MAINTENANCE COSTS!

and you'll buy ROSEMAN GANG MOWERS - - - -
Every Time

High mowing costs, wasted man hours and exorbitant repair bills are not found in gang mowers of Roseman design and quality.

Save on Labor

The exclusive labor saving ability of the Roseman hollow-roller-drive gang mower to overhang traps and edges of shrubbery beds and to cut close to fences, and structures eliminates the need for much hand trimming. Hundreds of man hours can be saved or devoted to other tasks.

Save on Time

Roseman mowers are rear drive mowers that mow faster, more uniformly without kicking up the rear. Considerable savings in mowing time and man hours.

Save on Equipment

Roseman mowers with lift hitch are combination rough and fairway mowers.

Rough areas can be maintained faster, at less cost, with no expense for additional gang of mowers. Just flip the mowers into high cutting position. Also a time and money saver in mowing flooded or low lying fairways where grass sometimes "gets away" before tractor can get in.

Save on Repairs

Exclusive non-breakable malleable side frames and bed knife shoes. Heavy duty tough chrome nickel alloy steel reel blades, riveted — not welded — to avoid soft spots and breakage and give long life. Timken adjustable bearings and vanadium steel long-life bed knives assure faithful service for many years and almost non-existent repair bills.

Compare 'em all

You are invited to compare the Roseman mower with any other mower. Be sure and compare Roseman quality, design features, low upkeep costs, and performance. We believe that you, too, will join the swing to Roseman mowers.

Book Review

Timing Your Golf Swing. By Robert Winthrop Adams. With 45 rpm. Adams Golf Swing Rhythm Record enclosed. Published by Citadel Press, 222 Fourth ave., New York 3. Price \$3.95.

For more than 30 years, Adams, a prominent engineer, has made a hobby of scientifically analyzing the golf swing and clubs, working with noted professionals and amateurs. He pioneered the study of swinging weight of clubs and, with Francis Ouimet doing the swinging for an historic series of pictures made at the Massachusetts Institute of Technology, charted fundamental material on the proper fitting of clubs.

High among significant factors that Adams' engineering research showed in the golf swing was that of rhythm. Some players are fast swingers, others slow and the great majority have a natural medium tempo. Professionals seeing this in their teaching and especially in their junior classes, note that the difficulties of the kid who generally is regarded as hopelessly clumsy can be greatly helped by getting set into a fitting tempo.

A method that developed a very high percentage of good golfers among junior class pupils was worked out by Wayne Timberman, professional at Meridian Hills CC, Indianapolis, after study and discussion of youngster's rhythm band a kindergarten teacher conducted.

The Adams book and record coordinate actions and timing in a manner that ought to be very helpful in establishing the habit of doing the right thing at the right stages of the swing. The subconscious training of timing seems to fit the tempo of most swings and gives a sound basis for rhythmic swinging to those whose instinctive tempo isn't precisely that of the Adams record.

Resort Digest

Golfers who like to travel and prefer luxury resorts will be interested in the annual Digest of Distinguished Resorts which can be obtained by writing Robert F. Warner, Inc., 17 E. 45th st., New York 17. Some well known spots with plenty of golfing atmosphere are included in the Digest. They include Pocono Manor, Shawnee Inn, Basin Harbor Club and Mountain View House in New Hampshire. Altogether, 78 luxury hotels in and within quick travelling distance of the United States are listed.

Air Force Tutors

Air Force GIs got nothing but the best in golf instruction when the above group visited Germany, England, France, Morocco and North Africa during May to conduct clinics. From left, they are Earl Stewart, Jr., pro at Oak Cliff CC, Dallas; Bob Kiersky, a leading amateur from Long Island; Lyle (Bud) Werring, pro at Eglin AFB, Fla.; and Jimmy Thomson, a former tournament star now with A. G. Spalding & Bros., Inc.

Swinging Around Golf

(Continued from page 20)

serve notice on Uncle Sam he'd better pay up what federal government still owes for flooding city's former muny course so Gainesville can proceed with construction of new course . . . Sam Rauworth to put indoor golf school and health club costing \$100,000 in Chicago's Merchandise Mart.

Brigantine (N. J.) CC being prepared for opening after being closed down since early in World War II . . . Jack Chiarelli to have second 9 of his Exeter (Pa.) semi-private course opened in summer, 1958.

Glenmere CC, Chester, N. Y., names its 9 holes after golf's greatest players . . . Florida and south Georgia supts. at Melbourne G&CC with park and cemetery supts. to participate in technical program headlined by Eugene Nutter, U. of Florida's noted golf turf authority . . . Bob Miller now mgr. Quaker Ridge CC (N. Y. Met. dist.) . . . He switched from Old Oaks where he was succeeded as mgr. by Reggie Kinderlind, formerly of Apawamis.

Fast, Effective Aerification with a Self-Powered Aerifier*

Power on the Wheels

Power on the Reel

West Point's self-powered Aerifiers have power on the cultivating reel and power on the transport wheels.

THE G-L MODEL, shown above, cultivates to a 24" swath and is equipped with brakes for operator safety and convenience. With it the average green can be aerified in just twenty minutes!

THE JUNIOR G-L MODEL cultivates a 20" swath and, like the G-L Model, has quick, simple depth adjustment.

1/4" Spoon Now Available

NEWEST MEMBER of the West Point "Aerifier Spoon family" is the 1/4" Open Spoon that has been designed especially for greens. Because this 1/4" Spoon gently stirs the soil, it can be used at times when thorough cultivation is considered impractical.

Throughout the world it has become standard procedure for aerification of greens to be followed by vertical mowing with the West Point Verti-Cut. As the third step, an increasing number of Superintendents are using the West Point ATCO Greens Mower because of its 12 blade reel of laminated Sheffield steel.

Write for descriptive literature about the West Point modern turfgrass tools — including our new **power-driven sponge**, the amazing Aeri-Dryer.[®]

Dealer inquiries invited.

New York Metropolitan Golf Assn. has 173 regular and associate member clubs within about 50 mile radius of the metropolis . . . Met. GA issued 15,000 handicap cards last year . . . Bill Moran, who succeeded the late Johnny Kinder as pro at Plainfield (N. J.) CC, made a successful debut in the Jersey pro tournaments, tying Maurrie O'Connor of Branch Brook . . . Moran was pro at Baldoc Hills CC (Pittsburgh dist.) before coming to Plainfield this year . . . Mario Laureti is pro at new CC of Darien, Conn. . . . Westchester County (N. Y.) new Dunwoodie course on which \$1,250,000 was spent, opened.

Wheatley Hills CC (N. Y. Met. dist.) put on a "Meet Jack Mallon" night for its new pro . . . Jack switched from Cold Springs CC to take place of the late Willie Klein at Wheatley Hills . . . Ben Parola, pro at White Beeches CC (N. Y. Met. dist.), staged a fashion show for 250 members and guests, featuring stock in his pro shop . . . Ben had the show presented by professional models.

Elijah Horton, 70, who with his brothers Waverly and Chester, was among the well-known teaching professionals of the '20s, died May 13 at Westchester Square hospital, New York City . . . He started as a caddie at Chicago Golf Club and carried for Charles B. Macdonald, H. J. Whigham, Marshall Field, Robert T. Lincoln and others . . . At one time he was pro at Wykagyl GC, New Rochelle, N. Y. . . . Chester became the best known teacher among the three brothers, having Chick Evans as one of his proteges . . . His widow, Mrs. Clara Horton, survives Elijah.

When Fred Corcoran was in Japan arranging the Hopkins trophy and Canada Cup international pro team matches he outlined to Yugi Kodera, sec., Japan Golf Assn., golf turfgrass research and advisory service available to American clubs . . . Japan GA greatly interested in this kind of service for its member courses.

Despite advanced standard of Japanese horticulture and agriculture, turf on Japanese courses isn't any too good and there is considerable trouble with greens . . . Japanese courses often have summer and winter greens about 50 yards apart . . . Lot of course maintenance work is done at night by girl workers.

Corcoran also tells that members qualify for the Japan PGA by scoring 312 or better in the spring or fall tournament at one of the nation's best courses . . . There is no 5 year rule . . . A 9-hole course for boys and girls has been established in

Plenty of Information in '57 Golfer's Handbook

The Golfer's Handbook, 1957 edition. Published at 56 Annadale, St. Edinburgh 7, Scotland. Price \$5. The 54th year of this annual compilation presents revised world-wide golf statistics, championship (mainly British and colonial) results, directories of British, Canadian and foreign (other than U. S.) clubs, Who's Who in Golf, and a vast amount of miscellaneous information.

It's an invaluable reference volume of about 1,100 pages. There's nothing else like it in the world. It was a favorite project of the late Donald Mathieson, publisher of Golf Monthly of Edinburgh. His two sons have added to the features of this immensely interesting book.

New Zealand on site of Harewood club, Canterbury, which was disbanded shortly after start of World War II . . . Parents of youngsters sponsor the club and got it into condition . . . School boys and girls are officers.

Rain has been murderous to sports business this spring . . . Baseball clubs hope to make up attendance by double-headers . . . Pros are going to have to get a lot of help from committees in increasing play later this year . . . With rain reducing golf play clubhouse business also has slumped in many districts . . . Pros generally report that club sales have been good . . . That means the pros will have a chance to boost ball sales later as the fellows and girls with new clubs are eager to use them a lot.

Charles Bartlett, Chicago Tribune golf writer, wrote that up to May 20 sales at private club pro shops, play at pay-play courses and at ranges in Chicago district was "off 40 per cent."

Veteran pros are still optimistic about year's prospects . . . They point out that better drainage makes courses playable much quicker than was the case 10 years ago or prior, and that the golf season in central states didn't get going good until about Memorial Day and was over about Labor Day, prior to World War II . . . Leaf-cleaning at courses has accounted for lengthening the season well into balmy October in most states north of the Mason-Dixon line.
