National Sales Reps See Latest in Hogan Equipment

Sales reps from all over the country gathered in Ft. Worth, Tex., to be brought up to date on the latest developments in Ben Hogan professional golf equipment and to meet Ed Rankin, newly appointed general mgr. of the Hogan company.

Part of the 1957 Hogan line of clubs was shown to the reps. They included a rockersoled putter and a line of ladies' clubs, all

designed under Hogan's supervision. They are now available to all pro shops. The brass putter, called "Ben Hogan's Own," is a center-shaft type that comes in two styles of formed grip with either bright or sandblasted finish. The ladies' clubs are the products of two years' experiment. Woods, in particular, will attract the feminine eye, as the heads are offered in a lustrous finish of opalescent blue.

At the Hogan sales meeting were (Seated, l to r): Sammy Sigh, John Burt, C. L. Wilcox, Ed Rankin, Ben Hogan, Ernie Sabayrac, Gene Saunders, Grant Robbins and Chester Kubik. (Standing): Hal Whittington, Guy Ferrino, Jack Murphy, Michael Long, Max Baker, Andrew Ausaitis, Bruce Hamilton, Danny Parrilli, Les Roberts, Bob Haggerty, Jr., Jim Burt, Dan Labadie and Les DeFino.

Wood Has Standardizing Drawbar for Jeep Power Takeoff

Wood Bros. Manufacturing Co., Oregon, Ill., has available a standardizing drawbar for the Jeep and Jeep truck for use when power

takeoff implements such as Wood's rotary mower-shredders are attached to these vehicles.

The drawbar standardizes the hookup so that distance from the hitch point to the end of the Jeep spline power takeoff shaft is 14 ins. The drawbar can be used with Jeep or Jeep truck without alterations.

West Point Plans to Increase Fairway Equipment Production

West Point Products Corp., West Point, Pa., is stepping up production of fairway maintenance equipment. The firm is offering four tractor-drawn aerifiers: Grasslan, F-G Triplex Gang, Model "U" Tractor-Lift Aerifier.

West Point also expects its Crab-E-Rad to be widely used during the coming year because, company officials point out, more persons are recognizing this di-sodium methyl arsonate formulation as a safe and economical agent for destroying smooth and hairy crabgrass.

Although demand for the Verti-Cut exceeded production in 1956, West Point officials say the company will be in position to fill orders promptly in 1957. The Atco Greens Mower now is equipped with the Briggs 4 cycle, 8B engine. Full production of the company's newest turfgrass tool, the Aeri-Dryer is planned for next year. It has been the subject of much discussion because of its ability to quickly remove excess water from fairways and other areas.

Wilson Introduces 1957 Line at Four Sales Meetings

Significant advances in styling and craftsmanship that will give the pro the most saleable equipment in history, is claimed for Wilson Sporting Goods Co.'s 1957 line. It was first shown at sales meetings in Chicago, New York,

San Francisco and Kansas City.

High spot of the various meetings was the introduction of Wilson's new Staff ball, product of five years of research and testing. It is said that a thinner than standard wall combined with X2F additive gives the all-liquid center quicker thrust on impact. Wilson's new vulcanizing process has produced a thread of extremely high resilience. The 1957 Jet has the same construction features as the Staff.

Vivid hues of Inca and Navajo native designs are being incorporated in the new golf bag line. These bags are constructed of strong vinyl and fiberglass materials and are being made available in a wide price range. Other materials such as top grain russet leather, woven cotton plaid, vinyl coated twill, rubber backed cotton and belting duck are also being used in bag construction. All of these are shown in the first separate full-color catalog issued by Wilson.

New finishes, inserts or grips feature '57 clubs. Top Notch, Staff Model II, Patty Berg Staff Model, Babe Zaharias Top Notch and The Babe woods and irons incorporate one, two or all of these improvements. Three utility clubs and four putters have been added to the Dyna Powered line and three new clubs, two Patty Berg numbers and one Betsy Rawls model, will be available for women. The Berg name is also being lent to another new set of woods and irons. An added innovation will be the Betsy Rawls Country Club set, designed for beginning lady golfers.

For younger golfers Wilson is coming out with the entirely new Young Champ and Junior Champ sets. They offer Strata-Bloc woods and the latest "working weight" principle in iron heads.

Other Wilson golf products include the Turfrider-Medalist caddy cart duo, umbrellas, wearing apparel and packaged gift balls.

Both Fred J. Bowman, pres., and William F. King, executive vp, predicted excellent sales prospects for 1957 and added that the Wilson line is priced to give pros a larger dollar profit in unit sale of most items.

Jessen Turns Pro, Joins MacGregor Advisory Staff

Ruthie Jessen of Seattle, who decided to join the women pro ranks early in Sept. after winning just about everything in sight as an amateur, has signed as a member of the MacGregor advisory staff. Still in her teens, Ruthie is the youngest pro on the women's tour.

Since 1952, Ruthie has distinguished herself as golfer, first in and around Seattle, and more recently on a national scale. She was low amateur this year in the Serbin, Western and Syracuse Opens and second low amateur in the Women's Open and All-American. She was runner-up in the 1956 women's Intercollegiate after spending the spring playing on the Seattle University men's squad, one of the few women in the history of collegiate sport to play with a male team.

Kathy Cornelius Joins Spalding Advisory Staff

Kathy Cornelius, winner of this year's Women's Open, has been signed to the Spalding advisory staff. A native of Boston and now a

Lake Worth, Fla. resident, Kathy took up golf in 1946, was runner-up twice in national collegiate tournaments and turned pro in 1953. Her first major victory in women pro competition came early this year when she captured the St. Petersburg Open. Kathy's victory in the Women's Open in Duluth was at the expense of Barbara McIntire, who she defeated in a playoff after the two had finished in a tie for the regulation 72 holes. By midseason her game had improved to the extent she was a top threat in every women's tournament.

Kathy is married to Bill Cornelius, Lake Worth CC pro, and is the mother of a two-year-old daughter.

Big Golfmobile Orders Go to Palm Springs Clubs

Wholesale delivery of Autoette Golfmobiles to the Tamarisk GC, Palm Springs, Calif., and Thunderbird Club, also of Palm Springs,

(L. to r.): Maynard Franklin of Autoette, Ellsworth Vines, pro at Tamarisk GC, and H. J. Drewery, the club's genl. mgr., with Golfmobiles.

was made recently by Wayne Manufacturing Co. of Pomona, Calif. Tamarisk bought 60 vehicles and Thunderbird, 30.

The Tamarisk order is believed to be the largest of its kind ever placed, marking the "coming age of the electric golf car," according to Webb Wiley, Wayne sales vp. Autoette's recent merger with Wayne makes it possible for the Pomona firm to quickly handle these large volume orders.

The new Golfmobile is equipped with a Dual motor drive, is 4-ins. wider than previous models, has a lower center of gravity and new, improved tiller steering.

Facts About Feet

Footwear inspection at the National Amateur played at Knollwood CC, Lake Forest, Ill. turned up the fact that 97 per cent of the participants wore Foot-Joy shoes. Most popular styles were a tan calf blucher with shawl tongue and black calf wing tip saddle oxford with shawl tongue.
