

Rx for healthier turf this summer:

SUPER REEL *Aerification*

followed by

VERTI-CUT® *Mowing*

Better Water Penetration

With the West Point SUPER REEL Superintendents get four-way aerifying with just one operation. SUPER REEL'S many more spoons and accurate depth adjustment mean thorough cultivation at the right depth for the kind of turf . . . type of soil . . . section of the country . . . time of the year.

Aerify with the SUPER REEL this summer to keep the soil open for better water penetration and greener, healthier turf.

Better Disease Control

The blades of the Verti-Cut mower cut down into turf to trim thru runners and outspread leaves. Verti-cutting removes dead material that harbors disease. It controls thatch which complicates every phase of management.

No need for heat and humidity to give you a hard time this summer. Follow the proven prescription: SUPER REEL aerification and Verti-cutting.

®Reg. U. S. Pat. Off.

FORD... FOR TOP PERFORMANCE WHEN YOU'RE UNDER PRESSURE

Golf course maintenance is a year-round problem and Ford owners keep their tractors working steadily from job to job and season to season. But one big reason for Ford's popularity is its performance as a "pressure partner."

When peak-summer sun is searing greens and wilting fairways... when heavy rains seem to double the speed of turf and weed growth... when *any* extreme of weather adds to the work load and all parts of the course need help at once... Ford rises to the occasion with the fire of a challenger and the steadiness of an "old pro."

Quick-change versatility and fast transport permit quick handling of many jobs all over the course with no lost time, no lost motion. Simple design makes Ford operation as easy as driving an auto. And the new Ford tractors, as always, take it easy on your turf, provide featherweight footwork with heavyweight lugging power! Check your nearby dealer for more details, or write to Tractor and Implement Division, Ford Motor Company, Birmingham, Michigan.

ARMOUR

Vertagreen[®]

Beautiful Pine Hollow Country Club in East Norwich, New York, one of America's leading courses, is host to the Pepsi Open, June 25-29.

Since the beginning of the course, three years ago, ARMOUR VERTAGREEN has been used to condition the turf. Proof of VERTAGREEN superiority is in this comment from Carl Fechter, greens superintendent: "We tried other makes of plant foods but found none could compare with VERTAGREEN for holding color and heavy turf, even through hot, dry weather."

VERTAGREEN gives superior results, builds a dense, deep-rooted drought-resistant turf of outstanding health and color. It's the best plant food for your golf course; because VERTAGREEN is specially formulated to promote sturdy, healthy growth for greens, fairways and tees. VERTAGREEN is fine for trees and shrubbery.

Start using longer-lasting VERTAGREEN now . . . and maintain the finest playable turfgrass.

ROSEMAN MOWERS

Roseman Mowers do a beautiful mowing job. There are also many outstanding features that make ROSEMAN your best buy. Park Challenger mowers raise hydraulically for quick transport between scattered sites. Note how roller design overhangs curbs, trimming

as it goes. A tremendous labor saver. Cannot be done with wheel-type mowers where outer wheel drops off curb or trap. This exclusive ROSEMAN trimming feature also applies to flower and shrubby beds. Roller design also eliminates unsightly wheelmarks for a beautifully cut turf.

High mowing costs, wasted man hours and exorbitant repair bills are not found in gang mowers of Roseman design and quality.

Save on Labor

The exclusive labor saving ability of the Roseman hollow-roller-drive gang mower to overhang traps and edges of shrubby beds and to cut close to fences and structures, eliminates the need for much hand trimming. Hundreds of man hours can be saved or devoted to other tasks.

Save on Time

Roseman mowers are rear drive mowers that mow faster, more uniformly without kicking up the rear. Considerable savings in mowing time and man hours.

Save on Equipment

Roseman mowers with lift hitch are combination rough and fairway mowers. Rough areas can be maintained faster, at less cost, with no expense for additional gang of mowers. Just flip the mowers into high cutting position. Also a time and money saver

in mowing flooded or low lying fairways where grass sometimes "gets away" before tractor can get in.

Save on Repairs

Exclusive non-breakable malleable side frames and bed knife shoes. Heavy duty tough chrome nickel alloy steel reel blades, riveted—not welded—to avoid soft spots and breakage and give long life. Timken adjustable bearings and vanadium steel long-life bed knives assure faithful service for many years and almost non-existent repair bills.

Compare 'em all

You are invited to compare the Roseman mower with any other mower. Be sure and compare Roseman quality, design features, low upkeep costs, and performance. We believe that you, too, will join the swing to Roseman mowers.

NEW! 20% STRONGER FORMULATION

makes DI-MET Crab Grass Killer even more effective!

NEW LOWER
PRICE FOR GOLF
COURSES

Now bulk users of Liquid DI-MET get the advantage of a pepped up formulation and pay less for it! Your overwhelming preference for DI-MET, the country's No. 1 Crab Grass Killer, makes it possible for us to give you *more for less*. The new 30% DSMA Hexahydrate formulation is available in gallon, 5-gallon, and 50-gallon drums. See your supplier, or write direct.

DI-MET Concentrated Water Soluble Powders in 3 Formulations

These DI-MET Powders can't be beat for ease of application in any spray equipment, or for greater kill at lower cost. Compare the *active* ingredients in these DI-MET Powder compounds with those in other DSMA products. See how much more coverage you get for the money.

DI-MET 98% Powder. DSMA Hexahydrate 98% (as anhydrous 61.5%. Total arsenic 25%). Safest and most effective crabgrass and dallis grass killer. For bent putting greens and other turfs.

DI-MET 90 WA. DSMA Hexahydrate 90.27% *plus* concentrated Wetting Agent. For faster action and greater penetration.

DI-MET Plus 2. DSMA Hexahydrate 61.74%; *plus* 2,4-D Sodium Salt 26.75%; *plus* concentrated Wetting Agent. Fastest acting crabgrass and dallis grass killer ever offered! Synergistic action of formula kills more kinds of weeds and obnoxious grasses than separate applications of DSMA and 2,4-D.
