

Better answers to Turf needs

10-6-4

G and F (Greens and Fairways) Lawn Food is specially formulated to build turf that combines tough ruggedness with velvet-green beauty. G & F contains *both* organic and inorganic nitrogen. The inorganic form is readily soluble and quickly available, while the high organic portion is released slowly, over a long period. This controlled release of nitrogen keeps grass green and healthy longer.

10-3-7

SPECIAL TURF FOOD

SACCO'S new Special Turf Food is "tailor-made" for golf courses where soil samples *show accumulation of phosphorus to the point of excess, with little available potash.*

It has more nitrogen and more potash, and enough phosphorus to meet seasonal needs without unnecessary phosphorus build-up.

High in nitrogen (1/3 organic) it gives grass a quick boost, even in cool weather, and has retained nutrients for uniform growth over a long period. For tougher, healthier greener greens and fairways, use SACCO SPECIAL TURF FOOD.

High in nitrogen (1/3 organic) it gives grass a quick boost, even in cool weather, and has retained nutrients for uniform growth over a long period. For tougher, healthier greener greens and fairways, use SACCO SPECIAL TURF FOOD.

PLANT FOOD 4-12-4

Sacco Plant Food is the **Complete** plant food — famous for results on lawns, flowers, gardens, shrubs, and trees of all kinds! **High phosphate content assures deep root development.** Has right balance of nitrogen and potash, plus the all-important mineral trace elements — for rugged turf and healthy plants.

**A
GREAT MATCH!**

RAIN BIRD & NELSON

*The Champions in Turf
Irrigation Equipment*

RAIN BIRD TURF SPRINKLER MODEL 80B

- One of the really great combinations in the turf irrigation field, Rain Bird and Nelson combine to give you unsurpassed watering capacity with economy and efficiency of operation.
- Rain Bird Sprinklers provide maximum, penetrating coverage over large turf areas, and are available to cover any part of a circle, or full circle. As part circle they water the grass, shrubbery, trees **without** soaking walks, drives or buildings. Perfection of operation... ease of maintenance are assured by a minimum of moving parts.
- Together, Rain Bird and Nelson offer you the most complete line of turf valves. Both, Nelson Quick Coupling Valves and Rain Bird Sure-Quick Turf Valves, are self-closing, foolproof, and afford fast, positive coupling and uncoupling without tools. Top flush with turf, they maintain landscape beauty... eliminate hazard to moving equipment and persons walking or playing.

NELSON MIDGET VALVE
MODEL 30A

IMPORTANT!

Nelson and Rain Bird valves and sprinklers save time and labor... cut your operating cost substantially.

Write for literature on the most complete line of valves and sprinklers, and see how easily... how completely your turf irrigation requirements can be satisfied.

SAVES OVER 100 HOURS!

Top Dress 18 Greens In 8 Hours With New Lawn Beauty Power Spreader

SAVES WELL OVER \$100 IN LABOR COSTS WITH EACH TOP DRESSING OPERATION.

CARRIES 200 LBS. OF CHEMICAL OR ORGANIC FERTILIZER, GRASS SEED, LIME OR INSECTICIDE.

ASSURES EXACT CONTROL OF FLOW WITH EXCLUSIVE RATE CONTROL DIAL AND FORCE-FEED AGITATOR . . . THIRD WHEEL INSURES STABILITY.

Fertilize an average green in 15 minutes. Let engine power move the load in your all-new Lawn Beauty Power Spreader. Slopes, putting greens, and green aprons come and go without strain, without fatigue. The easy-to-reach hand clutch, gear shift and adjustable throttle provide full, positive control. Shift into forward, neutral or reverse. Spread 200 pounds of material with-

out reloading. Hopper volume may be increased to 5 cu. ft. with extension provided as standard equipment.

Optional brush attachment is adjustable to best height. Both hopper bottom and removable shutter are of enduring stainless steel.

This Lawn Beauty, like every Lawn Beauty, gives you accurate control over the amount of material going on your soil. Simply turn the rate control dial to the correct setting. Winged discs on the patented agitator force a continuous flow through hopper ports. This flow stops instantly with a twist of the "on-off" handle.

Save yourself and your time. Send the coupon below for full information on the exciting new Lawn Beauty Model 336. It's the first and only spreader with engine drive!

- 2.7 hp Briggs & Stratton Engine
- Hand Control Clutch
- Gear Shift—Reverse
- Adjustable Throttle
- Optional Brush Attachment With Height Adjustment
- Hopper Extension At No Extra Cost
- Two-Wheel Drive

Patented. Other patents pending and applied for.

Ethan Kirkhart member of Golf Course Superintendents Association and superintendent of the Youngstown (Ohio) Country Club, uses a Victor car to speed his work in supervising maintenance crews.

“Victor Electri-Cars are easiest on turf!”

... says **Ethan Kirkhart**

Mr. Kirkhart has studied the effects of six different golf cars on his turf. He says, “Victor is the only machine designed to treat the course gently.” Victor’s exclusive dynamic battery weight distribution (all batteries balanced low over rear wheels instead of static dead battery weight centered under seats) ends scuffing, spinning and skidding on starts and stops. Victor’s special differential rear end distributes full power equally to both rear wheels. Victor’s self-equalizing disc-type brake on pinion end of differential gives balanced braking on both rear wheels. These are the secrets of Victor gentleness on tender grasses and soft turfs.

Practically no up-keep. This is another reason why Youngstown Country Club members prefer and own Victors 8 to 1

over other makes. If adjustments are needed, the entire body lifts up to expose all working parts. No mechanical experience needed. You can do it yourself.

“I’ve had my Victor for a year,” says Mr. Kirkhart, “and I’m 100% sold on it. With three crews working at different locations, I maintain close supervision by scooting across fairways, up the steepest hills, and through the rough anywhere on the course.”

Club Officers: for details on Victor’s Pay-as-you-Profit fleet plan and a demonstration, write on your club letterhead today.

Golfers: for details on private-owner models and Victor’s Pay-as-you-Play plan write for “Private Owners Bulletin.”
