Loud cheers by day and night in home of Leo McNamara, Wilson New York salesman, for and by the new son . . . Roy Hunter now pro at Bel-Mar CC, Belvidere, Ill.

Concession business at Masters tournament included 6000 sandwiches for Thursday, 8000

for Friday, 20,000 for Saturday and 22,000 for Sunday . . . About 72,000 bottles of soft drinks, mainly the wine of the country, Coca Cola, sold during the Masters . . . No figures on sale of the five kinds of beer, oceans of milk, eight brands of cigaretttes, two of cigars, seven kinds of candies, cookies, etc . . . Prices are fair at the Masters concessionaire stands.

Paul Hahn's new Universal short "Swing High, Swing Lo" showing Paul's new trick shots and a quick lesson, in Technicolor, had world premiere at Augusta during the Masters . . . It's the most interesting, entertaining picture job of the many the brilliant Hahn has done.

## NEW BOOKS

**BETTER GOLF IN FIVE MINUTES.**  
By J. Victor East. Published by Prentice Hall, Inc., Englewood Cliffs, N.J. Price \$3.95

Victor, an old-timer as pro, club designer and promoter (he brought Joe Kirkwood to the U.S. and got Joe started in trick-shooting) gets down to what he calls "The Basic Movement" in this book he'd had in preparation for years.

The "basic movement" is the performance in what's usually called "the hitting zone." There are many variations in the ways experts take the club back and swing down but all the good ones look about the same from the point when they get close to hitting the ball until it's well on its journey. East begins his "five minute plan" of basic training by instructing the reader "to brush the sole of a golf club squarely along the floor, grass or other level surface for three inches." He says "Do this with a half swing; never mind how you swing—just keep brushing the surface squarely until you get the feel of it."

East long has specialized in club design and this accent is reflected in his book which urges letting the club do the work for which it was designed. He tells more about club design and the details of properly fitting clubs than has appeared in any other golf book. This club material makes very interesting and helpful reading for the vast majority of golfers and presents information that can be used profitably by many professionals in their merchandising of clubs.

East's book is easy to read, easy to understand and easy to apply. When he writes "the key to good golf is in the club" he is expressing a selling invitation to the pro shop.

## Pros Star as School Masters

*(Continued from page 64)*

plan will grow very fast from now on. There were 28 assistants registered. While attendance was relatively small I believe that the early date had something to do with it. Regardless of the fact that only 28 attended I am more enthusiastic about the plan than ever.

"After the meeting quite a few of the assistants remarked to Joe Devany and myself that they felt sorry for those fellows who didn't show up and felt that when the word got around of how interesting and educational this affair was, we would have a full house next time.

"My own reaction to the whole affair was that the older and experienced pros can perform a valuable service not only for their own benefit but for the game as a whole through programs of this sort. Our program convinced me that the younger fellows are eager to learn."

## Golf Car Survey Made by Met (N.Y.) Golf Assn.

Metropolitan Golf Assn., 40 E. 38th st., New York 16, has published in booklet form the golf car survey it made among 145 private clubs in the district. Replies were received from 80 clubs. Copies of the report are available at 25 cents each. The broad scope of replies makes interesting and helpful material for club officials and committees.

Presidio GC of San Francisco will be the site of the 53rd Western Open. Tournament dates are still open although it is expected the meet will be held Oct. 11-14. San Francisco Jr. C of C is joining with WGA and local businessmen in helping to put the tournament over. Prize money will total \$22,500.

## Sit-N-Rest Cart-Bag Combines Many Features

A new golfer's Cart-Bag which combines cart, bag, seat and all other features a golfer needs in one simple lightweight unit, has been developed by Sit-N-Rest Golf Bag Co., 2400 W.

Clybourn St., Milwaukee, Wis. Offered in attractive new color combinations, with bag portion of vinyl leatherette, the new Cart-Bag also has a handy umbrella holder with strap which also carries jackets and sweaters in addition to regular storage pockets.

The new Cart-Bag features easy "one finger pull" convenience due to its light weight. Clubs are carried in a head-down position, keeping weight low and permitting pulling the entire unit in a near horizontal position. This produces a "floating" effect.

Irons are carried in long sleeve-like pockets protecting grips, shafts and heads from nicking and scuffing. Woods are placed in individual pockets which serve as head covers with shafts held by rubber retainers. Clashing of club heads and club rattle when wheeling are entirely eliminated.

Protect your floors from spike holes with rugged Pneu-Mat Runners. Absolutely spike-resistant, they provide a comfortable walking surface — improve the appearance of your club house.

Woven of rubber-impregnated fabric, Pneu-Mat Runners are tougher than rubber runners. Reversible for double wear.

**MONEY BACK TRIAL OFFER:**

Order a trial section. Test it on an area which gets especially hard wear. Money back if not satisfied.

**Tests Show Effectiveness of Aqua-Gro in Dew Control**

Aqua-Gro, the non-ionic wetting agent which induces deep and uniform water penetration in hard-to-wet soils, promises welcome relief to the problem of controlling dew, according to field test reports to the makers.

According to the prominent course equipment dealers who conducted the dew tests, Aqua-Gro proved the most effective control for dew yet brought to their attention.

Following the first two applications of the material, the problem of early morning dew was solved. The tests also included heavy sprinkler applications of water on some of the treated areas with no resultant accumulation of water within five minutes following the shut-off. Four weeks elapsed between the first and second applications of Aqua-Gro in the tests which were made at Breakers Beach GC., Palm Beach, Fla. In addition to the dew elimination, test plugs showed more uniform saturation of the soil in the green areas treated with the material than those left untreated.

Control of heavy dew, the bane of most course superintendents, adds another awaited benefit to Aqua-Gro's qualities of achieving

Model 10 Simplex Rotary Balancer, mfd. by Fate-Root-Heath Co., Plymouth, O., makes it possible for any serviceman to accurately balance and track any rotary blade mower with mounting holes  $\frac{3}{8}$ -in. to  $1\frac{1}{2}$ -in. in diameter.

adequate and uniform water penetration in heavier soils, on slopes, etc. with the resultant more efficient utilization of fertilizer and encouragement to deeper, more abundant root development. Complete information from Aquatrols Corp., 730 Lancaster Ave., Bryn Mawr, Pa.

**SELL PAR TUBES NOW! WHY WAIT?**

PAR TUBES As Used in Individual Compartment or Slot Type Bags

The demand is terrific and the profits are quick. PAR TUBES superior construction proves them tops in the field. A *Must* for any golfer who wants to protect his grips the full bag length and obtain a friction-proof bag with an individual compartment for each club. bucket and the manure fork now have rounded backs, and an extension plate for the top of the bucket also is available. New attachments include a 7 ft., 18-in. high blade.

In the case of the seven-foot blade, either end can be set to lead or either end can be raised or lowered in respect to the other end. A third adjustment permits changing the pitch of the blade to give a more or less cutting angle. This attachment is used in grading and leveling new lawns, making and maintaining drives for new homes, landscaping, backfilling, snow plowing, and other earth and materials moving work.

### Foot-Joy Saddle Oxfords

You can improve your score — at least fashion-wise — with these new butter-soft calf Foot-Joy two-tone golf saddle oxfords, light in weight and with shawl tongue for added protection against dampness on the green. Available in black and yellow, or red and black. Sold at all pro shops. Manufactured by Field and Flint Co., Brockton, Mass.

### Mallinckrodt Describes Kromad in Newly Released Report

Of special interest to supts. is a report of an entirely new method of turf disease control published recently by Mallinckrodt Chemical Works, Mallinckrodt St., St. Louis 7, Mo. The report tells how the work of maintaining healthy, disease-free greens is made easier thru the use of newly developed broad-spectrum fungicide, Kromad. Copies of the report can be obtained from the manufacturer.

### New Schertz Umbrella Doesn't Restrict Visibility

Schertz Umbrellas, Inc., has developed a new umbrella with plastic panel insert that allows perfect visibility for the holder. Covered in imported English water-proof tightly woven cotton twill, this ten-rib umbrella is available in solid colors or bold continental multi-stripes and features fully seasoned handsome birch wood shafts with personalized handles. The double-stretcher on ribs prevents the umbrella from turning inside out.

Man-sized for fully insured dry coverage, it is available from Schertz Umbrellas, Inc., 30 West Street, New York, N. Y.

### Lebanon Appoints Odenkirk Florida Sales Rep

Lebanon Chemical Corp., Lebanon, Pa., has appointed E. B. Odenkirk, Florida sales representative for Lebanon Garden Supply chemical and fertilizers, including the popular sheep and cow manures, Turf-Organic (100% Chicago Activated Sludge) and the new Uni-Form 10-6-4 specialty fertilizer.

Replacing Odenkirk in his former district is Robert L. "Bob" Jones, 1925 National Road West, Richmond, Ind., for Ohio, Ind., Ky., and W. Va.

In line with Lebanon's current expansion program, the William J. McGee Co., 502-C Maritime Bldg., Seattle 4, Wash., will represent Lebanon in Wash., Ore., Mont., and the Idaho territory.
