today.

Poison on the green

## FADING-OUT

- Spore (seed-like reproductive body)
- Sporophore (supporting filament)
- Mycelium (fine filaments of the fungus)
- Dead or dying grass

### REFERENCE GUIDE

FOR THE PREVENTION AND TREATMENT OF FADING-OUT

#### DESCRIPTION

The advanced symptoms of "fading-out" are small, irregular, reddish-brown areas. These are often angular, one or two inches wide and may be snake or sinuous in pattern. If individual grass blades are killed, they turn reddish brown and may be covered with a black mold. In the early symptoms the blades appear to be yellow, and later water soaked. This mottled, yellow appearance, similar to iron chlorosis, is most often the first indication of "fading-out".

#### ENVIRONMENTAL CONDITIONS

"Fading-out" may occur during any month from May to October, but is most severe during the warm humid months. It is favored by abundant moisture and temperatures above 75° F. Infection of the plants occurs during the warm humid periods. If infection is followed by drying winds and bright sunlight, the excessive loss of water from the diseased plants will soon result in prominent disease symptoms.

#### CONTROL MEASURES

Acti-dione Ferrated is suggested for control of "fading-out". The recommended application is one package of Acti-dione Ferrated to each 15,000 square feet of turf area. Application of five gallons per 1,000 square feet is recommended. When weather conditions are unusually favorable for the fungus, it may be necessary to apply Acti-dione Ferrated at one package per 10,000 square feet. Proper management of the nitrogen level and water levels may aid in cultural control of "fading-out".
